When an abortion doctor switches sides, she is drawn into a series of secret medical experiments that will change the way we think about reproduction, autonomy, and life itself. "Hazzard has successfully captured the unique psychology of abortion work. As a former abortion clinic worker myself, I couldn't help but be moved by this beautiful story about new beginnings and the true meaning of heroism. I wholeheartedly endorse Cultivating Weeds." ~Abby Johnson, award-winning author of unPlanned and founder of And Then There Were None "Cultivating Weeds is gripping. It handles ethically complex issues without being preachy. Its deeply human characters are a refreshing change from the caricatures that so often plague the abortion debate. This book has the potential to start a new, productive conversation on one of the most emotionally charged issues of our generation." ~Josh Brahm, host of Life Report

College does not teach you how to be successful in the working world. There is no course or textbook that explains how to create the fulfilling careers many aspire to. The Millennial generation is 80 million members strong and each year more than 1.5 million enter the working world with little to no idea of how to succeed. While companies spend millions of dollars scrambling to learn more about Millennials and adapt their work cultures to fit this

generation, there are remarkably few resources dedicated to teaching young professionals the traits and techniques that will help them succeed in an ever-changing and always-challenging corporate environment. The Young Professional's Guide to the Working World fills this void, offering relevant advice to young professionals seeking to build a strong career foundation. A fellow Millennial, McDaniel draws on personal experiences from the beginning of his own career to illustrate key lessons. The Young Professional's Guide to the Working World provides important insights on the topics essential to success within the first 5-10 years of any corporate career, including: How to get promoted faster and drive results not matter what your industry or job title The 25 attributes all successful young professionals possess How to avoid being a DOPE (someone who Disses Opportunity, Potential & Earnings) The keys to becoming a STAR in your career (someone who is Savvy, Tenacious, Adaptive & Resourceful) How to create and implement a career blueprint plan, the right way Leveraging mentoring to ensure career success
