The Nature of the Beast is
 a New York Times
 bestselling Chief Inspector
 Gamache novel from
 Louise Penny. Hardly a
 day goes by when nine
 year old Laurent Lepage
 doesn't cry wolf. From
 alien invasions, to walking
 trees, to winged beasts in
 the woods, to dinosaurs
 spotted in the village of
 Three Pines, his tales are
 so extraordinary no one
 can possibly believe him.
 Including Armand and

Reine-Marie Gamache,
 who now live in the little
 Quebec village. But when
 the boy disappears, the
 villagers are faced with
 the possibility that one of
 his tall tales might have
 been true. And so begins
 a frantic search for the
 boy and the truth. What
 they uncover deep in the
 forest sets off a sequence
 of events that leads to
 murder, leads to an old
 crime, leads to an old
 betrayal. Leads right to
 the door of an old poet.
 And now it is now, writes
 Ruth Zardo. And the dark
 thing is here. A monster

once visited Three Pines.
And put down deep roots.
And now, Ruth knows, it is
back. Armand Gamache,
the former head of
homicide for the Sûreté
du Québec, must face the
possibility that, in not
believing the boy, he
himself played a terrible
part in what happens
next.

When Algerian nationalists launched a rebellion against French rule in November 1954, France was forced to cope with a varied and adaptable Algerian strategy. In this volume, originally published in 1963, David Galula reconstructs the story of his highly successful command at the height of the rebellion. This groundbreaking work, with a new foreword by Bruce Hoffman, remains relevant to present-day counterinsurgency operations.

Broadband Cable Access Networks focuses on broadband distribution and systems architecture and concentrates on practical concepts that will allow the reader to do their own design, improvement, and troubleshooting work. The objective is to enhance the skill sets of a large population that designs and builds broadband cable plants, as well as those maintaining and troubleshooting it. A large

cross-section of technical personnel who need to learn these skills design, maintain, and service HFC systems from signal creation through transmission to reception and processing at the customer end point. In addition, data/voice and video specialists need to master and reference the basics of HFC design and distribution before contending with the intricacies of their own unique services. This book serves as an essential reference to all cable engineers—those who

specifically design and maintain the HFC distribution plant as well as those primarily concerned with data/voice technology as well as video technology. Concentrates on practical concepts that will allow the user to do his own design, improvement, and trouble-shooting work. Prepares cable engineers and technicians to work with assurance as they face the latest developments and future directions. Concise and tightly focused, allowing readers to easily find

answers to questions about an idea or concept they are developing in this area.

 Two iconic bands. An unforgettable life. One of the most dynamic groups of the '70s and '80s, Talking Heads, founded by drummer Chris Frantz, his girlfriend Tina Weymouth, and lead singer David Byrne, burst onto the music scene, playing at CBGBs, touring

Europe with the Ramones, and creating hits like “Psycho Killer” and “Burning Down the House” that captured the post-baby boom generation’s intense, affectless style. In *Remain in Love*, Frantz writes about the beginnings of Talking Heads—their days as art students in Providence, moving to the sparse Chrystie Street loft Frantz, Weymouth, and Byrne shared where the music that defined an era was written. With never-before-seen photos and immersive vivid detail,

Frantz describes life on tour, down to the meals eaten and the clothes worn—and reveals the mechanics of a long and complicated working relationship with a mercurial frontman. At the heart of *Remain in Love* is Frantz’s love for Weymouth: their once-in-a-lifetime connection as lovers, musicians, and bandmates, and how their creativity surged with the creation of their own band Tom Tom Club, bringing a fresh Afro-Caribbean beat to hits like “Genius of Love.” Studded with

memorable places and names from the era—Grace Jones, Andy Warhol, Stephen Sprouse, Lou Reed, Brian Eno, and Debbie Harry among them—*Remain in Love* is a frank and open memoir of an emblematic life in music and in love.

finds himself developing a
profound, and perhaps
unwise, empathy for her
distraught father.

The #1 New York Times Bestseller "There is a crack in everything. That's how the light gets in."
—Leonard Cohen
Christmas is approaching, and in Québec it's a time of dazzling snowfalls, bright lights, and gatherings with friends in front of blazing hearths. But shadows are falling on the usually festive season for Chief Inspector Armand Gamache. Most of

his best agents have left the Homicide Department, his old friend and lieutenant Jean-Guy Beauvoir hasn't spoken to him in months, and hostile forces are lining up against him. When Gamache receives a message from Myrna Landers that a longtime friend has failed to arrive for Christmas in the village of Three Pines, he welcomes the chance to get away from the city. Mystified by Myrna's reluctance to reveal her friend's name, Gamache soon discovers the

missing woman was once one of the most famous people not just in North America, but in the world, and now goes unrecognized by virtually everyone except the mad, brilliant poet Ruth Zardo. As events come to a head, Gamache is drawn ever deeper into the world of Three Pines. Increasingly, he is not only investigating the disappearance of Myrna's friend but also seeking a safe place for himself and his still-loyal colleagues. Is there peace to be found even in Three Pines, and

at what cost to Gamache and the people he holds dear? How the Light Gets In is the ninth Chief Inspector Gamache Novel from Louise Penny. One of Publishers Weekly's Best Mystery/Thriller Books of 2013 One of The Washington Post's Top 10 Books of the Year An NPR Best Book of 2013

Kingdom of the Blind, the
new Chief Inspector
Gamache novel from the
#1 New York Times
bestselling author. When
a peculiar letter arrives
inviting Armand Gamache
to an abandoned
farmhouse, the former
head of the Sûreté du
Québec discovers that a
complete stranger has
named him one of the
executors of her will. Still
on suspension, and
frankly curious, Gamache
accepts and soon learns
that the other two
executors are Myrna
Landers, the bookseller

from Three Pines, and a
young builder. None of
them had ever met the
elderly woman. The will is
so odd and includes
bequests that are so
wildly unlikely that
Gamache and the others
suspect the woman must
have been delusional. But
what if, Gamache begins
to ask himself, she was
perfectly sane? When a
body is found, the terms
of the bizarre will
suddenly seem less
peculiar and far more
menacing. But it isn't the
only menace Gamache is
facing. The investigation

into what happened six months ago—the events that led to his suspension—has dragged on, into the dead of winter. And while most of the opioids he allowed to slip through his hands, in order to bring down the cartels, have been retrieved, there is one devastating exception. Enough narcotic to kill thousands has disappeared into inner city Montreal. With the deadly drug about to hit the streets, Gamache races for answers. As he uses increasingly

audacious, even desperate, measures to retrieve the drug, Armand Gamache begins to see his own blind spots. And the terrible things hiding there.
