Eureka helps students to truly understand math, connect it to the real world, and prepare them to solve problems they haven't encountered before. The team of teachers and mathematicians who created Eureka Math believe that it is not enough for students to know the process for solving a problem; they need to know why that process works. Eureka presents math as a story, one

that develops from grades PK through 12. In *A Story of Units*, our elementary curriculum, this sequencing has joined with the methods of instruction that have been proven to work, in this nation and abroad. *Spectrum Math Workbook, Grade 3* Carson-Dellosa Publishing Master the basics! By mastering essential third grade math skills, your child will feel

more confident in the classroom. This workbook follows the Principles and Standards for School Mathematics, published by the National Council for Teachers of Mathematics (NCTM), and features interesting activities and colorful illustrations that introduce the basics covered in third grade math. Exercises that involve concepts such as understanding four-digit numbers,

place value, and division with remainders are designed to keep your child engaged and learning. Math may be difficult, but School Zone helps make it as fun and easy-to-follow as possible.
