The Cambridge History of Magic and  
Witchcraft in the West Broadview Press  
Faces the question of whether a  
Christian can have a demon, examines  
various methods of deliverance, and

teaches how deliverance can be  
maintained. This book describes how  
people can be released from demonic  
oppression. It includes prayers for  
deliverance, release from curses, soul  
ties and Freemasonry.

**DEVILS, DEMONS, & DELIVERANCE**

Cornell University Press

A new edition of an occult classic, which includes a new introduction by Mary K. Greer, author of *Women of the Golden Dawn*, and a new afterword with excerpts from rarely seen documents by Fortune herself describing how the book came about. After finding herself the subject of a powerful psychic attack in the 1930s, famed British occultist Dion Fortune wrote this detailed instruction manual on protecting oneself from paranormal attack. This classic psychic self-defense guide explains how to understand the signs of a psychic attack, vampirism, hauntings, and methods of defense. Everything you need to know about the methods, motives, and physical aspects of a psychic attack and how to overcome it is here, along with a look at the role psychic elements play in

mental illness and how to recognize them. This is one of the best guides to detection and defense against psychic attack from one of the leading occult writers of the twentieth century. This Weiser Classics edition of Dion Fortune's *Psychic Self-Defense* includes a new forward by Mary K. Greer, author of numerous books including *Tarot for Your Self*, and a new afterword by Christian Gilson that chronicles the original context surrounding Dion Fortune's writing of the book. Mr. Gibson is the editor of *The Inner Light*, the journal published by the Society of Inner Light. *Picture Book of Devils, Demons and Witchcraft* McFarland  
Written by King James I and published in 1597, the original edition of *Demonology* is widely regarded as one of the most

interesting and controversial religious writings in history, yet because it is written in the language of its day, it has been notoriously difficult to understand. Now occult scholar Donald Tyson has modernized and annotated the original text, making this historically important work accessible to contemporary readers. Also deciphered here, for the first time, is the anonymous tract *News from Scotland*, an account of the North Berwick witch trials over which King James presided. Tyson examines King James' obsession with witches and their alleged attempts on his life, and offers a knowledgeable and sympathetic look at the details of magick and witchcraft in the Jacobean period. *Demonology* features historical woodcut illustrations and includes the original old English

texts in their entirety. This reference work is the key to an essential source text on seventeenth-century witchcraft and the Scottish witch trials *Devil in Pinstripes* DigiCat This masterwork presents 244 representations, symbols, and manuscript pages of devils and death from Ancient Egypt to 1913. Fascinating graphics depict demons, witches and warlocks, the Danse Macabre, Hell and Damnation, the Art of Dying, and more. Includes works by Dürer, Cranach, Holbein, and Rembrandt.

### **Historical Dictionary of Witchcraft**

Edition Roter Drache

To find out, Stephens conducts a detailed investigation of the first and most influential treatises on witchcraft (written between 1430 and 1530),

including the infamous Malleus maleficarum (Hammer of Witches).".  
Devils, Demons, and Witchcraft Infobase Publishing

Christians are fighting a spiritual war against an enemy whose power most don't understand. Can a demon dwell in a Christian? Possess him? With scholarly wisdom and pastoral urgency, Dr. Unger challenges apathy and misunderstanding with concrete biblical answers. Facts, not sensationalism.

The Book of Mephisto Getty Publications  
 This book explores the manifold ways of knowing—and knowing about—preternatural beings such as demons, angels, fairies, and other spirits that inhabited and were believed to act in early modern European worlds. Its contributors examine how people across

the social spectrum assayed the various types of spiritual entities that they believed dwelled invisibly but meaningfully in the spaces just beyond (and occasionally within) the limits of human perception. Collectively, the volume demonstrates that an awareness and understanding of the nature and capabilities of spirits—whether benevolent or malevolent—was fundamental to the knowledge-making practices that characterize the years between ca. 1500 and 1750. This is, therefore, a book about how epistemological and experiential knowledge of spirits persisted and evolved in concert with the wider intellectual changes of the early modern period, such as the Protestant Reformation, the Scientific Revolution,

and the Enlightenment.

