A Comparative Study of Gold Investment Account Between Kuwait Finance House Malaysia Berhad and Public Bank Berhad John Wiley & Sons

A practical, step-by-step guide to value investing in Asian stocks Value Investing in Asia offers a uniquely targeted guide to investors seeking new opportunities in Asian markets. Most value investing advice is geared toward US markets, leaving out the key guidance that pertains specifically to investing in publicly listed Asian companies —

guidance that is critical for success. This book focuses on the opportunities and challenges of Asian markets, including current and historical case studies that illustrate various successes, risks and pitfalls. Step-by-step guidance helps you unearth great opportunities in Asia; from understanding the macroeconomic situation, to narrowing down on specific investment opportunities. Invaluable for both new and experienced investors, this practical reference shows you how to apply value investing principles specifically to Asian stocks. Investing in Asia comes with an inherent set of unique challenges that must be understood before any decisions are made; some of these challenges are the

result of operating practices, some are the result of regulatory issues and others come from the markets themselves — yet regardless of the source, value investors in particular bear the brunt of the obstacles. This book shows you what you need to know, and how to invest intelligently in Asian companies. Step-by-step approach guides investors towards the practical application of value investing principles in Asia Navigate the challenges unique to Asian investing Examine real-life case studies that illustrate both risk and opportunity Delve into the key markets in Greater China and South-East Asia Includes exclusive interviews with well-known value investors in Asia Despite the challenges and risks, Asian markets represent significant opportunity — especially for

investors seeking value. Value Investing in Asia offers a practical reference for new and experienced investors, with real-world guidance toward intelligently investing in Asian markets.

Value Investing in Asia Lulu.com

This book enables its readers to understand Islamic ethics at workplace and its role in enhancing the performance and productivity of organizations. Moreover, this timely and important book is an essential guide for academicians, researchers, and managers to enhance and enrich their understanding and knowledge about the effective role of Islamic work ethics. The concept of work ethics is acknowledged as an important indicator of the likely success of all types of organizations. However, the bulk of research pertaining to work ethics and various organizational and individual outcomes has focused

predominantly on the concept of Protestant work ethics and not much attention has been given to assess the notion of Islamic work ethics. Nonetheless, it is necessary to understand other work ethics from different religious faiths in order to get a better understanding about the work ethics phenomenon. This book aims to bridge this gap in literature and advance the knowledge regarding work ethics from the Islamic perspective. This book presents some insightful strategies for Islamic financial institutions to manage workplace ethics. Those who are eager to advance their knowledge about Islamic work ethics, organizational justice, and organizational citizenship behavior will find this book very useful.

Developments in Islamic Banking Practice: The Experience of Bangladesh examines global developments in the Islamic banking practice, and provides an in-depth analysis of the theory and practice of Islamic banking in Bangladesh, the third-largest Muslim country in the world, with over 150 million Muslims. This book is the first of its kind to examine Islamic banking principles and practices in Bangladesh on such a broad scale. Learners, teachers, researchers, and those practically involved in the burgeoning financial industry will derive value from this book. Readers from all disciplines will become familiarized with the key

differences between the principles and practices of two distinct banking systems: the interest-free Islamic banking and the interest-based conventional banking. With the inclusion of citations from authentic references, a well-defined methodology of research, relevant data, tables and figures, coupled with the extensive field work and experience of the author in this sector, this book will serve as a reliable resource to understanding Islamic banking and finance as they function in the general world of finance, and in particular, Bangladesh.

Investment and Business Guide - Strategic and Practical Information **Asia, Inc** Springer Nature

Why do some policies succeed so well while others, in the same sector or country, fail dramatically? The aim of this book is to answer this question and provide systematic research on the nature, sources and consequences of policy failure. The expert contributors analyse and evaluate the success and failure of four policy areas (Steel, Health Care, Finance, HIV and the Blood Supply) in six European countries, namely France, Germany, the Netherlands, the UK, Spain and Sweden. The book is therefore able to compare success and failure across countries as well as policy areas, enabling a test of a variety of theoretical assumptions about policy

making and government.

