Service and Repair Manual

Haynes Publishing Group
Forty years after its introduction, the Fox Body Mustang has come of age, and this new book chronicles all the best procedures for restoring these affordable yet appreciating classics! In this new Restoration series title from CarTech, all the procedures and best practices for restoring your Fox Body will be covered. Chapter subjects include a history of the cars, tools, and equipment required; body repair; interior refurbishment; the climate control

system; wheels; engine and driveline

rebuilding; electrical troubleshooting and repair; and finally a large index of Fox Mustang facts, including paint codes, production numbers, option codes, data plate decoding, and more. Never before has Fox Body Mustang restoration been covered in a full-color instructional format. If you are considering a full-blown restoration, or would just like some good advice on how to repair certain sections of your car, this restoration guide is a valuable tool in your toolbox.

Manual Haynes Manuals N. America, Incorporated Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of

the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust
