In this book and CD master jazz guitarist Frank Vignola has taken eight different jazz standard chord progressions and recorded rhythm guitar parts so you can play along and learn these most commonly used chord progressions. He has also written out a jazz solo for each of the eight tunes. These are recorded at slow and faster tempos for practice. The first chorus of every track has both the solo and the rhythm guitar, and the rest of the choruses have just the rhythm guitar for you to jam along with. The notation for each tune includes a jazz solo written out in notation and tablature and also a chord chart.

(Piano Method). This book contains the chord progressions found in most jazz standards. Each progression is written with chord voicings which are indigenous to the style. The book is divided into two sections. The first section uses chord voicings with the root as the bottom note. This voicing is appropriate when playing with a jazz group where there is no bass player. Chord voicings with the third or seventh of the chord as the bottom note are the basis for section two. This voicing is useful when a bass player is

present to provide the root movement. The same progressions appear in both sections. The study of this material will help prepare the player for fake book reading and comping with a group.
