With this new thriller, The New York Times bestselling author Tami Hoag delivers her own message to suspense fans everywhere: Don't turn off the lights, and keep reading if you dare. From the gritty streets of Los Angeles to its most protected enclaves of prestige and power to the ruthless glamour of Hollywood, a killer stalks his prey. A killer so merciless no one in his way is safe—not even the innocent. At the end of a long day battling street traffic, bike messenger Jace Damon has one last drop to make. But en route to delivering a package for one of L.A.'s sleaziest defense attorneys, he's nearly run down by a car, chased through back alleys, and shot at. Only the instincts acquired while growing up on the streets of L.A. allow him to escape with his life—and with the package someone wants badly enough to kill for. Jace returns to Lenny Lowell's office only to find the cops there, the lawyer dead, and Jace himself considered the prime suspect in the savage murder. Suddenly he's on the run from both the cops and a killer, and the key to saving himself and his ten-year-old brother is the envelope he still has—which holds a message no one wants delivered: the truth. In a city fueled by money, celebrity, and sensationalism, the murder of a bottom-feeding mouthpiece like Lenny Lowell won't make the headlines. So when detectives from the LAPD's elite robbery/homicide division show up, homicide detective Kev Parker wants to know why. Parker is on the downhill slide of a once-promising career, and he doesn't want to be reminded that he used to be one of the hotshots, working cases that made instant celebrities of everyone involved. Like the case of fading retty-boy actor Rob Cole, accused of the brutal murder of his wife, Tricia Crowne-Cole, daughter of one of the most powerful men in the city, L.A.'s latest "crime of the century." Robbery/Homicide has no reason to be looking at a dead small-time scumbag lawyer or chasing a bike messenger...unless there's something in it for them. Maybe Lenny Lowell had a connection to something big enough to be killed for. Parker begins a search for

answers that will lead him to a killer—or the end of his career. Because if there's one lesson he's learned over the years, it's that in a town built on fantasy and fame, delivering the truth can be deadly.

Journalist and researcher Murray reviews the reporting on Japanese imperial aggression by the Australian mass circulation media in the years between Japanese attack on the Manchurian capital of Mukden in 1931 and the defeat of British and Australian forces by the Japanese in Singapore in 1942, which "was the final event that shocked a.

News consumers made cynical by sensationalist banners—"AMERICA STRIKES BACK," "THE TERROR OF ANTHRAX"—and lurid leads might be surprised to learn that in 1690, the newspaper Publick Occurrences gossiped about the sexual indiscretions of French royalty or seasoned the story of missing children by adding that "barbarous Indians were lurking about" before the disappearance. Surprising, too, might be the media's steady adherence to, if continual tugging at, its philosophical and ethical moorings. These 39 essays, written and edited by the nation's leading professors of journalism, cover the theory and practice of print, radio, and TV news reporting. Politics and partisanship, press and the government, gender and the press corps, presidential coverage, war reportage, technology and news gathering, sensationalism: each subject is treated individually. Appropriate for interested lay persons, students, professors and reporters. Instructors considering this book for use in a course may request an examination copy here.

Some of the bravest actions of journalists are unknown, obscured by the passage of time, hidden by veils of anonymity or buried by systematic repression. Profiles in Journalistic Courage corrects this imbalance. With few exceptions, the stories told in this collection are unfamiliar. In the words of Richard Whelan on Robert Capa's vision of the Spanish Civil War, these tales are drawn from the edge of things. Most of the people highlighted here are journalists who worked on the margins of popularity, who blazed new and solitary paths, and who left fleeting legacies.Courageous journalists were not always thanked for their pioneering efforts. Jealousy, political disagreements,

and differing conceptions of journalism sometimes fueled criticism of some of those dealt with in this volume. To complicate the subject further, brave journalists do not always act for reasons that win popularity or acclaim. Actions with laudable consequences are sometimes the result of egoism, stubbornness and ignorance, no less than selflessness, prudence, and principle. These psychological dimensions are not avoided in these profiles.In "Yesterday" David Copeland examines the tangled legacy of the trial of John Peter Zenger. Graham Hodges unearths the story of David Ruggles, an African-American journalist and abolitionist. Pamela Newkirk recalls the life and work of Ida B. Wells-Barnett. Pierre Albert explores the journalism of the French Resistance. Bernard L. Stein and Hank Klibanoff describe the work and motives of the civil rights movement. The volume covers the journalism of commitment from Northern Ireland to Native American tribes. It closes with an extended essay by James Boylan on varied perspectives on different aspects of courage in journalism, from the capacity to resist threats to the courage to tell people what they may not want to hear or read.

Better—it has solutions. The Elements of Journalism is written for journalists, but any citizen who wonders why the news seems trivial or uninspiring should read it." —Marta Salij, Detroit Free Press The elements of journalism are: \* Journalism's first obligation is to the truth. \* Its first loyalty is to citizens. \* Its essence is a discipline of verification. \* Its practitioners must maintain an independence from those they cover. \* It must serve as an

independent monitor of power. \* It must provide a forum for public criticism and compromise. \* It must strive to make the significant interesting and relevant. \* It must keep the news comprehensive and proportional. \* Its practitioners must be allowed to exercise their personal conscience.

Looking at how journalism has changed over time, this book explores how the long-standing and untrustworthy conventions developed. It examines why reliable standards of objectivity and accuracy are critical not just to a free press but to the democratic society it informs and serves. It offers an account of how journalism and truth work.

The story behind the 1940s Commission on Freedom of the Press—groundbreaking then, timelier than ever now "A well-constructed, timely study, clearly relevant to current debates."—Kirkus, starred review In 1943, Time Inc. editor-in-chief Henry R. Luce sponsored the greatest collaboration of intellectuals in the twentieth century. He and University of Chicago president Robert Maynard Hutchins summoned the theologian Reinhold Niebuhr, the Pulitzer-winning poet Archibald MacLeish, and ten other preeminent thinkers to join the Commission on Freedom of the Press. They spent three years wrestling with subjects that are as pertinent as ever: partisan media and distorted news, activists who silence rather than rebut their opponents, conspiracy theories spread by shadowy groups, and the survivability of American democracy in a post-truth age. The report that emerged, *A Free and Responsible Press*, is a classic, but many of the commission's sharpest insights never made it into print. Journalist and First Amendment scholar Stephen Bates reveals how these towering intellects debated some of the most vital questions of their time—and reached conclusions urgently relevant today.

In all of journalism, nowhere are the stakes higher than in foreign news-gathering. For media owners, it is the most difficult type of reporting to finance; for editors, the hardest to oversee. Correspondents, roaming large swaths of the planet, must acquire expertise that home-based reporters take for granted -- facility with the local language, for instance, or an understanding of local cultures. Adding further to the challenges, they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs -- a task made all the more daunting because of the consequence to national security. In *Journalism's Roving Eye*, John Maxwell Hamilton -- a historian and former foreign correspondent -- provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage, as well as the cavalcade of colorful personalities who shaped readers' perceptions of the world across two centuries. From the colonial era -- when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships -- to the ongoing multimedia press coverage of the Iraq

War, Hamilton explores journalism's constant -- and not always successful -- efforts at "dishing the foreign news," as James Gordon Bennett put it in the mid-nineteenth century to describe his approach in the *New York Herald*. He details the highly partisan coverage of the French Revolution, the early emergence of "special correspondents" and the challenges of organizing their efforts, the profound impact of the non-yellow press in the run-up to the Spanish-American War, the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I, and the "golden age" of foreign correspondence during the interwar period, when outlets for foreign news swelled and a large number of experienced, independent journalists circled the globe. From the Nazis' intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War, Hamilton covers every aspect of delivering foreign news to American doorsteps. Along the way, Hamilton singles out a fascinating cast of characters, among them Victor Lawson, the overlooked proprietor of the *Chicago Daily News*, who pioneered the concept of a foreign news service geared to American interests; Henry Morton Stanley, one of the first reporters to generate news on his own with his 1871 expedition to East Africa to "find Livingstone"; and Jack Belden, a forgotten brooding figure who exemplified the best in combat reporting. Hamilton details the experiences of correspondents, editors, owners, publishers, and network executives, as well as the political leaders who made the news and the technicians who invented ways to transmit it. Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news-gathering. Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry, many fear that foreign reporting will soon no longer exist. But as Hamilton shows in this magisterial work, traditional correspondence survives alongside a new type of reporting. *Journalism's Roving Eye* offers a keen understanding of the vicissitudes in foreign news, an understanding imperative to better seeing what lies ahead.

When a nineteen-year-old member of a Black Muslim cult assassinated Oakland newspaper editor Chauncey Bailey in 2007—the most shocking killing of a journalist in the United States in thirty years—the question was, Why? “I just wanted to be a good soldier, a strong soldier,” the killer told police. A strong soldier for whom? *Killing the Messenger* is a searing work of narrative nonfiction that explores one of the most blatant attacks on the First Amendment and free speech in American history and the small Black Muslim cult that carried it out. Award-winning investigative reporter Thomas Peele examines the Black Muslim movement from its founding in the early twentieth century by a con man who claimed to be God, to the height of power of the movement's leading figure, Elijah Muhammad, to how the great-grandson of Texas slaves reinvented himself as a Muslim leader in Oakland and built the violent cult that the young gunman eventually joined. Peele delves into how charlatans exploited poor African Americans with tales from a religion they falsely claimed was Islam and the years of bloodshed that followed, from a human sacrifice in Detroit to police shootings of unarmed Muslims to the horrible backlash of racism known as the “zebra murders,” and finally to the brazen killing of Chauncey Bailey to stop him from publishing a newspaper story. Peele establishes direct lines between the violent Black Muslim organization run by Yusuf Bey in Oakland and the evangelicalism of the early prophets and messengers of the Nation of Islam. Exposing the roots of the faith, Peele examines its forerunner, the Moorish Science Temple of America, which in the 1920s and '30s preached to migrants from the South living in Chicago and Detroit ghettos that blacks were the world's master race, tricked into slavery by white devils. In spite of the fantastical claims and hatred at its core, the Nation of Islam was able to build a following by appealing to the lack of identity common in slave descendants. In Oakland, Yusuf Bey built a cult through a business called Your Black Muslim Bakery, beating and raping dozens of women he claimed were his wives and fathering more than forty children. Yet, Bey remained a prominent fixture in the community, and police looked the other way as his violent soldiers ruled the streets. An enthralling narrative that combines a rich historical account with gritty urban reporting, *Killing the Messenger* is a mesmerizing story of how swindlers and con men abused the tragedy of racism and created a radical religion of bloodshed and fear that culminated in a journalist's murder. THOMAS PEELE is a digital investigative reporter for the Bay Area News Group and the Chauncey Bailey Project. He is also a lecturer at the University of California, Berkeley, Graduate School of Journalism. His many honors include the Investigative Reporters and Editors Tom Renner Award for his reporting on organized crime, and the McGill Medal for Journalistic Courage. He lives in Northern California.

