### THE VERY BEST OF A.P.J. ABDUL KALAM

Penguin Books India

The most inspiring, beautiful and thought-provoking reflections and declarations of love, all in one place. From Shakespeare's sonnets to the rom coms of modern-day cinema, Enlightenment philosophy to the latest Nicholas Sparks novel, one could say that no other topic has inspired such beauty - in art, literature, poetry or music - than that of love. In *The Little Book of Love* the words of civil rights activists sit alongside those of movie stars, world leaders and the philosophers of Ancient Greece. In its pages you will find some hard-won lovers' wisdom, a whole host of poignant and inspiring reflections on love, as well as some of the most famous, endearing and enduring declarations of love ever spoken. "Love is not love / Which alters when it alteration finds, / Or bends with the remover to remove: / O no! it is an ever-fixed mark / That looks on tempests and is never shaken..." William Shakespeare, "Sonnet 116" "With the whole world crumbling, we pick this time to fall in love." Ilsa Lund, *Casablanca* (1942)

### LEARNING HOW TO FLY

Harper Collins

In this moving collection of poems, A.P.J. Abdul Kalam takes us into his world, full of simplicity and beauty, understanding and compassion.

**Unleashing the Power of Creativity in Your Life and Work** Rupa Publications

Gathers quotations and brief selections about happiness, faith, courage, confidence, self-discipline, love, hope, family life and contentment

*India 2020* Rajpal & Sons

What is it that we as a nation are missing? Why, given all our skills, resources and talents, do we settle so often for the ordinary instead of striving to be the best? At the heart of *Ignited Minds* is an irresistible premise: that people do have the power, through hard work, to realize their dream of a truly good life. Kalam's vision document of aspiration and hope motivates us to unleash the dormant energy within India and guide the country to greatness.

**Life Lessons for the Youth** Penguin UK

Who can resist a good story, especially when it's being told by Grandma? From her bag emerges tales of kings and cheats, monkeys and mice, bears and gods. Here comes the bear who ate some really bad dessert and got very angry; a lazy man who would not put out a fire till it reached his beard; a princess who got turned into an onion; a queen who discovered silk, and many more weird and wonderful people and animals. Grandma tells the stories over long summer days and nights, as seven children enjoy life in her little town. The stories entertain, educate and provide hours of enjoyment to them. So come, why don't you too join in the fun.

*How to Memorize Anything* HarperCollins

'Engineering padicha nalla future - If you study engineering, you will have a good future.' This is a claim often repeated to children and teenagers by parents and teachers in many parts of India. But only those who have gone through an engineering college life know that it's not completely true. There is a difference between calling yourself as an engineering graduate and an engineer. India

produces millions of engineering graduates like you and me but only very few of us are actual engineers. Many of us just graduate with an engineering degree, with an artistic dream in mind. What do you think is the difference between engineers in many countries around the world and engineers from India? In other countries, if David Pascal studied electrical engineering in college, few years later you can find him working as an electrical engineer. In India, if Ram Krishnamurthy studied electrical engineering, few years later you can find him working in a completely irrelevant field like software coding, banking, photography and even movie directing. This book is not about the few engineering students in your class who love engineering. I don't hate them. In fact, I am very jealous that they study what they love. This book is about the majority of engineering graduates whose lives are wasted in engineering and is intended to tell you why you should make an attempt in pursuing your real passion, instead of being suffocated under the weight of an engineering degree. This is a story of India's Youth. Welcome to India, the land of Wasted Engineers.

