If I should die before I wake... Then my soul is Caesar's to take. He pulls me down, he lifts me up. And then he leaves me in the muck. If I should fall before I fly... Then they know it was the fault of mine. He taught me better, he led the way. I just didn't know how to stay. And if I should not gain his heart... Fuck that, he made me this way. Curled my thoughts and twisted me. He

belongs to me, forever. WARNING: This book is DARK. So dark, I barely found my way writing it. Know this. Understand it. Believe it. It's one long warning from beginning to end, but the love found between the pages is everlasting. This is NOT a conventional couple, and they don't come together with rainbows and silver linings. There's pain. There's violence. There's blood. You have been warned. Please ... Please, walk away if a filthy dark story isn't right for you. You will find no softness here. But if you like it so dark the sun won't make you feel warm again, then you've found the right place, and Caesar is waiting.

Publishers Weekly says "Ramnarayan provides a detailed, contemporary primer that illuminates the promise and peril of the brave new world of social media. Ramnarayan herself acknowledges that social media is no panacea-her crisp presentation, with chapter summaries to highlight the main pointers, confirms that companies that choose not to listen to customers stand to lose ground to competitors who do." WHAT OTHERS ARE SAYING ABOUT THE BOOK "Sujata Ramnarayan's excellent book does several things that I have not seen in other treatments of this subject. She takes a reasoned perspective on a topic that is often full of hyperbole. The book is filled with advice for the marketer that is both practical and strategic. It helps the marketer to leverage social media where it can best impact

business performance. I highly recommend the book." - Gordon Wyner, Editor-In-Chief, Marketing Management "This practical guide to social media marketing cuts through the noise with clear advice on how to turn strategy into practice. With the help of effective charts and analysis, the reader can gain real insight into social media's influence in corporate marketing. By showing how building quality content in social media is no longer an option for corporations, this is also a lesson in building a brand by listening to your customers. " -Rajesh Subramaniam, SVP, Global Marketing and Customer Experience, FedEx Services "Owned social media presence is critical to generating earned media, which is where the growing value and rewards come in for social media marketing. This important book will help you to understand these concepts and reality to better evaluate, plan, and execute your social media marketing efforts." - Devin Redmond, CEO and Co-Founder, SocialiQ Networks "Are you overwhelmed by the changing digital landscape? If so, Sujata's book is a must read with actionable insights, tips on digital sharing, and more." - Porter Gale, Former VP of Marketing at Virgin America and author of "Your Network is Your Net Worth" ABOUT THE BOOK Like most marketers, you are drowning in social media noise and chaos. Businesses have simply jumped in without tying social media outcomes to any business objectives. The purpose of this book is to help you: - See how social media fits into your overall marketing strategy - Understand how best to develop social media with allocation among different tools - Figure out the extent to which social media is relevant to your business or department, and how best to implement it given an increasingly digital world of sharing and an empowered customer voice

Whether you are a senior manager experienced in social media marketing or a novice, this book will help clarify how social media fits into your overall marketing strategy, how much you should be allocating given the return on investment, and at what time frame you should be looking, depending on the specific metrics adopted. This book will help you focus more and understand all the different elements to which you need to be paying attention. If you are a novice, the glossary and additional resources sections at the end of the book should be helpful.

A struggle is taking place--not just among corporate titans, but among entire industries. At stake is control of the world's fastest-growing industry: communications. The contestants are Hollywood studios, television networks, and cable, telephone, computer, publishing, and consumer-electronics companies. All are vying to collect a toll on the information superhighway. And as they jockey for control, they tread on volatile ground, as one fixation after another (cable, interactive TV) is dumped in favor of the next (satellite, the Internet). There is no better account of this turmoil than the one provided here by Ken Auletta, bestselling author of *Three Blind Mice* ("the best book ever written on network television"\*) and *Greed and Glory on Wall Street*, who for five years has brilliantly tracked the communications industry for *The New Yorker*. Auletta's access to the principal players is unparalleled (six days with Rupert Murdoch, summit meetings with John Malone), and his grasp of the issues--from boardroom politics to regulatory and technological pressures--is unmatched by any other journalist. In this riveting collection of his best pieces Auletta takes the reader on a behind-the-scenes tour of such companies as Disney, Viacom, Microsoft, Time Warner, and

Telecommunications, Inc., and keenly chronicles the vanities and visions of the new Highwaymen--Rupert Murdoch, Ted Turner, Michael Eisner, Sumner Redstone, Bill Gates, and more. Just as *Three Blind Mice* was heralded as "the new bible of the broadcasting business," *The Highwaymen* will be received as an indispensable guide to the future of this explosive new world. \* Frank Stanton, former president of CBS