In 60 essays, this volume profiles American journalists from colonial times to the present--reporters, editors, publishers, photographers, and broadcasters--whose careers reflected major developments in their profession and in the history of the United States. In a speech to *Newsweek* correspondents in 1963, publisher Philip Graham described journalism as "the first rough draft of history." These journalists confronted and helped to shape the discussion of major issues and events in American history, from the American revolution through abolition, westward expansion, the Civil War, the civil rights movement, immigration, and the women's movement, as well as major constitutional issues involving the First Amendment protection of freedom of the press. Biographies of well-known journalists, from Benjamin Franklin and Thomas Paine to Walter Cronkite and Rupert Murdoch, appear alongside some who may be less familiar, such as Elias Boudinot, founder of the first Cherokee language newspaper; Abraham Cahan, editor of the *Jewish Daily Forward*; and Daniel Craig, who in the 1830s used carrier pigeons to ferry the news. Other subjects include Margaret Green Draper, the revolutionary printer; Claude Barnett, founder of the *Associated Negro Press*; photojournalist Margaret Bourke-White; war correspondent Ernie Pyle; and Allen Neuharth, founder of *USA Today*. Illustrations, fact boxes, and quotations from the subjects themselves make this volume an indispensable reference for students of American history as well as a fascinating read. Journalists profiled include: Horace Greeley Frederick Douglass Mark Twain Thomas Nast Joseph Pulitzer Nellie Bly William Randolph Hearst Ida Wells-Barnett H. L. Mencken Dorothy Thompson Walter Winchell Red Smith Edward R. Murrow Walter Cronkite Bernard Shaw Cokie Roberts Manuel de Dios Unanue and many more

"A provocative, inspiring and challenging intervention in both journalism and media studies..."

Alternative Journalism is that rare book that services students as much as scholars. It widens the trajectory of media studies and creates different modes of reading, writing and thinking... It offers an alternative history beyond the tales of great men, great newspapers, great editors and great technologies. It adds value and content to overused and ambiguous words such as "community" and "citizenship" and captures the spark of new information environments." - THE, (Times Higher Education) Alternative Journalism investigates and analyses the diverse forms and genres of

journalism that have arisen as challenges to mainstream news coverage. From the radical content of emancipatory media to the dizzying range of citizen journalist blogs and fanzine subcultures, this book charts the historical and cultural practices of this diverse and globalized phenomenon. This exploration goes to the heart of journalism itself, prompting a critical inquiry into the epistemology of news, the professional norms of objectivity, the elite basis of journalism and the hierarchical commerce of news production. In investigating the challenges to media power presented by alternative journalism, Atton addresses not just the issues of politics and empowerment but also the journalism of popular culture and the everyday. The result is essential reading for students of journalism - both mainstream and alternative.

But America's pursuit of fugitives beyond its borders predates the Global War on Terror. Katherine Unterman shows that the extension of manhunts into foreign lands formed an important chapter in American empire.

Bloomsbury Publishing USA

This wide-ranging, insightful book will make readers keenly aware of the media's power, while underscoring the role that we all play in fostering a media climate that cultivates a greater sense of humanity, cooperation, and fulfillment of human potential. What role do the media have in creating the conditions for atrocities such as occurred in Rwanda? Conversely, can the media be used to preserve democracy and safeguard the human rights of all citizens in a diverse society? How will the media, now global in scope, affect the fate of the planet itself? The author explores these intriguing questions and more in this in-depth examination of the media's power to either help or harm. She begins by documenting how the media were used to spread a contagion of hate in three deadly conflicts: Rwanda, Nazi Germany, and the former Yugoslavia. She then turns to areas of the world where the media acted constructively—by aiding the peace process in Northern Ireland, rebuilding democracy in Chile, bridging ethnic divides in South Africa, improving the lot of women in Senegal, and boosting transparency and democratization in Mexico and Taiwan. Finally, she explains how the media interact with psychological and cultural forces to impact perceptions, fears, peer-pressure, "groupthink," and the creation of heroes and villains.
