Principles Of Heat And Mass

*Introduction to the Principles of Heat Transfer*

Principles of Heat Transfer. Heat is transferred to and from objects -- such as you and your home -- via three processes: conduction, radiation, and convection.

Conduction is heat traveling through a solid material. On hot days, heat is conducted into your home through the roof, walls, and windows.

9780470501979:

Fundamentals of Heat

and Mass Transfer ...

In the simplest of terms, the discipline of heat transfer is concerned with only two things:

temperature, and the flow of heat.

Temperature represents the amount of thermal energy available, whereas heat flow represents the movement of thermal energy from place to place. On a microscopic scale,...