### THE POEM THAT DOESN'T END

University Press of Kentucky

In *Stop Sabotaging Your Life: 3 Steps To Your Full Potential*, acclaimed life coach Bruno LoGreco shares his simple path to achieving healthy mental and emotional independence. How many times have you caught yourself thinking something like this?: I'm not enough—good enough...smart enough...good looking enough...successful enough.... LoGreco says we sabotage our lives by focusing too much on being what others want us to be and do, and not spending enough time listening to our own hearts and minds. Some people try to find self-acceptance and contentment through counseling, but end up trapped on the therapy treadmill. Others try to go it alone, but still end up in a tiresome process of navel-gazing that never leads to personal fulfillment. LoGreco offers a three-step plan to help you reach your own potential: self-awareness (recognize what you have been doing, and why); rebuilding values (learn a different way to do things); and reach your full potential (identify opportunities and set meaningful goals). You will learn to leverage your strengths to stop chasing illusions and work toward achieving your dreams. LoGreco doesn't claim his book will cure everything

that ails you. As he says, “There is no secret formula, no magic pill that will make you happy, productive, and successful. You must challenge your beliefs and take back control of your choices. Don't just think outside the box—break out of it altogether.” What clients and readers are saying about life coach, mentor, and motivational speaker Bruno LoGreco: “As a divorced mother of three, I've encountered many obstacles, mostly personal ones within myself. I wondered why I kept repeating the same patterns with the men I was dating and why it always ended badly, usually with me being hurt, and questioned what 'I' was doing wrong. Bruno taught me how to love myself again, how to respect myself and above all else, BELIEVE in myself.... Bruno saved me from my self-destructive patterns. Without his help, I wouldn't be the confident woman I am today. I am a better mother for that.” — Cristina “The world is filled with very successful executives who for decades focus every waking minute on professional accolades and professional development [only to] realize they haven't take the time out to focus on personal development in terms of a better balance in life, being in touch with their spiritual side and inner self, and even the fun side of life. That would describe me in the past.... I came across Bruno, and I knew he was the man. His personality exudes authenticity and geniality. The man simply knows his stuff, has this uncanny ability to read between the lines, and zero in instantly on underlying triggers. His structured approach steers you to address issues head on; challenges you to challenge yourself; opens your mind; helps you understand behaviors, experiences and patterns; gets you in touch with yourself; fuels a sense of purpose and passion; and escorts you to chart a new

course to life. He never judges, but relentlessly encourages and empowers you. He's truly a brilliant, genuine and a humane person with an infectious enthusiasm to make you seize your inborn potential.” —Adrian “If I had to sum up my experience with Bruno in one word, it would be 'awakened.' Bruno helped me see life from a different perspective, which is what I needed, but most importantly, he showed me how to do that myself without being dependent on him.... Bruno got me to step outside of my comfort zone and do things I normally wouldn't have done otherwise, which is undoubtedly the key to growth.” —Blaine

The Internet Revolution, like all great industrial changes, has made the world's elephantine media companies tremble that their competitors-whether small and nimble mice or fellow elephants-will get to new terrain first and seize its commanding heights. In a climate in which fear and insecurity are considered healthy emotions, corporate violence becomes commonplace. In the blink of an eye-or the time it has taken slogans such as "The Internet changes everything" to go from hyperbole to banality-"creative destruction" has wracked the global economy on an epic scale. No one has been more powerful or felt more fear or reacted more violently than Bill Gates and Microsoft. Afraid that any number of competitors might outflank them-whether Netscape or Sony or AOL Time Warner or Sun or AT&T or Linux-based companies that champion the open-source movement or some college student hacking in his dorm room-Microsoft has waged holy war on all foes, leveraging its imposing strengths. In *World War 3.0*, Ken Auletta chronicles this fierce conflict from the vantage of its most important theater of operations: the devastating second front opened up against Bill Gates's empire by the United States government. The book's narrative spine is *United States v. Microsoft*, the government's massive civil suit against Microsoft for allegedly stifling competition and innovation on a broad scale. With his superb writerly gifts and extraordinary access to all the principal parties, Ken Auletta crafts this landmark confrontation into a tight, character- and incident-filled courtroom drama featuring the best legal minds of our time, including David Boies and Judge Richard Posner. And with the wisdom gleaned from covering the converging media, software,

and communications industries for *The New Yorker* for the better part of a decade, Auletta uses this pivotal battle to shape a magisterial reckoning with the larger war and the agendas, personalities, and prospects of its many combatants.

(6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or

Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...
