#1 NATIONAL BESTSELLER #1 INTERNATIONAL BESTSELLER What does everyone in the modern world need to know? Renowned psychologist Jordan B. Peterson's answer to this most difficult of

questions uniquely combines the hard-won truths of ancient tradition with the stunning revelations of cutting-edge scientific research. Humorous, surprising and informative, Dr. Peterson tells us why skateboarding boys and girls must be left alone, what terrible fate awaits those who criticize too easily, and why you should always pet a cat when you meet one on the street. What does the nervous system of the lowly lobster have to tell us about standing up straight (with our shoulders back) and about success in life? Why did ancient Egyptians worship the capacity to pay careful attention as the highest of gods? What dreadful

paths do people tread when they become resentful, arrogant and vengeful? Dr. Peterson journeys broadly, discussing discipline, freedom, adventure and responsibility, distilling the world's wisdom into 12 practical and profound rules for life. *12 Rules for Life* shatters the modern commonplaces of science, faith and human nature, while transforming and ennobling the mind and spirit of its readers.

Capricorn (Cap) Anderson has never watched television. He's never tasted a pizza. Never heard of a wedgie. Since he was little, his only experience has been living on a farm commune and being home-schooled by his hippie grandmother, Rain. But when Rain falls out of a tree while picking plums and has to stay in the hospital, Cap is forced to move in with a guidance counselor and her cranky teen daughter and attend the local middle school. While Cap knows a lot about tie-dying and Zen Buddhism, no education could prepare him for the politics of public school. Right from the beginning, Cap's weirdness makes him a moving target at Claverage Middle School (dubbed C-Average by the students). He has long, ungroomed hair; wears hemp clothes; and practises tai chi on the lawn. Once Zack Powers, big man on campus, spots Cap, he can't wait to introduce him to the age-old tradition at C-Average: the biggest nerd is nominated for class president—and wins.

NATIONAL BESTSELLER • From the author of *Into the Wild* and *Into Thin Air*, this extraordinary work of investigative journalism

takes readers inside America's isolated Mormon Fundamentalist communities. • Now an acclaimed FX limited series streaming on HULU. "Fantastic.... Right up there with *In Cold Blood* and *The Executioner's Song*." —San Francisco Chronicle Defying both civil authorities and the Mormon establishment in Salt Lake City, the renegade leaders of these Taliban-like theocracies are zealots who answer only to God; some 40,000 people still practice polygamy in these communities. At the core of Krakauer's book are brothers Ron and Dan Lafferty, who insist they received a commandment from God to kill a blameless woman and her baby girl. Beginning with a meticulously researched account of this appalling double murder, Krakauer constructs a multi-layered, bone-chilling narrative of messianic delusion, polygamy, savage violence, and unyielding faith. Along the way he uncovers a shadowy offshoot of America's fastest growing religion, and raises provocative questions about the nature of religious belief.

The co-founder and longtime president of Pixar updates and expands his 2014 New York Times bestseller on creative leadership, reflecting on the management principles that built Pixar’s singularly successful culture, and on all he learned during the past nine years that allowed Pixar to retain its creative culture while continuing to evolve. “Might be the most thoughtful management book ever.”—Fast Company For nearly thirty years, Pixar has dominated the world of animation, producing such beloved films as the Toy Story trilogy, Finding Nemo, The Incredibles, Up, and WALL-E, which have gone on to set box-office records and garner eighteen Academy Awards. The joyous storytelling, the inventive plots, the emotional authenticity: In some ways, Pixar movies are an object lesson in what creativity really is. Here, Catmull reveals the ideals and techniques that have made Pixar so widely admired—and so profitable. As a young man, Ed Catmull had a dream: to make the first computer-animated movie. He nurtured that dream as a Ph.D. student, and then forged a partnership with George Lucas that led, indirectly, to his founding Pixar with Steve Jobs and John Lasseter in 1986. Nine years later, Toy Story was released, changing animation

forever. The essential ingredient in that movie’s success—and in the twenty-five movies that followed—was the unique environment that Catmull and his colleagues built at Pixar, based on philosophies that protect the creative process and defy convention, such as: • Give a good idea to a mediocre team and they will screw it up. But give a mediocre idea to a great team and they will either fix it or come up with something better. • It’s not the manager’s job to prevent risks. It’s the manager’s job to make it safe for others to take them. • The cost of preventing errors is often far greater than the cost of fixing them. • A company’s communication structure should not mirror its organizational structure. Everybody should be able to talk to anybody. Creativity, Inc. has been significantly expanded to illuminate the continuing development of the unique culture at Pixar. It features a new introduction, two entirely new chapters, four new chapter postscripts, and changes and updates throughout. Pursuing excellence isn’t a one-off assignment but an ongoing, day-in, day-out, full-time job. And Creativity, Inc. explores how it is done.

