Littlefield History of the  
Civ

Historians of the Civil  
War often speak of

"wars within a war--the  
military fight, wartime  
struggles on the home  
front, and the political  
and moral battle to  
preserve the Union and  
end slavery. In this  
broadly conceived

book, Thavolia Glymph provides a comprehensive new history of women's roles and lives in the Civil War--North and South, white and black, slave and free-- showing how women were essentially and fully engaged in all three arenas. Glymph focuses on the ideas and ideologies that drove women's actions, allegiances, and politics. We encounter women as they stood their ground, moved into each other's territory, sought and found common ground, and fought for vastly different principles. Some women used all the tools and powers they could muster to prevent the radical transformations the war increasingly imposed, some fought with equal might for

the same transformations, and other women fought simply to keep the war at bay as they waited for their husbands and sons to return home. Glymph shows how the Civil War exposed as never before the nation's fault lines, not just along race and class lines but also along the ragged boundaries of gender. However, Glymph makes clear that women's experiences were not new to the mid-nineteenth century; rather, many of them drew on memories of previous conflicts, like the American Revolution and the War of 1812, to make sense of the Civil War's disorder and death.

The Women's Fight

John Wiley & Sons

The essential guide to

the theory and application of the Social Change Model Leadership for a Better World provides an approachable introduction to the Social Change Model of Leadership Development (SCM), giving students a real-world context through which to explore the seven C's of leadership for social change as well as approaches to socially responsible leadership. From individual, group, and community values through the mechanisms of societal change itself, this book provides fundamental coverage of this increasingly vital topic. Action items, reflection, and discussion questions throughout encourage students to think about how these concepts

apply in their own lives. The Facilitator's Guide includes a wealth of activities, assignments, discussions, and supplementary resources to enrich the learning experience whether in class or in the co-curriculum. This new second edition includes student self-assessment rubrics for each element of the model and new discussion on the critical roles of leadership self-efficacy, social perspective, and social justice perspectives. Content is enriched with research on how this approach to leadership is developed, and two new chapters situate the model in a broader understanding of leadership and in applications of the model. The Social

Change Model is the most widely-used leadership model for college students, and has shaped college leadership curricula at schools throughout the U.S. and other countries including a translation in Chinese. This book provides a comprehensive exploration of the model, with a practical, relevant approach to real-world issues. Explore the many facets of social change and leadership

Navigate group dynamics surrounding controversy, collaboration, and purpose

Discover the meaning of citizenship and your commitment to the greater good

Become an agent of change through one of the many routes to a common goal

The SCM is backed by 15 years

of research, and continues to be informed by ongoing investigation into the interventions and environments that create positive leadership development outcomes. Leadership for a Better World provides a thorough, well-rounded tour of the Social Change Model, with guidance on application to real-world issues.

### **Leadership for a Better World**

The Women's Fight  
The Civil War's Battles for Home, Freedom, and Nation

All Things Fun & Fascinating is the perfect tool to help teachers and parents of 3rd-5th graders teach writing with a clear, simple, step-by-step method using subjects that will

fascinate young students. The lessons are meant to be a resource for teachers already familiar with Teaching Writing: Structure and Style.
