THEOSOPHIC AL OUTLOOK

ABDO
"The town of
Southborough

used to be a major tourism destination, drawing folks from all over in the hopes they'd spot the famous Sasquatch, reportedly seen in the town many times over the years. But it's been ages since anyone's spotted the 'squatch, and tourism is starting to dry up. A tech company called Start-up.com (a start-up that helps people start their own start-ups) decides to begin buying up places all over town in

order to build their techie headquarters, driving out all the local townspeople. Luckily, Southborough is also home to Louie O'Connor, firm believer in the Sasquatch's existence and all-around, mega 'squatch fan. When Louie's dad's restaurant, Squatch Burger, starts to go under and fall prey to the techie start-up, Louie and her best friend Felix decide they'll do whatever it takes to save the town from losing all the

people and places that make it special. In hopes that convincing people the Sasquatch is real and to drive back tourism, Louie and Felix plan an elaborate hoax in hopes of saving the town from the dot-com takeover. But when Felix starts talking about leaving their hometown for college in LA, Louie will have to face some tough questions about herself, her future career, and her place in

her beloved hometown." --

A CENTAUR IN AUSCHWITZ

National Geographic Books
In this classic science fiction adventure, a fiery doomsday threatens an alien world—and the human colonists who have made it their home. Firetime is coming to Ishtar. This once-in-a-millennium event occurs when one of the planet's three suns encroaches on Ishtar's

surface, to disastrous effect. The nightmare rapidly approaching, barbaric tribes have declared war on their more civilized brethren in hopes of avoiding a natural extermination. Standing between the opposing forces are the colonists who settled on Ishtar after abandoning their home planet, Earth. But in this time of chaos and destruction, there is little the humans can do to aid

their Ishtarian allies in the desperate fight for survival. The Terran powers, engaged in their own terrible conflict with a hostile alien race, will offer no help to the endangered planet. With a fiery doomsday on the way, the humans can do nothing but watch and wait—and pray for a miracle that will forestall the inevitable apocalypse. A stunning work of speculative invention from one of the all-

time masters of science fiction and fantasy, Poul Anderson's classic *Fire Time* is a richly imagined tale of war, alien contact, and environmental catastrophe that brilliantly questions the concepts of right and wrong, good and evil, and heroism and villainy.

Duncan Tonatiuh brings an ancient Mesoamerican creation myth to life. Long ago, the gods of Mesoamerica set out to create humans. They tried many times during each sun, or age. When all their attempts failed and the gods grew tired, only one did not give up: Quetzalcóatl—the Feathered Serpent. To continue, he first had to retrieve the sacred bones of creation guarded by

Mictlantecuhtli, lord of the underworld. Gathering his staff, shield, cloak, and shell ornament for good luck, Feathered Serpent embarked on the dangerous quest to create humankind. Award-winning author and illustrator Duncan Tonatiuh brings to life the story of Feathered Serpent, one of the most important deities in ancient Mesoamerica. With his instantly

For a bored, young princess of Xanth, there's nothing more exciting than a Quest. Especially when all you do is sit around Castle Roogna. But when Ivy uses the Heaven Cent, it takes her not to the top of Mount Rushmost,

where the winged monsters gather, not to the sea where the merfolk swim--but to Mundania, a world much like our own (that is, boring). It is here that she meets a young college student so dull that he doesn't even believe in magic, or princesses, or Xanth! Does he have a lot to learn. Man from Mundania, the thrilling climax to the trilogy started in *Vale of the Vole* and continued in *Heaven*

Fantasy Set eighty years in the future, this novel by the best-selling author Michael O'Brien is about an expedition sent from the planet Earth to Alpha Centauri, the star closest to our solar system. The Kosmos, a great ship that the central character Neil de Hoyos describes as a "flying city", is immense in size and capable of more than half light-speed. Hoyos is a Nobel Prize winning

physicist who has played a major role in designing the ship. Hoyos has signed on as a passenger because he desires to escape the seemingly benign totalitarian government that controls everything on his home planet. He is a skeptical and quirky misanthropic humanist with old tragedies, loves, and hatreds that are secreted in his memory. The surprises that await him on the voyage-

and its destination-will shatter all of his assumptions and point him to a true new horizon. Science fiction and fantasy literature are genres that have become dominant forces in contemporary worldwide culture. Our fascination with the near-angelic powers of new technology, its benefits and dangers, its potential for obsession and catastrophe, raises vital questions that this work explores

about human nature and the cosmos, about man's image of himself and where he is going-and why he seeks to go there.

THE DRAGON AND THE STONE

Ember Piers Anthony's bestselling Xanth series is one of the cornerstones

of fantasy, a lively and whimsical interpretation of a genre often criticized for taking itself too seriously. Anthony's first Xanth novel, *A Spell for Chameleon*, was initially edited to target a more traditional audience. Now, in an eBook exclusive, *A Spell for Chameleon* has been reworked line by line—its language matching the simpler, playful way with words that made

Piers Anthony an enduring fan favorite. Xanth is an enchanted land where magic rules, a land of centaurs and dragons and basilisks where every citizen has a unique spell to call their own. For Bink of North Village, however, Xanth is no fairy tale. He alone has no magic. And unless he gets some—and fast!—he will be exiled. Forever. But the Good Magician Humfrey is convinced that Bink does

indeed have magic. In fact, both Beauregard the genie and the magic wall chart insist that Bink has magic as powerful as any possessed by the King, the Good Magician Humfrey, or even the Evil Magician Trent. Be that as it may, no one can fathom the nature of Bink's very special magic. This is even worse than having no magic at all . . . and he still faces exile!

 Effie Daniels left nothing to chance. A determined CFO of an internet startup, she counted numbers, weighed the cost against the benefits, and always

made the argument for the more frugal option. Which meant she hadn’t made her decision to hire a personal chef lightly. However being pampered the weekend before Valentine’s Day would give her the strength to deal with the endless parade of chocolate and flowers that always invaded the office, and would fill her freezer so she wouldn’t have to cook for a

while. If she happened to hire sexy star chef Nessos Aragnos, well don't let anyone say the company wasn't doing well. She just had to remember, she'd paid him to be there and when the weekend was over, he'd leave only his delicious creations behind. The instant Nessos had seen Effie's picture

on her company's website, he'd known she was his fated mate. That she'd hired him proved it. Plus, it'd provide the perfect opportunity to seduce her with his food and with his body. He was more than ready to take on the challenge of convincing her they were mates. When

she discovers he's also a centaur, Effie's wondering if there's a little magic, or something, in the food Nessos is cooking for her. She's willing to accept that Nessos isn't human. That they're mates? Well that's going to take a little more convincing, one delectable dish at a time.
