[How to Build a Healthy Church \(Second Edition\)](#) Jesus on Leadership Becoming a Servant Leader, Student Member

'Team leadership is the exercise of one's spiritual gifts under the call of God to serve a certain group of people in achieving the goals God has given them toward the end of glorifying Christ.' How is your church or organization governed? Does it have an authoritarian, top-down administration? Is the ministry vision developed by a few top officials, with little input from staff or volunteers? Today the definition of an effective leader has changed. No longer does the model leader manage like the Lone Ranger - either do it his way or no way. Today the model leader shares responsibility with fellow team leaders and seeks to serve them. In this complete revision of his earlier work, Building Leaders for Church Education, Dr. Gangel carefully lays a biblical foundation for the team leadership model. This leadership is not dogmatic control or personality worship. It has no room for political power plays. Instead, it is Paul gently nurturing young Christians in his epistles. It is Barnabas willingly thrusting others into situations where they develop their own gifts. It is Christ, choosing not one, but twelve men to carry on His ministry. It is servant leadership. With examples, illustrations, and suggestions for further reading at the end of each chapter, Dr. Gangel prods and encourages the reader to move beyond the safety net of autocratic leadership into the rewarding, effective practice of leading with and through others.

Churches committed to following Christ's example want to see this world changed for the sake of eternity. While the supernatural component of making that happen goes without saying, how does a body of believers do its part to be in that "sweet spot" where true spiritual transformation can occur? In Transformational Church, bestselling research authors Thom S. Rainer and Ed Stetzer have surveyed fifty thousand down to five hundred congregations in search of the qualitative answer. Their book contains a wealth of indispensable new data, nuanced insights, and clear how-to guidance, all centered on this key finding: Transformational churches make disciples whose lives are being transformed by the gospel so that people engage the culture around them for its ultimate transformation. Deeply committed to the essential foundations of discipleship (worship, community, and mission), transformational churches practice their faith and make disciples through vibrant leadership, prayerful dependence upon God, and

relational intentionality. And they do so paying mind to their unique context and with a missionary mindset. The most comprehensive study of the American church to date.

God's Plan for Leading the Church - A Biblical, Historical and Cultural Perspective InterVarsity Press

Servant Leadership addresses a fundamental concern of the contemporary church by asking pertinent questions of the New Testament: Who became a leader in the Jesus movement and in Pauline Christianity? What was the social status of these leaders in the outside world as compared to the importance of such social status within the faith community? What practices characterized their leadership within the communities they served? The book explores models of leadership in the New Testament's two prime exemplars, Jesus and Paul, and in their respective communities of faith. It studies both Paul's statements and actions with regard to leadership issues with specific church communities, using Thessalonians, the Corinthians, the Galatians, and the Philippians correspondence as case studies in the practice of leadership. It concludes with a discussion of leadership challenges in the modern church and how a Pauline or Deutero-Pauline model can work for us today. The author shows how understanding one's followers, as well as the goals and purposes of the group one leads, is a fundamental function of leadership today, even in the corporate world. Similarly, although we expect Christian leadership to be confrontational and assertive at times, it must also be open to creating opportunities for others to exercise their gifts and, therefore, their leadership. Good leaders move others to respond to their own personal calls and commitments.

How should we see the Spirit at work in spiritual leaders today? How did the Spirit work through spiritual leaders in the Bible? While many books on spiritual leadership look at the culture around us and offer sound advice from biblical principles, this study asks Scripture first what the Spirit did through spiritual leaders in the Bible in order to figure out what the Spirit should be doing through spiritual leaders today.

Millions have been inspired by the Bible's spiritual lessons. Now, Lorin Woolfe provides a unique way to view the Bible . . . for leadership lessons that can be applied to our modern business world. Consider David's courage and innovation in slaying Goliath with just a stone and a sling; Moses' outstanding ""succession planning"" in picking Joshua; Joseph and the political skills that brought him to the seat of power; and of course, Jesus' compassion, communication skills, and vision that launched Christianity (a long-term success by any measure). These are leaders among leaders. Their achievements -- and their inspired methods of achievement -- offer a wholly different perspective on business leadership. For the dozens of Biblical stories presented, the book provides: * A concise retelling of each story * One (or more) leadership lessons suggested by each story * Examples of contemporary business leaders who exhibit some of the inspired traits of these ancient leaders, including: Fred Smith of FedEx, Howard Shultz of Starbucks, Tom Chappell of Tom's of Maine (a "toothpaste with a mission"), Roy Vagelos of Merck, and many more. The chapters cover these universal topics: Courage * Purpose * Communication * Honesty and Integrity * Power and Influence * Performance Management * Team Building * Humility * Compassion * Justice * Encouragement and Consequences * Wisdom * Creating the Future Each topic concludes with a list of key points to keep in mind as readers continue on their own leadership journeys.

