Get swept up in this heart-pounding first installment of New York Times bestselling author Sharon Sala's *Secrets and Lies* trilogy as past secrets refuse to stay buried. Dallas Phillips refuses to believe her father committed suicide, even though things were tough on his farm and he was deeply in debt. When she hears he'd told a neighbor about an upcoming windfall, she grows suspicious, and her suspicion only deepens when she realizes someone is lurking in the nearby mountains after dark. For help, she turns to Trey Jakes, local police chief—and her former lover. As they begin to investigate, another mystery comes to light. Trey's mother is beginning to remember events from thirty years ago, something shadowy that happened in the mountains, and Dallas's father was there, too. Is what happened that night connected to his "suicide"? As they search for the truth, Trey and Dallas struggle to fight their attraction, but they may not be able to fend off another force—a killer who's more than willing to kill again to make sure old secrets stay buried.

This is a book about how a boy?and a man?becomes a man. It's a guide to the process of masculine initiation, that ancient path every boy and man must take if they would become the man they long to be. The path whereby they come to know they are a man, and are able to live and love from a deep, centered strength. We live in a time where most

men (and boys) are essentially fatherless. Whatever their circumstance, they have no man actually taking them through the many adventures, trials, battles and experiences they need to shape a masculine heart within them. They find themselves on their own to figure life out, and that is a lonely place to be. Their fears, anger, boredom, and their many addictions all come out of this fatherless place within them, a fundamental uncertainty in the core of their being. But there is a way. "We aren't meant to figure life out on our own," says John Eldredge. "God wants to father us." In *The Way of the Wild Heart*, Eldredge reveals how God comes to a man and takes him on the masculine journey, how nearly all the events of a man's life can come together to provide the initiation he never received. And how parents can offer that initiation to their sons. Whatever your age may be, your Father is ready to take up your journey. For you are his son.

*Wild Hearts* is the first collection of poetry by Somte Ralte, a young Mizo writer who resides in Aizawl, the idyllic capital of Mizoram. The vivid descriptions of sights and sounds in the collection are direct references to the untouched beauty of nature surrounding the poet. Written in a simple, conversational tone, *Wild Hearts* encapsulates the lives and preoccupations of youths in Northeast India. Through the persona of the speaker, the poet addresses various issues that many youths face today, be it romance, society, religion, or the self. Beneath the seemingly simplified verse forms and language construction, the poet seeks to convey the deeper message of the importance of finding oneself amidst accepted conventions and traditions in many of her poems. Apart from this stress on self assertion, the poet also hints at the necessity of maintaining good mental health in today's world, as youths increasingly succumb to daily pressures at an alarming rate. The collection invites a fresh look at the recurring perception of poetical works of Northeast India as rooted in one's culture and traditions by transcending borders through images and locations, which leaves the reader with an overwhelming sense of rootlessness, perhaps synonymous with the poet's lived

experiences.

Eighteen of Florida's best-loved writers here share with you their affection for Florida's wild side--the beautiful heart of a state under siege from development. Carl Hiaasen, Randy Wayne White, Al Burt, Patrick Smith, the late Archie Carr, and others evoke a Florida thick with pinewoods, alligators, and palmetto scrub; ribboned by miles of coast and dune; blessed with backcountry lakes, rivers, creeks, and springs. Strip malls and concrete cannot tame this wild Florida, but they can kill it. These essays offer passionate argument why that should not be allowed to happen. Coming from a variety of backgrounds--fiction, journalism, poetry, and environmental writing--the writers turn their talent to one thing they have in common--a love for Florida's natural beauty and a commitment to preserve it. Their essays--some old favorites, most appearing here for the first time--are both a celebration and a pointed reminder of what we stand to lose. Many of the areas singled out (the Lake Wales Ridge, the Panhandle's Topsail Hill, Goethe State Forest, and Tampa's Brooker Creek) were purchased through Florida's Preservation 2000, one of the nation's foremost land acquisition programs. All royalties from the book are being donated to the Florida chapter of The Nature Conservancy. Printed on recycled paper with soy ink. Jeff Ripple, natural history

writer and photographer, is the author of five books of interpretive natural history, including *Sea Turtles, Florida--The Natural Wonders*, and *Southwest Florida's Wetland Wilderness: Big Cypress Swamp and the Ten Thousand Islands* (UPF, 1996). He lives in Gainesville, Florida. Susan Cerulean, writer and biologist, is co-author of *Florida Wildlife Viewing Guide*. In 1997, the Governor's Council for a Sustainable Florida honored her with an Individual Environmental Educator Award. She lives in Tallahassee, Florida.

John Eldredge revises and updates his best-selling, renowned Christian classic. God designed men to be dangerous, says John Eldredge. Simply look at the dreams and desires written in the heart of every boy: To be a hero, to be a warrior, to live a life of adventure and risk. Sadly, most men abandon those dreams and desires-aided by a Christianity that feels like nothing more than pressure to be a "nice guy." It is no wonder that many men avoid church, and those who go are often passive and bored to death. In this provocative book, Eldredge gives women a look inside the true heart of a man and gives men permission to be what God designed them to be-dangerous, passionate, alive, and free.
