The Titanic was the most famous ship in history. But what really happened to the Titanic on that terrible April night in the North Atlantic? Why did it hit an iceberg? Why did it sink? Why did more than one thousand people die? This book looks at the true story - and gives some of the answers.

*Oxford Bookworms Library: Stage 5: The Accidental Tourist* OUP Oxford

They said Steve Biko was a man of violence; then why did he talk of peace? They said he wanted revolution; so why did he talk of friendship? They said he died of hunger; why was his body broken and bruised? This is the story of a man's fight with the government of South Africa. It is the story of all people who prefer truth to lies. It is the story of all people who cry 'Freedom', and who are not afraid to die.

This early work by William Wymark Jacobs was originally published in 1902 and we are now republishing it with a brand new introductory biography. Jacobs worked as a clerk in the civil service before turning to writing in his late twenties, publishing his first short story in 1895. Most of Jacobs' work appeared before the onset of World War I, and although the majority of his output was humorous in tone, he is best-remembered now for his macabre tales, particularly those contained in his 1902 collection *The Lady of the Barge*, such as 'The Monkey's Paw' and 'The Toll House'.

#### REMEMBER MIRANDA

Oxford University Press

A level 3 Oxford Bookworms Library graded reader. This version includes an audio book: listen to the story as you read. Written for Learners of English by Tim Vicary. Is there anyone who has not looked at the dark sky, and the shining points of light above us, and asked themselves questions about what is out there? Where did our planet come from? When did the universe begin? Could we live on another planet? And one question above all - is there life anywhere else in space? Begin a journey into space - where spacecraft travel at thousands of kilometres an hour, temperatures are millions of degrees, and a planet may be hard rock - or a ball of gas. In space, everything is extraordinary . . .
