A REVOLUTIONARY PERSPECTIVE ON DEATH, THE SOUL, AND WHAT REALLY HAPPENS IN THE LIFE TO COME

Simon and Schuster
“Fascinating. Doidge’s
book is a remarkable
and hopeful portrait of
the endless
adaptability of the
human brain.”—Oliver
Sacks, MD, author of
The Man Who Mistook
His Wife for a Hat
What is neuroplasticity? Is it
possible to change
your brain? Norman
Doidge’s inspiring
guide to the new brain
science explains all of
this and more An
astonishing new

science called
neuroplasticity is
overthrowing the
centuries-old notion
that the human brain is
immutable, and
proving that it is, in
fact, possible to
change your brain.
Psychoanalyst, Norman
Doidge, M.D., traveled
the country to meet
both the brilliant
scientists championing
neuroplasticity, its
healing powers, and
the people whose lives
they’ve
transformed—people
whose mental
limitations, brain
damage or brain
trauma were seen as
unalterable. We see a
woman born with half a
brain that rewired itself
to work as a whole,
blind people who learn
to see, learning
disorders cured, IQs
raised, aging brains
rejuvenated, stroke

patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential. *Psychic Development* Penguin

Clairvoyant private eye Abigail Cooper is excited to marry her beau, but planning the affair has never been her first love. So when Abby hears of a case involving a missing young mother, she's

ready to escape the world of wedding details and engage in some serious psychic sleuthing. TROUBLE CAN COME IN THE BLINK OF AN EYE....

When a mysterious client approaches Abby about a young mother who's vanished, Abby is more than willing to get involved. After all, it's the perfect distraction from dealing with the headache of her sister, Cat—who has flown into town and turned Abby and Dutch's impending nuptials into Weddingpalooza. After Abby recruits her business partner and BFF, Candice, to assist, they meet with the parents of the missing woman. But the parents refuse to put their faith in a psychic. What's worse, the family suspects Abby

has a connection to their daughter's husband—the man they believe to be responsible for her disappearance. With the family blind to the truth and a potential killer in her sights, Abby is determined to keep her eyes wide open....

Maddie Fynn is a shy high school junior cursed with an eerie intuitive ability that's out of her control -- one that entangles her in a homicide investigation. For as long as she can remember, Maddie has seen a series of unique digits hovering above the foreheads of each

person she encounters. Her earliest memories are marked by these numbers, but it takes her father's premature death for Maddie and her family to realize that these mysterious digits are actually deathdates, and just like birthdays, everyone has one. Forced by her alcoholic mother to use her ability to make extra money, Maddie identifies the quickly approaching deathdate of one client's young son, but because her ability only allows her to see the when and not the how, she's unable to offer any more insight. When the boy goes missing on that exact date, law enforcement turns to Maddie. Soon, Maddie is entangled in a homicide investigation, and more young

people disappear and are later found murdered. A suspect for the investigation, a target for the murderer, and attracting the attentions of a mysterious young admirer who may be connected to it all, Maddie's whole existence is about to be turned upside down. Can she right things before it's too late?

Penguin
When Hannah Powers sustains a head injury, her prom queen world turns from white to

black. During her best friend, Emily's funeral, she sees a white-gray ghost image radiating around Emily's casket, but no outline around Emily. Then, she is plunged into a terrifying world of being able to predict death before it happens without being able to do anything about it.

Death Perception

Penguin
Professional psychic Abigail Cooper is used to dealing with skeptics, but even she's ready to cry "uncle!" when she's forced to work with a true non-believer bent on proving her a fraud. Business has been frustratingly slow for

Abby who needs any new commission she can get, even if it means agreeing to a job with the FBI that puts her at the center of an internal political struggle between two powerful agents, one of whom is the flinty lead investigator and confirmed skeptic Brice Harrison. Abby's skills are continually tested – along with her patience – as she works to convince Harrison that she's not only the real deal, but can help him locate three college teens who've mysteriously disappeared. Abby's intuition tells her these are no random abductions—and foresees another victim being kidnapped. To get to the bottom of the case, she and Harrison will have to put their differences

aside and work together to find the connection between the missing kids. And to do that, Abby will have to win Harrison over, while keeping her psychic eye wide open.

GHOULS GONE WILD

Penguin
 Ancient Teachings for Beginners by Douglas De Long reveals the mysteries from the distant past and how they can lead to a brighter future in the New Age. It begins with a brief history of spiritual development from before ancient Egypt right up to the present. It continues by explaining the secrets

of the aura and the chakras. In this section you'll learn about the importance of the third eye chakra. It is related to the pineal gland and the third eye. Opening the third eye aids intuition, creativity, and psychic abilities. You can do this easily by "toning," "doing vibrational work" or chanting Thoh (rhymes with "toe") at a middle or high "C" note. This triggers a vibration in the pineal which cause the third eye and its chakra to open. The exact techniques are included in the book. If you open the crown chakra (associated with the pituitary gland) you can improve some of your natural psychic abilities, including clairaudience, clairvoyance, and clairsentience.

Vibrational work for this chakra uses the sound May. Breathing techniques and the exact way of toning to open the chakra are fully explained. You'll also learn how to see the aura and interpret its colors, as well as how to open all of the chakras. The book also explains techniques to send the mysterious kundalini energy through the chakras. But this book has more! It includes the secrets of channeling, such as working with angels and spirit guides. It goes on to share methods of astral projection and then reveals the secrets of reincarnation. Ancient Teachings for Beginners is easy to understand and the techniques are a snap to use. If you are

looking for an introduction to the secrets of the teachings of the ancient mystery schools, this book is for you!

What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern

media is more relevant than ever. "It's unlikely that Trump has ever read *Amusing Ourselves to Death*, but his ascent would not have surprised Postman." -CNN

Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. *Amusing Ourselves to Death* is a prophetic look at what happens when politics, journalism, education, and even religion

become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." -Jonathan Yardley, The Washington Post Book World

Master magician Harry Houdini and English ghost researcher Harry

Price were true pioneers in both establishing skepticism and scientific methods in the newly created field of paranormal research. They set the foundation for future 20th Century researchers such as J.B. Rhine. Joseph Banks Rhine was a botanist who later developed an interest in parapsychology and psychology. Rhine founded the parapsychology lab at Duke University, the Journal of Parapsychology, and the Foundation for Research on the Nature of Man. He also initiated the Parapsychological Association. Rhine also coined the term ESP. I think the reader will find that 1957's Parapsychology: Frontier Science of the