The True Jesus Church was China's first major native Christian denomination and one of the earliest expressions of the charismatic and Pentecostal tradition that now dominates Chinese Christianity. Founded in 1917, after a silk merchant had a vision of Jesus, the Church was characterized by dramatic healings, exorcisms, tongues-speaking, and a call for a return to authentic Christianity that challenged the Western missionary establishment in China. In this history of the True Jesus Church, Melissa Wei-Tsing Inouye links together key themes from modern Chinese social history to tell the story of how members of the True Jesus Church in China over the past century have sought to muster divine and human resources to transform their world.

WHAT'S CHALLENGING YOUR LEADERSHIP? THE BIBLE HAS AN ANSWER! If you're trying to influence even one person, you are a leader. And that means you're facing challenges. The more you lead, the greater the number of challenges you face. How do you solve them? Dr. John C. Maxwell has been exploring these issues and helping leaders with them for decades. Where did Maxwell, recently named the #1 leadership and management expert in the world by Inc. magazine, gain such insight into leadership? From the Bible! John asserts that the Bible is the greatest leadership book that has ever been written. In this study, John addresses twenty-one of the most common issues leaders face. Starting with internal issues such as identity, purpose, pride, and self-leadership, and moving on to others such as criticism, change, diversity, teamwork and recruiting, John shows how leaders in the Bible addressed these issues with boldness and clarity, or, conversely, how they failed to lead. Either way, the lessons are clear. You can improve your leadership for not only your own sake, but also for that of your team and those you serve. In this twenty-one lesson study, John guides you through Scriptures that reveal the challenges leaders face and the solutions available to them. Each lesson includes: THE ISSUE DEFINED: a brief description and introduction to the Issue CASE STUDIES: THREE BIBLICAL STUDIES: including leaders such as Joseph, Moses, Ruth, David, Nehemiah, Peter, Titus, and Jesus—that reveal and illustrate the Issue STUDY QUESTIONS: reflection and application questions to help you dig into the stories of the men and women in Scripture and learn from them LEADERSHIP INSIGHT AND REFLECTION: questions to help you assess and improve your own leadership skills TAKING ACTION: practical takeaways and direction to help you incorporate each lesson into your daily life GROUP DISCUSSION QUESTIONS: questions to help you learn and process the Bible study material with other like-minded people who want to grow in leadership Start with the issues where you most need help, complete the entire study as a course in problem solving, or meet with your team, using it as their next training in leadership development. 21 Leadership Issues in the Bible can help you become a better leader in any area of your life as you seek to influence others for Christ.

Strong leadership in the church is exactly what God had in mind. However, very few people, Gene Getz believes, understand the biblical pattern for church leadership. He has written *Elders and Leaders* to unravel the mystery and alleviate the confusion surrounding this critical topic. In the first part of the book, Getz lays the historical and biblical groundwork for the position of elder. In the second part, he shares how he has applied or has seen these principles applied over the years.

From Moses to Matthew - Management Lessons for Contemporary Leaders Smooth Stone Publishing

Down through the centuries church leaders have studied the Gospels to discover patterns of leadership development that can be applied to their own context. Yet the word leader does not appear in the Gospels...Could it be that leadership has more to do with learning to follow than learning to command, supervise, or manage? On right attitudes than on mastery of certain skills?...Many of the insights we need are embedded in the images which Jesus used to describe his followers. So David W. Bennett introduces his stimulating and scholarly study previously published under the title 'Biblical Images for Leaders and Followers.' He examines the many images and metaphors in the Gospels relating to how disciples follow Jesus, and in turn influence others. Then he moves on to survey much of the evidence to be found in the images of the rest of the New Testament. Finally, he draws some judicious conclusions for an understanding of Christian leadership in our own day. The author has considerable cross-cultural experience, having taught church leaders in Japan, India, the Philippines, Papua New Guinea, Malaysia, India, Nepal, Tanzania, and Kenya, in addition to pastoring churches in California, Oregon and Massachusetts. He has also traveled and done research among church leaders in Malawi, South Africa, Brazil, Argentina, Cambodia, Vietnam, China, Korea, Thailand, Russia and the Czech Republic. His aim is to stimulate thought on these questions in churches all over the world, not just in the west.
