 * * * The bestselling real life story of a hapless junior doctor, based on his columns written anonymously for the Telegraph. IF YOU'RE GOING to be ill, it's best to avoid the first Wednesday in August. This is the day when junior doctors graduate to their first placements and begin to face having to put into practice what they have spent the last six years learning. Starting on the evening before he begins work as a doctor, this book charts Max Pemberton's touching and funny journey through his first year in the NHS. Progressing from youthful idealism to frank bewilderment, Max realises how little his job is about 'saving people' and how much of his time is taken up by signing forms and trying to figure out all the important things no one has explained yet -- for example, the crucial question of how to tell whether someone is dead or not. Along the way, Max and his fellow fledgling doctors grapple with the complicated questions of life, love, mental health and how on earth to make time to do your laundry. All

Creatures Great and Small meets Bridget Jones's Diary, this is a humorous and accessible peek into a world which you'd normally need a medical degree to witness. If you enjoy Trust Me, I'm a (Junior) Doctor, don't miss the follow-up titles Where Does It Hurt? and The Doctor Will See You Now. *Engineering Materials* Elsevier Health Sciences Written in an accessible style, this text assumes that the student has no previous education in taxation. Byrd & Chen's Canadian Tax Principles, 2010-2011 Edition, can be used with or without other source materials (this includes the Income Tax Act, Information Circulars, Interpretation Bulletins, and other official materials). The Income Tax Act is referenced in the text where appropriate for further independent study. Students should be able to solve all of the end-of-chapter problems by relying solely on the text as a reference. The text and problem materials are comprehensive of the syllabus requirements of the CGAs, CAs, and CMAs. For your convenience, the text material is now presented in two separate volumes.

The Classic Edition

Elsevier

Collects all three volumes of the Eisner Award-nominated graphic novels series, which skewers a self-important male literary poser. Living in a beat-up motel and consorting with the downtrodden as well as the mid-level literati, Fante Bukowski must overcome great obstacles — a love interest turned rival, ghostwriting a teen celebrity's memoirs, no actual talent — to gain the respect and adoration from critics and, more importantly, his father. Van Sciver has created a scathing, hilarious, and empathetic character study of a self-styled author determined that he's just one more poem (or drink) away from success. The book

includes a foreword by novelist Ryan Boudinot (Blueprints of the Afterlife), a facsimile reproduction of Bukowski's literary debut, 6 Poems (thought lost to time in the wake of a motel fire that destroyed the entire original print run), a "Works Cited" section, and a selection of "visual tributes" by over two dozen cartoonists including Nina Bunjevac, Simon Hanselmann, Jesse Jacobs, Ed Piskor, Leslie Stein, and others.

Islam's tense relationship with modernity is one of the most crucial issues of our time. Within Islamic legal systems, with their traditional preference for eyewitness testimony, this struggle has played a significant role in attitudes toward expert witnesses. Utilizing a uniquely comparative approach, Ron Shaham here examines the evolution of the role of such witnesses in a number of Arab countries from the premodern period to the present. Shaham begins with a history of expert testimony in medieval Islamic culture, analyzing the different roles played by male experts, especially physicians and architects, and females, particularly midwives. From there, he focuses on the case of Egypt, tracing the country's reform of its traditional legal system along European lines beginning in the late nineteenth century. Returning to a broader perspective, Shaham draws on a variety of legal and historical sources to place the phenomenon of expert testimony in cultural context. A truly comprehensive resource, *The Expert Witness in Islamic Courts* will be sought out by a broad

spectrum of scholars working in history, religion, gender studies, and law. *Spaceships and Rockets* S.
