"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

A GUIDE TO ADVANCING THINKING THROUGH WRITING IN ALL SUBJECTS AND GRADES

John Wiley & Sons

These workbooks are designed to equip your 4th-grade students with the skills they'll need for success on the writing portion of the STAAR test. Divided into two sections, Rise and Shine STAAR Writing first presents students with a series of engaging reading passages embedded with errors of grammar, usage, mechanics, content, and organization. The multiple-choice questions that follow each passage are designed to help them recognize and correct these mistakes. In the second section, students write their own compositions in response to the writing prompts they encounter. As part of each exercise, students are urged to prewrite and are given space in which to organize their thoughts before writing. A checklist in each prompt helps students focus on the important elements of good writing as they are completing the prompts. Teacher Editions contain STAAR objectives and scoring rubrics. Nowhere will you find more extensive preparation for the STAAR Writing Assessment!

Some students just don't want to share intimate details about their thoughts, feelings and lives—at least, not with others in a class or group. That's where Unjournaling comes in. All the writing prompts in this book are entirely impersonal but completely engaging for both kids and adults. Two examples of the 200 writing prompts include: Write a paragraph about a girl named Dot, but use no letters with a dot (in other words, no i or j). Why on earth would Yankee Doodle stick a feather in his cap and call it "macaroni"? Come up with a plausible explanation. The book includes sample responses to all of the questions—a helpful tool for anyone who gets stuck with a topic and wants to see how it can be done! Grade 7-Adult

When the plane crashes, killing the pilot, the sole survivor is Brian. He is alone in the Canadian wilderness with nothing but his clothing, a tattered windbreaker, and the hatchet his mother had given him as a present. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. When Brian is finally rescued after fifty-four

days in the wild, he emerges from his ordeal with new patience and maturity, and a greater understanding of himself and his parents.
