DAILY LANGUAGE REVIEW, GRADE 4

Evan-Moor Corporation
Provide students with frequent, focused
skills practice with this Reproducible
Teacher's Edition. The reproducible

format and additional teacher resources provide everything needed to help students master and retain basic skills. In *Building Spelling Skills Daily Practice, Grade 6+*, students will learn 18 spelling words per week (540 total). Three sentences for dictation are provided for each list.

Daily Geography Practice Evan Moor Educational Publishers

Daily Science contains 125 easy-to-integrate daily activities which introduce students to standards-based scientific concepts and vocabulary while they investigate motivating, real-life questions about the world around them. The class pack contains a Teacher's Edition and 5 Student Books.

Grades K-2 Evan Moor Educational Publishers

The perfect way to begin your students school day! Cross-curricular daily practice gets your first grade students focused and engaged and ready to learn. The daily lessons provide practice of language, math, and reading skills that support your core curriculum. The meaningful 10 to 15 minutes of daily practice helps sharpen students skills and helps you see where your students need to improve. With a detailed scope and sequence, you will always know the skills that your students are practicing. Daily Fundamentals lessons are ideal for morning work, bell ringers, homework, and informal assessment. The daily practice and review prepares students for success on assessments and state testing.

[Daily Higher-Order Thinking, Grade 1](#)

Evan Moor Educational Publishers
Maps and perforated, reproducible pages to help children become familiar with the function of maps and how to find locations on a map or globe. Correlated to National Geography Standards.

Daily Science Grade 1 Student Book

Daily Reading Comprehension

The perfect way to begin your students school day! Cross-curricular daily practice gets your second grade students focused and engaged and ready to learn. The daily lessons provide practice of language, math, and reading skills that support your core curriculum. The meaningful 10 to 15 minutes of daily practice helps sharpen students skills and helps you see where your students need to improve. With a detailed scope and sequence, you will always know the

skills that your students are practicing. Daily Fundamentals lessons are ideal for morning work, bell ringers, homework, and informal assessment. The daily practice and review prepares students for success on assessments and state testing.

Grade 3 Evan Moor Educational Publishers

Using standardized testing formats, math skills are kept sharp with focused practice in computation, word problems, graphing, measurement and numbers. Includes scope and sequence charts and answer keys.

Daily Geography Practive Grade 1

Student Book Evan-Moor Educational Publishers

Develop your third grade students creative problem-solving skills with STEM

Lessons and Challenges. Students apply science, technology, engineering, and math concepts to solve real-world problems.

Daily Geography Practice Evan-Moor Corporation

Contains 30 spelling units with lists from commonly used, commonly misspelled English words and words with common phonetic or structural elements, sentences for dictation, and student practice pages for each unit.

Daily 6-Trait Writing, Grade 6+ Evan-Moor Corporation

Fit standards-based science instruction into your curriculum! Help your grade 5 students develop a genuine understanding of standards-based scientific concepts and vocabulary using the 150 engaging activities in Daily

Science! A variety of rich resources, including vocabulary practice, hands-on science activities, and comprehension tests in multiple-choice format, help you successfully introduce students to earth, life, and physical science concepts.

DAILY SCIENCE, GRADE 5

Evan Moor Educational Publishers
Critical thinking skills are more important than ever in academic and real-world situations. Daily Higher-Order Thinking provides you with daily activities that build and grow students' problem-solving skills in engaging formats such as logic and visual puzzles, brainteasers, creative writing, picture comparison, word play, and "what if" questions. Daily 20-minute practice lessons help students apply critical

thinking skills across subject areas. The lessons develop students' higher-order thinking skills and allow them to integrate their learning and make deeper connections between their learning and the real world. Use Daily Higher-Order Thinking for warm-up exercises, extension activities, early finisher tasks and small-group center activities to develop your students' critical and creative thinking skills. How it works: - Monday-Friday: Full-page daily activities focus on a specific behavioral verb each day. The verb is defined at the top of the page so students become aware of when and how they are using the thinking skill. - Each full-page activity gives students an opportunity to practice a higher-order thinking skill in the context of a different curriculum area. -

Questions and tasks are open-ended and can be used to promote peer-to-peer discussions as students share and discuss answers, while also fostering critical thinking skills. - An answer key provides sample responses for each day's activities. Evaluate students' responses based on your own expectations and on what content your students have encountered. Grade 1 activities include: logic puzzles, language play, creative writing, drawing, and visual brainteasers. Daily lessons practice higher-order thinking skills such as: - Comparing - Grouping - Identifying - Inferring - Solving
[Daily Science Grade 5 Student Book](#)
Daily Reading Comprehension
Lesson plans and activities to help teach basic science to elementary school level

students.

Beginning Geography Evan-Moor Science Lessons & Investigations presents science learning through in-depth investigation and observation, supporting Next Generation Science Standards (NGSS). Each unit guides students through exploring a science concept and includes hands-on activities to extend learning. This robust teaching resource gives you everything you need, including teacher support pages, informational text and graphics, vocabulary review, reading and writing activities, and hands-on science projects. Students apply science, technology, engineering, and math concepts to solve real-world problems. Each of the 15 units focuses on a hands-on challenge in which students work together as

engineers to design, prototype, test, and refine their creations. Topics support NGSS. Book jacket.

Daily Science Beginning Geography (Evan-Moor

Builds understanding of science concepts that are taught in the classroom and based on the most current standards. This book helps children learn physical, life and earth science concepts while practicing reading comprehension, vocabulary, writing skills and visual literacy.