### **What Demons Can Do to Saints**

Sovereign World Ltd

The second edition of Historical Dictionary of Witchcraft covers the history of the Witchcraft from 1750 B.C.E. though the modern day. This is done through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries on witch hunts, witchcraft trials, and related practices around the world. This book is an excellent access point for students, researchers, and anyone wanting to know more about the history of witchcraft.

*Knowing Demons, Knowing Spirits in the Early Modern Period* Llewellyn Worldwide  
At the center of this remarkable 1621

play is the story of Elizabeth Sawyer, the titular “Witch of Edmonton,” a woman who had in fact been executed for the crime of witchcraft mere months before the play’s first performance. Described by the authors as a tragi-comedy and drawn in part from a pamphlet account of the trial then circulating, the play not only offers a riveting account of the contemporary superstitions embodied by the figure of the witch, but also delivers an implicit critique of the society that has created her. This edition of the work offers a compelling and informative introduction, thorough annotation, and a selection of contextual materials that helps set the play in the context of the “witch-craze” of Jacobean England.

St. Martin's Press

This exhaustive volume catalogs nearly

three thousand demons in the mythologies and lore of virtually every ancient society and most religions. From Aamon, the demon of life and reproduction with the head of a serpent and the body of a wolf in Christian demonology, to Zu, the half-man, half-bird personification of the southern wind and thunder clouds in Sumero-Akkadian mythology, entries offer descriptions of each demon's origins, appearance and cultural significance. Also included are descriptions of the demonic and diabolical members making up the hierarchy of Hell and the numerous species of demons that, according to various folklores, mythologies, and religions, populate the earth and plague mankind. Very thoroughly indexed.  
*Vexed with Devils* Peter Smith Pub

Incorporated  
Witchcraft and magic are topics of enduring interest for many reasons. The main one lies in their extraordinary interdisciplinarity: anthropologists, folklorists, historians, and more have contributed to build a body of work of extreme variety and consistence. Of course, this also means that the subjects themselves are not easy to assess. In a very general way, we can define witchcraft as a supernatural means to cause harm, death, or misfortune, while magic also belongs to the field of supernatural, or at least esoteric knowledge, but can be used to less dangerous effects (e.g., divination and astrology). In Western civilization, however, the witch hunt has set a very peculiar perspective in which diabolical

witchcraft, the invention of the Sabbat, the persecution of many thousands of (mostly) female and (sometimes) male presumed witches gave way to a phenomenon that is fundamentally different from traditional witchcraft. This Special Issue of Religions dedicated to Witchcraft, Demonology, and Magic features nine articles that deal with four different regions of Europe (England, Germany, Hungary, and Italy) between Late Medieval and Modern times in different contexts and social milieus. Far from pretending to offer a complete picture, they focus on some topics that are central to the research in those fields and fit well in the current “cumulative concept of Western witchcraft” that rules out all mono-causality theories, investigating a plurality of causes.

**The Possession at Loudun** University of Chicago Press

Devil in Pinstripes takes you behind the scenes through the power-packed aisles of New York International Bank (NYIB) and the sharpest of its minds. It is the story of Amit, an ambitious MBA who joins NYIB and thereby, the world of high pressure competitive foreign banking and the current crisis that engulfs this sector. As life throws its curves, Amit finds himself stuck between the lives of three others - his wife and later colleague, Chanda; Gowri, a power-hungry political maestro par excellence and Amit's arch rival; and above all, his mentor Aditya, who plays devious power games with almost everyone in his quest for success and fame.