Publishers Group and publishes over 450 business and technology books. A catalogue is available on request. *Inculcating Ethics and Citizenship Behaviour in Islamic Financial Institutions: the Issues and Consequences* Lulu.com

This edited volume explores theoretical and empirical issues related to monetary economics and policy in the Islamic financial system. Derived from the Conference on Islamic Monetary Economics and Institutions: Theory and Practice 2017 held in Malé, Maldives, the enclosed papers highlights several option for authorities and regulatory bodies regarding monetary policy and regulation, as well as discussing how Islamic monetary policy effects growth, financial stability and resilience to

shocks in practice. The inter-linkage between Islamic monetary policy and other markets are also explored. The subject of Islamic economics has gained considerable attention in the last four decades with the emergence of Islamic financial institutions around the world. This phenomenon has motivated economists to develop a comprehensive theoretical framework of modern monetary economics for Islamic economic system. An important characteristic of the Islamic economic system is the abolition of interest from the financial system. Islamic monetary economics is distinguished from conventional monetary economics due to the absence of interest. Therefore, under the Islamic economic system, monetary policy has to depend on other

tools. In the early theoretical literature on Islamic monetary economics, many have discussed the role of money in Islamic economics system, while the number of empirical studies on Islamic monetary economics is a relatively new phenomenon. According to Islamic scholars, there are three main goals of Islamic monetary policy: a) economic well-being with full employment and optimum rate of economic growth; b) socioeconomic justice and equitable distribution of income and wealth and c) stability in the value of money. Hence, the Islamic monetary policy has several socioeconomic and ethical implications. Featuring regional case studies, this book serves as a valuable resource for academics, scholars, practitioners and policy makers in the areas of Islamic

economics and finance.

Countries** Money And Banking

This book constitutes the refereed proceedings of the International Conference on Business and Technology (ICBT2021) organized by EuroMid Academy of Business & Technology (EMABT), held in Istanbul, between 06–07 November 2021. In response to the call for papers for ICBT2021, 485 papers were submitted for presentation and inclusion in the proceedings of the conference. After a careful blind refereeing process, 292 papers were selected for inclusion in the conference proceedings from forty countries. Each of these chapters was evaluated through

an editorial board, and each chapter was passed through a double-blind peer-review process. The book highlights a range of topics in the fields of technology, entrepreneurship, business administration, accounting, and economics that can contribute to business development in countries, such as learning machines, artificial intelligence, big data, deep learning, game-based learning, management information system, accounting information system, knowledge management, entrepreneurship, and social enterprise, corporate social responsibility and sustainability, business policy and strategic management, international management and organizations, organizational behavior and HRM, operations

management and logistics research, controversial issues in management and organizations, turnaround, corporate entrepreneurship, innovation, legal issues, business ethics, and firm general accounting and firm financial affairs, non-traditional research, and creative methodologies. These proceedings are reflecting quality research contributing theoretical and practical implications, for those who are wise to apply the technology within any business sector. It is our hope that the contribution of this book proceedings will be of the academic level which even decision-makers in the various economic and executive-level will get to appreciate. This book collates selective outputs from the 1st International Conference on Contemporary Islamic Studies, focusing on interdisciplinary research that is relevant and timely. One of the most vital areas for national development in Malaysia, and other parts of the Muslim world, is the field of Islamic studies. With a selection of regional and international contributions, the volume covers several topics, including Zakat, Wakaf, Islamic philanthropy, Islamic Turath, Islamic astronomy, Islamic texts - both ancient and modern - Halal, the Muslim family, fiqh, and Islamic finance. Cutting across both academia and religious practice, the book seeks to demarcate various aspects within Islamic law and culture, in the context of the IR 4.0 era. It is

relevant to students and researchers working within the interdisciplinary landscape of Islamic studies, from Asia to beyond.

Financial Markets and Institutions in Malaysia (UUM Press) UUM Press

This book explores contemporary empirical issues in Islamic economics. It begins by outlining current trends in Islamic economics and before identifying gaps in the empirical research. It then goes on to discuss the role of institutions in economic growth for Islamic countries, and the fiscal aspects of Islamic economics. It explores issues in debt and growth, as well as the instruments of monetary management in Islamic economics. It analyses the trade-off between growth and stability and concludes with discussion of Zakat and

Waqf in driving growth.

Developments in Islamic Banking Practice Edward Elgar Publishing

The book provides students and academics in finance and banking with the most recent updates and changes in the Malaysian banking sector post-AFC period. The book explores the evolution of banking policies and practices after the "Tomyam Goong Crisis" and investigates the health of Malaysian banks via efficiency measurement. In addition, it also presents the evolution of bank risk management regulations and practices in Malaysia. The book also discusses the effectiveness of the Malaysian bank bailout strategy with comparison to the banks' bailout in developed countries such as the US. This book is important and timely since there

are very limited books in the market that cover the recent developments on Malaysian banking sectors post-AFC period. Hence, this book serves as the valuable resource for all finance and banking students, academic researchers, and practitioners not limited to the Asian region that require in-depth insights on the latest policies and practices in the Malaysian banking sector.