### AROHAN

Penguin UK

It was like any other day on the Anna University campus in Chennai. As I was returning to my room in the evening, the vice-chancellor, Prof. A. Kalanidhi, fell in step with me. Someone had been frantically trying to get in touch with me through the day, he said. Indeed, the phone was ringing when I entered the room. When I answered, a voice at the other end said, 'The prime minister wants to talk with you.' Some months earlier, I had left my post as Principal Scientific Adviser to the Government of India to return to teaching. Now, as I spoke to the PM, Atal Bihari Vajpayee, my life was set for an unexpected change. *Turning Points* takes up the incredible Kalam story from where *Wings of Fire* left off. It brings together details from his career and presidency that are not

generally known as he speaks out for the first time on certain points of controversy. It is a continuing saga, above all, of a journey - individual and collective - that will take India to 2020 and beyond as a developed nation.

### GUIDING SOULS

Pearson Education India

Pramukh Swamiji Maharaj, one of the most inspiring spiritual figures of modern times and the fifth spiritual successor of Bhagwan Swaminarayan, became a friend of the eleventh president of India, Dr A.P.J. Abdul Kalam. Together they created an unparalleled spirituality-science fellowship. In Roohdaar, Dr Kalam and Arun Tiwari map a journey of self-realization reflected in the eyes of Pramukh Swamiji, painting a delightful fusion of spirituality, science and leadership. Through the life of Pramukh Swamiji and the history of the Swaminarayan mission, Dr Kalam traces the great rise of the Indian diaspora across the world. Drawing from the lives of great scientists and creative leaders, the book captures the spiritual essence of all religions and is a tribute to the multi-faith Indian society.

*Indomitable Spirit* Penguin UK

What makes a nation great? Is it simply economic prosperity and military strength -- or something more? What is it that we as a nation require to make that last-mile journey to what all the plans, investments and projects are meant to lead up to? It is only a matter of time before India is termed economically developed. But a nation has to learn to survive in tough times too. And for that what is most important is national character, born out of the value systems that exist in our families, what schools teach students, and the culture of the nation. In *Pathways to Greatness*, A.P.J. Abdul Kalam shifts focus from the economic development of India by 2020 to the development of our strengths, offering key lessons that will help India withstand the forces of change. He identifies what makes a nation great and also compares the standards of living of other nations with India's. He draws on his travels and his interactions with people. He evolves unique oaths for citizens from all walks of life to ensure that a better life becomes possible for everyone. In the book he completed just a few months before he passed away in 2015, one of India's best-known icons writes how our nation can become a leader on the pathways to greatness.

*The Dharma Forest* Harper Collins

'The story of my life has become intertwined with the story of this country. And somewhere along the way, as I met a million children across this land, I too learnt from a million minds. This book was not written to only tell my story. I want every young reader to think that this book is his or her story too.' A.P.J. Abdul Kalam has been one of the most iconic figures of Independent India. A scientist, leader, thinker, teacher and writer, he achieved remarkable success in various fields. Yet, what endeared him to so many was his dedication to the idea of a developed India, his simple and direct way of interacting with people and his deep love for his fellowmen. In *My Life*, Kalam writes his life story starting from his days growing up at Rameswaram; about working on India's space and missile programmes; his years as the eleventh President of India; and about his life thereafter.

### THE ULTIMATE HANDBOOK TO EXPLORE AND IMPROVE YOUR MEMORY

Penguin UK

Ignited Minds Unleashing the Power within India Penguin UK

**The Life Tree** Prabhat Prakashan

*Unleashing the Power of Diversity* provides a clear tool to create a common language across teams and organisations that reinforces positive identity, builds trust towards people and processes, supports innovation and helps make diversity sustainable. The complex problems that many organisations and teams now face are global in scope, including cultural, social and environmental issues. Challenges such as climate change, mass migration and human rights do not respect national borders or sociodemographic groups. In order to solve these complex problems, we need the skills to be able to communicate effectively across the differences that may otherwise divide us. In this ground-breaking book, award-winning consultant and author, Bjørn Z. Ekelund, presents a clear step-by-step approach to communicate with people who have different mindsets, perspectives and cultural backgrounds. It is relevant and applicable across various contexts - within the workplace, inter-professional, across different industries and cultures, and between corporate, governmental and NGO groups. The programme developed in the book, called the Diversity Icebreaker, has been successfully applied across 70 countries and with 250,000 participants. It shows how to break down these barriers and provides a new way to conceptualise diversity across various boundaries, allowing for trust and unity to form and creating a pathway for improving communication.