Explore the lives of twenty Christian figures whose powerful testimonies and lives of service will inspire you to embrace Christ as the secret to abundant living. Written by V. Raymond Edman, who is best remembered as the fourth president of Wheaton College in Illinois and as the writer of many devotional books, They Found the Secret shares the failures, hardships, yearnings, accomplishments, and ultimate hope and faith of twenty well-known and little-known Christians. There are those of yesteryear like John Bunyan, and of more recent years like Richard C.

Halverson and William P. Nicholson. There are clergymen like A. J. Gordon, and laymen like Dwight L. Moody. Some are well known, like Charles G. Finney and Oswald Chambers, while others may be little known or even quite forgotten, like J. A. Wood. There are mystics like Andrew Murray and practical men like Charles G. Trumbull and Robert E. Nicholas. There are women as well as men: Frances Ridley Havergal of England, Amy Carmichael of India, and Eugenia Price of contemporary America. The details of each of their experiences are quite different, yet as you listen to their stories and watch their lives, you will see a pattern that reveals their secret: Out of discouragement and defeat they have come into victory. Out of weakness and weariness they have been made strong. Out of ineffectiveness and apparent uselessness they have become efficient and enthusiastic. Their collective testimony to the reality of the joy and power of the Spirit-filled life is unanimous. Their lives and work have shaped the Christian faith and paved the way for those who have come after them. And from their stories, you too can find the path to deeper faith and a more vital relationship with God.

LIFE OF HEBER C. KIMBALL

Clarkson Potter

In this national bestseller, the president of The Church of Jesus Christ of Latter-day Saints, Gordon B. Hinckley, has created a classic look at the values that can change our world--and how to stand up for them. Drawing on anecdotes from his much-admired life of faith and service, as well as examples from American culture today, he examines ten virtues that have always illuminated the path to a better world: love, honesty, morality,

civility, learning, forgiveness and mercy, thrift and industry, gratitude, optimism, and faith. He then shows how the two guardians of virtue--marriage and the family--can keep us on that path, even in difficult times. Standing for Something is an inspiring blueprint for what we all can do--as individuals, as a nation, and as a world community--to rediscover the values and virtues that have historically made us strong and that will lead us to a brighter future.

In a run-down community hall on the edge of town, a woman has been cooking lunch for those in need. A choir is starting up, run by a volunteer who's looking for a new beginning. A mother is seeking help in her fight to keep her young daughter from being taken into care. An older man sits silently in the corner, the first to arrive, the last to leave. Under constant, increasingly militarized surveillance, the Arizona-Sonora border is portrayed in the media as a site of sharp political and ethnic divisions. But this view obscures the region's

deeper history. Bringing to light the shared cultural and commercial ties through which businessmen and politicians forged a transnational Sunbelt, *Standing on Common Ground* recovers the vibrant connections between Tucson, Arizona, and the neighboring Mexican state of Sonora. Geraldo L. Cadava corrects misunderstandings of the borderland's past and calls attention to the many types of exchange, beyond labor migrations, that demonstrate how the United States and Mexico continue to shape one another. In the 1940s, a flourishing cross-border traffic developed among entrepreneurs, tourists, and students, as politicians on both sides worked to cultivate a common ground of free enterprise. However, the modernizing forces of manufacturing, ranching, and agriculture marginalized the very workers who propped up the regional economy, and would eventually lead to the social and economic instability that has troubled the Arizona-Sonora corridor in recent times. *Standing on Common Ground* clarifies why we cannot understand today's fierce debates over illegal immigration and border enforcement without identifying the roots of these problems in the Sunbelt's complex pan-ethnic and transnational history.

A historical chapter book series from three-time Coretta Scott King Award winner and Newbery Honor author, Patricia C. McKissack. Why has their grandmother bothered keeping a menu from a restaurant that closed years ago, a restaurant that never served very good food in the first place? Three cousins listen to Gee's own story, set in the early days of lunch counter sit-ins in Nashville, a time when a black child could sit up front in a city bus but still could not get a milk shake at a downtown restaurant.

