Bangladesh is a friendly
and colorful country,
known for its
contradictions. It has a
distinct culture, although
the Bangladeshi people
have fought for their own

political identity for many
years. Bangladesh is also
one of the ten most
populous countries in the
world, although its
borders have been hotly
contested. Readers will
explore this complex
nation in this informative
text through engaging
sidebars, interesting facts,
and vibrant photographs.

"The last great work of
the age of reason, the
final instance when all
human knowledge could

be presented with a single
point of view ...
Unabashed optimism, and
unabashed racism,
pervades many entries in
the 11th, and provide its
defining characteristics ...
Despite its occasional
ugliness, the reputation of
the 11th persists today
because of the staggering
depth of knowledge
contained with its
volumes. It is especially
strong in its biographical
entries. These delve
deeply into the history of
men and women
prominent in their eras
who have since been

largely forgotten - except by the historians, scholars"-- The Guardian, <https://www.theguardian.com/books/booksblog/2012/apr/10/encyclopedia-britannica-11th-edition>. The Century Dictionary, Cavendish Square Publishing, LLC Report for 1879/1880 includes information on state railways from their beginning.

Calendars are created by civilisations to give meaning to the continuous flow of time according to their world-views. Over the past millennia, India has developed it's own unique collection of many calendars for regulating it's religious and cultural life. The current book presents a comprehensive account of their structure and relative importance at the present time and

places them in the context of other calendars prevalent outside India. Suggestions have also been made for making some changes to bring them in line with our current astronomical knowledge. This book will be very useful to students and anyone who is curious about calendars.
