THE MEMORY BOOK

Createspace Independent Publishing Platform

Imagine that you walk into a room to grab something off the coffee table. You enter the room, only to stop in your tracks—a slight panic sets in as you realize you forgot why you walked in there. Feeling like you are in a haze, you scan the area to see if you can pick up on a visual clue that will lead you to what you need to retrieve. Frustrated, you leave the room again. Knowing that your memory is fleeting makes you feel upset and confused. Why are your thoughts so temporary? This is an incredibly frustrating feeling, especially when you are trying to complete important tasks. Your mind needs to work with you, not against you. Likely, you wish you could do something to enhance your cognitive skills, change the way you think and how you remember information. As you age, your memory continues to decline and you fall victim to cognitive decline. You find yourself hoping that you can reverse this process, or at least slow it down. The great news is that you can! Through the help of this super book, you will learn:

- How to open your mind to use your photographic memory potential
- How to develop your mental faculties for better results
- How to improve concentration and learning
- How to improve physical and mental performance and be more productive
- How to train your brain to

keep it young and supple

How to increase your brainpower by eating right and learning healthy habits

This is one of the most comprehensive works devoted to training your memory. It works because it is an advanced and realistic look at how your memory, brain and mind works. This is not your typical memory book or exercise workbook; it is meant to be used as a guide that can help you for years to come. Picking up on various cues and hints that you used to overlook, you will feel your brain working quicker. If you are tired of feeling forgetful and ditzy, these techniques will help you. If you want a realistic look at the biological and psychological underpinnings of memory, and how you can use these to aid you, you've come to the right place. By training regularly with the exercises and advice you will find in this book, you will counter cognitive decline and improve your cognitive functions and mental abilities.

The Book on Flying a Learjet Life Remotely

The ancient Toltecs believed that life as we perceive it is a dream. We each live in our own personal dream, and all of our dreams come together to make the Dream of the Planet. Problems arise when we forget that the dream is just a dream and fall victim to believing that we have no control over it. "The Mastery of Self" takes the Toltec philosophy of the Dream of the Planet and the personal dream and explains how a person can: Wake upLiberate themselves from illusory beliefs and storiesLive with authenticity Once released, we can live as our true, authentic, loving self, not only in solitude and meditation, but in any place--at the grocery store, stuck in traffic, etc.--and in any situation or scenario that confronts us. How to develop a perfect memory

Ballantine Books

The definitive guide to using mind mapping to get organized, improve your memory, plan your business strategy, and more—from the original creator of this revolutionary thinking tool. For the past five decades, Tony Buzan has been at the leading edge of learning and educational research with his revolutionary Mind Map technique. With *Mind Map Mastery*, he has distilled these years of global research into the clearest and most powerful instructional work

available on the Mind Map technique.

Tony Buzan's Mind Map technique has gathered amazing praise and an enormous worldwide following over the last few decades—but as with any very successful idea, there have been many sub-standard imitators. With *Mind Map Mastery*, Tony Buzan re-establishes the essential concepts that are the core of the Mind Map with a clarity and practicality unrivalled by other books. If you are looking to improve your memory, plan your business strategy, become more organized, study for an exam or plan out your future, this is the book for you. With a clarity and depth that far exceeds any other book on the subject, it includes:

- The history of the development of the Mind Map
- An explanation of what makes a Mind Map (and what isn't a Mind Map)
- Why the Mind Map technique is such a powerful tool
- Illustrated step-by-step techniques for Mind Map development
- How to deal with Mind Maps that have “gone wrong”

Developed both for those new to the Mind Map concept as well as more experienced users who would like to revise and expand their expertise, *Mind Map Mastery* is the one Mind Mapping book needed on the shelf of every student and businessperson across the world.