Through the eyes of ten-year-old Abby, young readers see what it was like to live through those days, and they'll come to understand that, like a menu, freedom is about having choices. Each book in this series tells the story behind a different "scrap of time"; together they form a patchwork quilt of one black family's past that stretches back for generations. "A perfect introduction to an extraordinary time when regular people, even ten-year-old girls, make a difference." --The Horn Book "The book gives readers a kid's-eye view of important happenings and reminds them that history is something that is in the making." --Booklist

Schooled Bloomsbury Publishing

Over twenty-two months in 1979 and 1981 nearly two dozen children were unspeakably murdered in Atlanta despite national attention and outcry; they were all Black. James Baldwin investigated these murders, the Black administration in Atlanta, and Wayne Williams, the Black man tried for the crimes. Because there was only evidence to convict Williams for the murders of two men, the children's cases were closed, offering no justice to the families or the country. Baldwin's incisive analysis implicates the failures of integration as the guilt party, arguing, "There could be no more devastating proof of this assault than the slaughter of the children." As Stacey Abrams writes in her foreword, "The humanity of black children, of black men and women, of black lives, has ever been a conundrum for America. Forty years on, Baldwin's writing reminds us that we have never resolved the core query: Do black lives matter? Unequivocally, the moral answer is yes, but James Baldwin refuses such rhetorical comfort." In this, his last book, by excavating American race relations Baldwin exposes the hard-to-face ingrained issues and

demands that we all reckon with them.

The story of the civil rights movement typically begins with the Montgomery bus boycott of 1955 and culminates with the 1965 voting rights struggle in Selma. But as Martha Biondi shows, a grassroots struggle for racial equality in the urban North began a full ten years before the rise of the movement in the South. This story is an essential first chapter, not only to the southern movement that followed, but to the riots that erupted in northern and western cities just as the civil rights movement was

achieving major victories. Biondi tells the story of African Americans who mobilized to make the war against fascism a launching pad for a postwar struggle against white supremacy at home. Rather than seeking integration in the abstract, black New Yorkers demanded first-class citizenship--jobs for all, affordable housing, protection from police violence, access to higher education, and political representation. This powerful local push for economic and political equality met broad resistance, yet managed to win several landmark laws barring discrimination and segregation. *To Stand and Fight* demonstrates how black New Yorkers launched the modern civil rights struggle and left a rich legacy. Table of Contents: Prologue: The Rise of the Struggle for Negro Rights 1 Jobs for All 2 Black Mobilization and Civil Rights Politics 3 Lynching, Northern style 4 Desegregating the metropolis 5 Dead Letter Legislation 6 An Unnatural Division of People 7 Anticommunism and Civil Rights 8 The Paradoxical Effects of the Cold War 9 Racial Violence in the Free World 10 Lift Every Voice and Vote 11 Resisting Resegregation 12 To Stand and Fight Epilogue: Another Kind of America Notes Acknowledgments Illustration Credits Index Reviews of this book: Historians have thoroughly documented the experiences of those African Americans who lived in the South and worked to repeal Jim Crow laws. However, in this work, Biondi explores what she calls 'the struggle for Negro rights' in New York City, an exploration resulting in a stark reminder of the daily challenges facing blacks who lived in northern cities...With its detailed discussions of the American Labor Party, the Communist Party, Black Nationalism, Adam Clayton Powell Jr., W. E. B. Dubois, Roy Wilkins, and, especially, Paul Robeson, this work should be

required reading for all historians interested in the post-WW II experience of African Americans in the urban North. --T. D. Beal, Choice Reviews of this book: In this meticulously researched monograph, Biondi reminds the reader that the struggle for black civil rights was waged in the North before it was joined in the South. She documents the fight against racial discrimination in hiring, police brutality, housing segregation, lack of political representation, and inadequate schools in New York City between 1946 and 1954...Biondi's writing is crisp and direct. She introduces the reader to a host of activists whose efforts deserve to be remembered. Unfortunately, most of the causes they championed remain with us today. --Paul T. Murray, MultiCultural Review With stunning research and powerful arguments, Martha Biondi charts a new direction in civil rights history - the northern side of the black freedom struggle. Biondi presents postwar New York as a battleground, no less than the Jim Crow South, for the fight against police brutality and discrimination in employment, housing, retail stores, and places of amusement. Men and women, trade unionists and religious leaders, integrationists and separatists, liberals and the Left come together in this pathbreaking study of America's largest and most cosmopolitan city. --Evelyn Brooks Higginbotham, editor-in-chief of The Harvard Guide to African-American History To Stand and Fight brilliantly re-writes the history of postwar social movements in New York City. Martha Biondi has not only extended our view of the civil rights movement to the urban North, but she places the movement squarely within an international framework. She redefines the movement, focusing on the specific struggles that mattered: jobs, welfare, housing, police misconduct, political

representation, and black people's ongoing battle for independence in the colonies. To Stand and Fight will stand out as a major contribution to an already burgeoning field of civil rights studies. --Robin D. G. Kelley, author of Freedom Dreams: The Black Radical Imagination To Stand and Fight establishes that New York was as important a battleground for racial equality as Montgomery or Birmingham. Martha Biondi has done a great service by uncovering the rich and largely forgotten history of New York's role in the African American freedom struggle. -- Thomas J. Sugrue, author of The Origins of the Urban Crisis: Race and Inequality in Postwar Detroit