**Out of the Devil's Cauldron** Springer

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found

on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

## THE BIRTH OF SATAN

Devils, Demons, and Witchcraft Histories you can trust. This history provides a readable and fresh approach to the extensive and complex story of witchcraft and magic. Telling the story from the dawn of writing in the ancient world to the globally successful Harry Potter films, the authors explore a wide range of magical beliefs and practices, the rise of the witch trials, and the depiction of the Devil-worshipping witch. The book also focuses on the more recent history of witchcraft and magic, from the Enlightenment to the present, exploring the rise of modern magic, the anthropology of magic around the globe, and finally the cinematic portrayal of witches and magicians, from The Wizard

of Oz to Charmed and Buffy the Vampire Slayer.

## WITCHCRAFT AND THE ILLUMINATI

Skyhorse Publishing Inc.

Stories of witchcraft and demonic possession from early modern England through the last official trials in colonial New England Those possessed by the devil in early modern England usually exhibited a common set of symptoms: fits, vomiting, visions, contortions, speaking in tongues, and an antipathy to prayer. However, it was a matter of interpretation, and sometimes public opinion, if these symptoms were visited upon the victim, or if they came from within. Both early modern England and colonial New England had cases that blurred the line between witchcraft and

demonic possession, most famously, the Salem witch trials. While historians acknowledge some similarities in witch trials between the two regions, such as the fact that an overwhelming majority of witches were women, the histories of these cases primarily focus on local contexts and specifics. In so doing, they overlook the ways in which manhood factored into possession and witchcraft cases. *Vexed with Devils* is a cultural history of witchcraft-possession phenomena that centers on the role of men and patriarchal power. Erika Gasser reveals that witchcraft trials had as much to do with who had power in the community, to impose judgement or to subvert order, as they did with religious belief. She argues that the gendered dynamics of possession and witchcraft

demonstrated that contested meanings of manhood played a critical role in the struggle to maintain authority. While all men were not capable of accessing power in the same ways, many of the people involved—those who acted as if they were possessed, men accused of being witches, and men who wrote possession propaganda—invoked manhood as they struggled to advocate for themselves during these perilous times. Gasser ultimately concludes that the decline of possession and witchcraft cases was not merely a product of change over time, but rather an indication of the ways in which patriarchal power endured throughout and beyond the colonial period. *Vexed with Devils* reexamines an unnerving time and offers a surprising new

perspective on our own, using stories and voices which emerge from the records in ways that continue to fascinate and unsettle us.

*The Devil and the Dark Water* Moody Publishers

Explores this dark aspect of folklore and religion and the role that demons play in the modern world. Includes numerous entries documenting beliefs about demons and demonology from ancient history to the present.

**Thinking with Demons** NYU Press

This book presents twenty chapters by experts in their fields, providing a thorough and interdisciplinary overview of the theory and practice of magic in the West. Its chronological scope extends from the Ancient Near East to twenty-first-century North America; its

objects of analysis range from Persian curse tablets to US neo-paganism. For comparative purposes, the volume includes chapters on developments in the Jewish and Muslim worlds, evaluated not simply for what they contributed at various points to European notions of magic, but also as models of alternative development in ancient Mediterranean legacy. Similarly, the volume highlights the transformative and challenging encounters of Europeans with non-Europeans, regarding the practice of magic in both early modern colonization and more recent decolonization.

**Encyclopedia of Demons in World Religions and Cultures** Oxford University Press

This open access book presents fresh ethnographic work from the regions of

Africa and Melanesia—where the popularity of charismatic Christianity can be linked to a revival and transformation of witchcraft. The volume demonstrates how the Holy Spirit has become an adversary to the reconfirmed presence of witches, demons, and sorcerers as manifestations of evil. We learn how this is articulated in spiritual warfare, in

crusades, and in healing or witch-killing raids. The contributors highlight what happens to phenomena that people address as locally specific witchcraft or sorcery when re-molded within the universalist Pentecostal demonology, vocabulary, and confrontational methodology.
