BASEBALL MATCHES How to use it: Each
MATCH consists of 6 registration pages: -
The first four pages are for the registration
of the players of each team: names,
numbers, demarcation and basic general

characteristics of each player. At the
bottom of the page there are playfields to
help us graphically place players. - The
next two pages include a table with boxes
so you can take the notes you consider
about the players that have excelled in
each team and about which you think it is

worth expanding the information basic that you have written down in the previous record sheet - From each game you can also record the reference data: teams participating, category and competition, day and time, and field where the game is played - It supposes a useful registry of data that you can file, before computerizing them, or before passing them to the archives or databases where you store the information of your observations.  General Reference

What differentiates this new series of books from the books and magazines people have used in the past is that each of the six books focuses on a different league - 5x5 mixed, AL-only, NL-only, 4x4 mixed, AL-only, and NL-only. The projections and dollar values for players can vary up to 50% from league to league. Drafting with the help of a magazine not tailored to your league specifications is a recipe for disaster - yet millions of people do so every year. With your Fantasy Scouting Report in hand, you can rest assured that your projections are accurate. Each book also has special Quick Lists designed to help you find what you need in the limited time you have between picks. Players are ranked by actual scoring

category points so you can compare players intelligently and quickly. Categories like ERA, WHIP, and BA are weighted for IP and AB, vitally important but often overlooked. Also included is a unique quantitative analysis of the best prospects for 2005.
