THE FOUR VOYAGES, 1492-1504

Crown

An broad-based survey of the world's earliest human cultures ranges from the ancient farming settlements of Mesopotamia to the founding of Rome, utilizing photographs, artwork, reproductions, and full-color maps to highlight a look at such topics as the origins of the Egyptian pharaohs, China's dynasties, and the great cities of the Inca and Aztec. Original.

The Story of Batavia, Australia's Bloodiest Mutiny HarperCollins Australia

As you climbed the rickety stairs of an old woolshed at Sydney harbour in 1944, you would hear the thrum of clicks and buzzes. Rows of men and women in uniforms and headsets would be tapping away vigorously at small machines, under the careful watch of their young female trainers. Presiding over the cacophony was a tiny woman, known to everyone as 'Mrs Mac', one of Australia's wartime legends.2 A smart girl from a poor mining town who loved to play with her father's tools, Violet McKenzie became an electrical engineer, a pioneer of radio and a successful businesswoman. As the clouds of war gathered in the 1930s, she defied convention and trained young women in Morse code, foreseeing that their services would soon be sorely needed. Always a champion of women, she was instrumental in getting Australian women into the armed forces. Mrs Mac was adored by the thousands of young women and men she trained, and came to be respected by the defence forces and the public too for her vision and contribution to the war effort. David Dufty brings her story to life in this heartwarming and captivating biography. '[An] incredible and inspiring life... Dufty's new biography captures her unwavering dedication in the face of adversity.' - Professor Genevieve Bell, Australian National University 'A cracking story about the famous Australian radio engineer you've never heard of.' - Dick Smith, entrepreneur and philanthropist

Mutiny on the Bounty Liveright Publishing

'A fascinating exploration of human greed and self-delusion and also a tribute to our ageless search for beauty' DEBORAH MOGGACH. In 1630s' Holland thousands of people, from the wealthiest merchants to the lowest street traders, were caught up in a frenzy of buying and selling. The object of the speculation was not oil or gold, but the tulip, a delicate and exotic bloom that had just arrived from the east. Over three years, rare tulip bulbs changed hands for sums that would have bought a house in Amsterdam: a single bulb could sell for more than £300,000 at today's prices. Fortunes were made overnight, but then lost when, within a year, the market collapsed. Mike Dash recreates this bizarre episode in European history, separating myth from reality. He traces the hysterical boom and devastating bust, bringing to life a colourful cast of characters, and beautifully evoking Holland's Golden Age.

Ongeluckige Voyagie Van 't Schip Batavia Nae de Oost-Indien Farrar, Straus and Giroux

Never in recorded history has there been a group of murderers as deadly as the Thugs. For nearly two centuries, groups of these lethal criminals haunted the roads of India, slaughtering travellers whom they met along the way with such efficiency that over the years tens of thousands of men, women and children simply vanished without trace. Mike Dash, one of our best popular historians, has devoted years to combing archives in both India and Britain to discover how the Thugs lived and worked. Painstakingly researched and grippingly written, Thug tells, for the first time the full story of the Thugs' rise and fall from the cult's beginnings in the late seventeenth century to its eventual demise at the hands of British East India Company officer William Sleeman in 1840.

Artist in Indonesia and Asia Bantam

The monumental statues of Easter Island, both so magisterial and so forlorn, gazing out in their imposing rows over the island's barren landscape, have been the source of great mystery ever since the island was first discovered by Europeans on Easter Sunday 1722. How could the ancient people who inhabited this tiny speck of land, the most remote in the vast expanse of the Pacific islands, have built such monumental works? No such astonishing numbers of massive statues are found anywhere else in the Pacific. How could the islanders possibly have moved so many multi-ton monoliths from the quarry inland, where they were carved, to their posts along the coastline? And most intriguing and vexing of all, if the island once boasted a culture developed and sophisticated enough to have produced such marvelous edifices, what happened to that culture? Why was the

island the Europeans encountered a sparsely populated wasteland? The prevailing accounts of the island's history tell a story of self-inflicted devastation: a glaring case of eco-suicide. The island was dominated by a powerful chiefdom that promulgated a cult of statue making, exercising a ruthless hold on the island's people and rapaciously destroying the environment, cutting down a lush palm forest that once blanketed the island in order to construct contraptions for moving more and more statues, which grew larger and larger. As the population swelled in order to sustain the statue cult, growing well beyond the island's agricultural capacity, a vicious cycle of warfare broke out between opposing groups, and the culture ultimately suffered a dramatic collapse. When Terry Hunt and Carl Lipo began carrying out archaeological studies on the island in 2001, they fully expected to find evidence supporting these accounts. Instead, revelation after revelation uncovered a very different truth. In this lively and fascinating account of Hunt and Lipo's definitive solution to the mystery of what really happened on the island, they introduce the striking series of archaeological discoveries they made, and the path-breaking findings of others, which led them to compelling new answers to the most perplexing questions about the history of the island. Far from irresponsible environmental destroyers, they show, the Easter Islanders were remarkably inventive environmental stewards, devising ingenious methods to enhance the island's agricultural capacity. They did not devastate the palm forest, and the culture did not descend into brutal violence. Perhaps most surprising of all, the making and moving of their enormous statues did not require a bloated population or tax their precious resources; their statue building was actually integral to their ability to achieve a delicate balance of sustainability. The Easter Islanders, it turns out, offer us an impressive record of masterful environmental management rich with lessons for confronting the daunting environmental challenges of our own time. Shattering the conventional wisdom, Hunt and Lipo's ironclad case for a radically different understanding of the story of this most mysterious place is scientific discovery at its very best.

