In the tradition of *The Orchid Thief*, a compelling narrative set within the strange and genteel world of rare-book collecting: the true story of an infamous book thief, his victims, and the man determined to catch him. Rare-book theft is even more widespread than fine-art theft. Most thieves, of course, steal for profit. John Charles Gilkey steals purely for

the love of books. In an attempt to understand him better, journalist Allison Hoover Bartlett plunged herself into the world of book lust and discovered just how dangerous it can be. John Gilkey is an obsessed, unrepentant book thief who has stolen hundreds of thousands of dollars worth of rare books from book fairs, stores, and libraries around the country. Ken Sanders is the self-appointed "bibliodick" (book dealer with a penchant for detective work) driven to catch him. Bartlett befriended both outlandish characters

and found herself caught in the middle of efforts to recover hidden treasure. With a mixture of suspense, insight, and humor, she has woven this entertaining cat-and-mouse chase into a narrative that not only reveals exactly how Gilkey pulled off his dirtiest crimes, where he stashed the loot, and how Sanders ultimately caught him but also explores the romance of books, the lure to collect them, and the temptation to steal them. Immersing the reader in a rich, wide world of literary obsession, Bartlett looks at the history of book passion, collection, and theft through the ages, to examine the craving that makes some people willing to stop at nothing to possess

the books they love. *A Ship Too Far* Penguin
The third book in a seafaring fantasy trilogy that George R. R. Martin has described as “even better than the *Farseer Trilogy*—I didn’t think that was possible.” As Bingtown slides toward disaster, clan matriarch Ronica Vestrit, branded a traitor, searches for a way to bring the city’s inhabitants together against a momentous threat. Meanwhile, Althea Vestrit, unaware of what has befallen Bingtown and her family, continues her perilous quest to track down and recover her liveship, the *Vivacia*, from the ruthless pirate Kennit. Bold though it is, Althea’s scheme may be in vain. For her beloved *Vivacia* will face the most terrible

confrontation of all as the secret of the liveships is revealed. It is a truth so shattering, it may destroy the Vivacia and all who love her, including Althea's nephew, whose life already hangs in the balance. SHIP OF SMOKE AND STEEL

Andrews McMeel Publishing

The true story of the tragic round-the-world yacht race - now the subject of *The Mercy*, starring Colin Firth and Rachel Weisz In 1968, the Sunday Times organised the Golden Globe race-an

incredible test of endurance never before attempted-a round the world yacht race that must be completed single-handed and non-stop. This remarkable challenge inspired those daring to enter-with or without sailing experience. A Race Too Far is the story of how the race unfolded, and how it became a tragedy for many involved. Of the nine sailors who started the race, four realised the madness of the undertaking and pulled out within weeks. The remaining five each have their own remarkable story. Chay Blyth, fresh from rowing the Atlantic with John Ridgway, had no sailing experience but managed to sail round the Cape of Good Hope before

retiring. Nigel Tetley sank while in the lead with 1,100 nautical miles to go, surviving but dying in tragic circumstances two years later. Donald Crowhurst began showing signs of mental illness and tried to fake a round the world voyage. His boat was discovered adrift in an apparent suicide, but his body was never found. Bernard Moitessier abandoned the race and carried on to Tahiti, where he settled and fathered a child despite having a wife and family in Paris. Robin Knox-Johnston was the only one to complete the race. Chris Eakin recreates the drama of the epic race, talking to all those touched by the Golden Globe: the survivors, the widows and the children of

those who died. It is a book that both evokes the primary wonder of the adventure itself and reflects on what it has come to mean to both those involved and the rest of us in the forty years since. *The Ship of Brides* Farrar, Straus and Giroux

Ryan's masterly chronicle of the Battle of Arnhem, which marshalled the greatest armada of troop-carrying aircraft ever assembled and cost the Allies nearly twice as many casualties as D-Day. In this compelling work of history, Ryan narrates the Allied effort to end the war in Europe in 1944 by dropping the combined airborne forces of the American and British armies behind German lines to capture the crucial bridge across the Rhine at Arnhem. Focusing on a vast cast of characters—from Dutch civilians to British and American strategists to common soldiers and commanders—Ryan brings to life one of the most daring and ill-fated operations of the

war. *A Bridge Too Far* superbly recreates the terror and suspense, the heroism and tragedy of this epic operation, which ended in bitter defeat for the Allies.

TOO FAR FROM HOME

Ballantine Books
J. Richard "Dick" Steffy stood inside the limestone hall of the Crusader castle in Cyprus and looked at the wood fragments arrayed before him. They were old beyond belief. For more than two millennia they had remained on the sea floor, eaten by worms and soaking up

seawater until they had the consistency of wet cardboard. There were some 6,000 pieces in all, and Steffy's job was to put them all back together in their original shape like some massive, ancient jigsaw puzzle. He had volunteered for the job even though he had no qualifications for it. For twenty-five years he'd been an electrician in a small, land-locked town in Pennsylvania. He held no advanced degrees—his understanding of ships was entirely self-taught. Yet he would find himself half a world away from his home town, planning to reassemble a ship that last sailed during the reign of Alexander the Great, and he planned to do it using mathematical formulas and modeling

techniques that he'd developed in his basement as a hobby. The first person ever to reconstruct an ancient ship from its sunken fragments, Steffy said ships spoke to him. Steffy joined a team, including friend and fellow scholar George Bass, that laid a foundation for the field of nautical archaeology. Eventually moving to Texas A&M University, his lack of the usual academic credentials caused him to be initially viewed with skepticism by the university's administration. However, his impressive record of publications and his skilled teaching eventually led to his being named a full professor. During the next thirty years of

study, reconstruction, and modeling of submerged wrecks, Steffy would win a prestigious MacArthur Foundation "genius" grant and would train most of the preeminent scholars in the emerging field of nautical archaeology. Richard Steffy's son Loren, an accomplished journalist, has mined family memories, archives at Texas A&M and elsewhere, his father's papers, and interviews with former colleagues to craft not only a professional biography and adventure story of the highest caliber, but also the first history of a field that continues to harvest important new discoveries from the depths of the world's oceans.