*The Freshman Survival Guide* Notion Press

This Book Is An Account Of How Dr. Kalam Visualizes Information And Communication Technology Mining The Rural Talent. Here, Dr. Kalam Present His Dream Of Schools In India At 2020 As Symbiotic Nerve Centres Connecting Teachers, Students And Community; Personifying Knowledge That Exists In The World. He Also Makes A Clarion Call To Accelerate The Process Of Societal Transformation. This Would Involve Raising The Standards Of Governance And Safeguarding The Sanctity Of Public Institutions. The Book Uses The Metaphor Of A Tree To Describe The Process Of Knowledge Bearing Fruits Of Prosperity In The Contemporary Globalised World Where Different Phases, Formative, Adult Working Life, And Post-50 Experienced Senior Citizens, Call For Different Kinds Of Learning. The Book Refers To A Contextual Contribution Of A Large Number Of Indian Scientists And Artists And Proves That There Is No Age Bar To Blossom. He Advocates Creation Of Conditions That Favour Growth Of Diverse Individual Talents Akin To Agarden And Calls For A Scientific Mind-Set Guided By Conscience, Consensus And By Actions That Take Our Social And Moral Values Into Account In Building Our Own Systems.

*Light From Many Lamps* Rupa Publications India

India 2020 is about to become a reality. Are we ready? As Dr Kalam and Y.S. Rajan had contended in their landmark vision document, India 2020, India has steadily moved towards becoming one of the top five economic powers in the twenty-first century. India's growth story has seen new opportunities and emerging technologies that make faster and more inclusive growth viable. In *Beyond 2020*, Kalam and Rajan argue that a renewed policy focus is now needed for agriculture, manufacturing, mining, the chemicals industry, healthcare and infrastructure to invigorate these sectors and boost economic growth. India can still make it to the list of developed nations in a decade. This timely book provides an action plan for that transformation.

*My Journey* Penguin UK

In this ground-breaking vision document, first published in 1998, Dr A.P.J. Abdul Kalam and Y.S. Rajan offer a blueprint for India to be counted among the world's top five economic powers by the year 2020. They cite growth rates and development trends to show that the goal is not unrealistic. Past successes—the green revolution and satellite-based communication linking remote regions of the country, for instance—bear them out. The same sense of purpose can make us a prosperous, strong nation in a matter of years, assert Kalam and Rajan. This is a book that every citizen who hopes for a better India must read.

### WHAT CAN I GIVE?

Penguin UK

The first part deals with the concept of inner experience - thoughts, emotions, feelings, perception and knowledge among their things. In the second part, the essence of some great souls is presented - people who lived in different eras and who could offer to mankind a movement forward in the most selfless manner. In the Third and the concluding part the book describes the journey of the soul and its various manifestations as the unfolding of an eternal essence.

Rupa Publications India

Collections of President Abdul Kalam's speeches and addresses on diverse topics.

### SCIENTIFIC PATHWAYS TO A BETTER FUTURE

Center Street

Will robots take over the world? When will we meet aliens? How are memories stored inside the brain? Join Dr A.P.J. Kalam on a fascinating quest to explore the realm of science and technology, its extraordinary achievements and its impact on our lives in the days to come. Co-written with Srijan Pal Singh, this book features exciting and cutting-edge career paths in areas such as robotics, aeronautics, neurosciences, pathology, paleontology and material sciences . . . in other words, careers that are going to make a difference in the future. The result of extensive research, this book offers a plethora of ground-breaking ideas that will make youngsters think out of the box. Filled with anecdotes, conversations, experiments and even inputs from leading scientists, *Reignited* is the perfect handbook that is bound to create a spark for science among students, youth and science enthusiasts.
