## **HOW TO LOSE YOUR MIND AND CREATE A NEW ONE**

Atria Books  
Activate the raw power of your subconscious to create the life you've always wanted, using six essential lessons from one of the world's most renowned hypnotherapists in this "nourishing and healing book" (Michael Bernard Beckwith, author of *Spiritual Liberation*). Unsatisfying careers. Volatile, unhealthy relationships. Unfulfilled dreams. Too many of us are living lives that fall short of what we truly desire. But as celebrity hypnotist Kimberly Friedmutter explains in this life-changing book, not only is it possible to design the life of your

dreams, but the power to do so already lies within you, in your subconscious mind. The subconscious is the root of your true power and desire; it's your inner child, your authentic self. It is the honest compass that will lead you to a life of happiness, so long as you are able to follow its direction. We all have the power to access it but as we grow up we're taught to stop daydreaming and to follow society's rules, which makes us disconnect from our subconscious, often with tragic results. In *Subconscious Power*, Kimberly guides you through six principles that bring your conscious mind in line with your subconscious desires. She shares practical, three-minute exercises that will help you transform your relationships, find true love, lose weight after years of struggling with the scale, overcome addictions, and achieve new career successes and

heights. Featuring inspiring success stories and the practical tools you need to make meaningful change, *Subconscious Power* gives "you a pathway to achieve your goals and dreams in an effective and easily understandable manner. This book will improve your life in ways you never thought of" (David Zelon, producer of *Soul Surfer*). *Reprogram Your Subconscious Mind for Business Success* Independently Published *The Power of Your Subconscious Mind* is a classic self-help book that has never been out of print since it was first published over a half century ago. In that time it has sold millions of copies. A writer of the same class as Napoleon Hill, Norman Vincent Peale, and Dale Carnegie, Dr. Joseph Murphy has helped millions of readers to harness the immense power of their subconscious minds to

positively influence their lives. By showing how simply changing your thinking can produce dramatic changes, Dr. Murphy demonstrates that the strength of the unconscious mind is almost limitless. By focusing your mental will, you can achieve professional success, build wealth, strengthen personal and professional relationships, build your self-confidence, and even bring about changes to your physical wellbeing—all through the power of the mind. With practical and approachable lessons, Dr. Murphy shows that the power to change your life lies within you. This edition of the classic work also includes the bonus book *You Can Change Your Whole Life* in which Murphy offers a simple prescription to ban negative thoughts from your mind and, in doing so, change every facet of your life. *The Power of Your Subconscious Mind* is part of the GPS (Good, Practical Simple) Guides to Life series, which aims to introduce a new audience of readers to the life changing writings of past generations. Combining an updated, modern design with timeless wisdom, this new

edition of is perfect for millennial readers. *The Power of Your Subconscious Mind* is, in a word, life-changing. Other Books in the GPS Guides to Life Series: *As a Man Thinketh* by James Allen *Think and Grow Rich* by Napoleon Hill

Independently Published Reviews "As a psychologist I am all too aware that the principals of the Laws of Attraction are badly explained

everywhere.  
 "Manifestation Magic" does what it says on the tin, it explains simply, easily and more importantly correctly how to get everything that you desire in life. Rich people do not think like other people, they know that they cannot fail. Most people find that reconciling your conscious mind with your subconscious mind is really difficult, and yet unless you master that basic skill you are doomed to be caught up in an endless loop of repeating past mistakes. Most people assume that it is the subconscious mind that gets in the way of their success and that is why you are doomed to fail, because it is your conscious mind that puts the damper on your hopes and dreams. However you have to successfully free yourself from your excuses and your self-limiting decisions and this eBook tells you exactly how to do it. It is simply the best read I have had in ages and I read every day." - Catherine Ford -- <http://www.catherineford.com>

Think about your five closest friends. Are they happy? Do they live their lives with purpose? Do you? We put on a fake front for what we want people to see and think about us, but the reality is most people aren't happy. We're lost. We settle. We

aren't happy with where we are. You can't be happy if you don't know your purpose. It's not possible. You want more but you don't even know where to start. You know there is more out there. You see others having success and you want it, too; there is nothing wrong with that. You just need help finding your purpose so you can find the success you see all around you. You can be productive, crush your goals, pretend that all the things that you've acquired actually mean something...but at the end of the day, if you don't know your purpose, you'll always feel like there's something missing. You'll know that you're capable of more and that you're not living the life you should be. You might be fooling the world, but you're not fooling the person looking back at you in the mirror. You need to find your actual power source. Your purpose is your source of power. Once you find your purpose it'll fuel you for life. You'll do things that you never thought you were capable of. Achieving your purpose will force you to morph into a stronger version of yourself. You'll have to push through fears,

insecurities, and doubts that held you back. But somehow it'll all feel possible and necessary because you're purpose-driven now...and that's the only thing you'll ever need.

Make your subconscious mind your bi\*\*h! Did you know that over 80% of the decisions we make stem from our subconscious mind, at an emotional level? While we make decisions consciously, the truth is that the subconscious mind runs the show for most of us. In fact, it is as if we just run on autopilot and our conscious part of the brain just 'rubber stamps' the decisions or preferences from our subconscious mind. In simple terms, while we may seem to be consciously in control of our thoughts and actions, the truth is that our conscious mind is hardly even aware of what's happening, as the subconscious mind runs the show! We (our conscious self) are like puppets that our subconscious mind controls whether we are awake or asleep! Here an interesting fact; when you let your subconscious mind operate with no

semblance of conscious control of what it concentrates on and makes habitual, the probability of your life being desirable (to you and others) is slim. When your subconscious mind rules you, you operate on impulse, which translates to lack of self-discipline, chronic procrastination, low productivity, you having bad habits, you not having high emotional intelligence and much more. If all this sounds familiar and you want to change all that, here is good news for you; you can turn the tables to your favor such that you make you lord over your subconscious mind instead of the letting it rule. How then can you turn the tables to your favor? This book will show you how. More precisely, with this this book, you will: Build a comprehensive understanding of your subconscious mind so that you know just how powerful it is and how much control it has over you Understand why being the one in control over your subconscious mind will work in your favor Find specific steps you can take to gain conscious control over your subconscious mind Understand the place of

awareness in becoming lord over your subconscious mind How to use awareness to your advantage taking reins over your subconscious mind Know the rules of the game that you MUST adhere to if you are to increase your chances of success Understand how to grow your subconscious mind's 'muscle' to your benefit Discover other strategies you can use to make reprogramming your subconscious mind a lot easier and more effective Learn much, much more! By reading this book and taking action, you will be among the few that don't act out of impulse (which is your subconscious mind controlling your conscious mind). You will be more purposeful and directional in your actions so that you ultimately move closer to the version of yourself that you wish to become i.e. someone with good habits, who doesn't procrastinate often, someone who is productive, someone who is disciplined and such. The Mind Is An Incredible Thing Your brain is capable of storing more information than a roomful of computers. It remembers the way things look, smell, sound, feel, and taste. Unfortunately, the brain is also guilty of faulty programming. By the age

of five, you've already received 50% of your emotional programming from the adults and events in your life. By your early teens, you've been programmed 75% or more. Even if you had the most stress-free and loving upbringing, is it wise to allow a small child or teenager to lead the way? Of course not. Those lessons have gone deep into your subconscious though and, try as you might, it's hard to make changes. You want to change, you need to change, you know you can...but how? Once you follow the steps in this

book and create some new habits you're going to see how incredibly easy it is to finally succeed in life. Whether you want to attract love, be more confident, find your ideal career, lose weight, or anything else you've yearned for and dreamed about for so very long, you can finally achieve it!