A MEDIEVAL MUSLIM-MALAY ROMANCE

Springer Science & Business Media

He knew nothing of celestial navigation or of the existence of the Pacific Ocean. He was a self-promoting and ambitious entrepreneur. His maps were a hybrid of fantasy and delusion. When he did make land, he enslaved the populace he found, encouraged genocide, and polluted relations between peoples. He ended his career in near lunacy. But Columbus had one asset that made all the difference, an inborn sense of the sea, of wind and weather, and of selecting the optimal course to get from A to B. Laurence Bergreen's energetic and bracing book gives the whole Columbus and most importantly, the whole of his career, not just the highlight of 1492. Columbus undertook three more voyages between 1494 and 1504, each designed to demonstrate that he could sail to China within a matter of weeks and convert those he found there to Christianity. By their conclusion, Columbus was broken in body and spirit, a hero undone by the tragic flaw of pride. If the first voyage illustrates the rewards of exploration, this book shows how the subsequent voyages illustrate the costs - political, moral, and economic.

When the United States entered the Gilded Age after the Civil War, argues cultural historian Christopher Benfey, the nation lost its philosophical moorings and looked eastward to "Old Japan," with its seemingly untouched indigenous culture, for balance and perspective. Japan, meanwhile, was trying to reinvent itself as a more cosmopolitan, modern state, ultimately transforming itself, in the course of twenty-five years, from a feudal backwater to an international power. This great wave of historical and cultural reciprocity between the two young nations, which intensified during the late 1800s, brought with it some larger-than-life personalities, as the lure of unknown foreign cultures prompted pilgrimages back and forth across the Pacific. In *The Great Wave*, Benfey tells the story of the tightly knit group of nineteenth-century travelers—connoisseurs, collectors, and scientists—who dedicated themselves to exploring and preserving Old Japan. As Benfey writes, "A sense of urgency impelled them, for they were convinced—Darwinians that they were—that their quarry was on the verge of extinction." These travelers include Herman Melville, whose *Pequod* is "shadowed by hostile and mysterious Japan"; the historian Henry Adams and the artist John La Farge, who go to Japan on an art-collecting trip and find exotic adventures; Lafcadio Hearn, who marries a samurai's daughter and becomes Japan's preeminent spokesman in the West; Mabel Loomis Todd, the first

woman to climb Mt. Fuji; Edward Sylvester Morse, who becomes the world's leading expert on both Japanese marine life and Japanese architecture; the astronomer Percival Lowell, who spends ten years in the East and writes seminal works on Japanese culture before turning his restless attention to life on Mars; and President (and judo enthusiast) Theodore Roosevelt. As well, we learn of famous Easterners come West, including Kakuzo Okakura, whose *The Book of Tea* became a cult favorite, and Shuzo Kuki, a leading philosopher of his time, who studied with Heidegger and tutored Sartre. Finally, as Benfey writes, his meditation on cultural identity "seeks to capture a shared mood in both the Gilded Age and the Meiji Era, amid superficial promise and prosperity, of an overmastering sense of precariousness and impending peril."

Francisco Orellana's Legendary Voyage of Death and Discovery Down the Amazon Allen & Unwin

A "thrilling . . . captivating" account of the most famous shipwreck before the Titanic—a tragedy that inspired an unforgettable masterpiece of Western art (*The Boston Globe*). In June 1816, the *Medusa* set sail. Commanded by an incompetent captain, the frigate ran aground off the desolate West African coast. During the chaotic evacuation a privileged few claimed the lifeboats, while 147 men and one woman were herded aboard a makeshift raft that was soon cut loose by the boats that had pledged to tow it to safety. Those on the boats made it ashore and undertook a two-hundred-mile trek through the sweltering Sahara, but conditions were far worse on the drifting raft. Crazed, parched, and starving, the diminishing band fell into mayhem. When rescue arrived thirteen days later, only fifteen were alive. Among the handful of survivors were two men whose bestselling account of the maritime disaster scandalized Europe and inspired promising artist Théodore Géricault, who threw himself into a study of the *Medusa* tragedy, turning it into a vast canvas in his painting, *The Raft of the Medusa*. Drawing on contemporaneously published accounts and journals of survivors, *The Wreck of the Medusa* is "a captivating gem about art's relation to history" (Booklist) and ultimately "a thrilling read" (*The Guardian*).

THE ULTIMATE EXPLORATION OF THE UNKNOWN

Open Road + Grove/Atlantic

Documents the experiences of nineteenth-century adventurers who searched for the Northwest Passage, describing the sixteenth-century myths that inspired their pursuits and the ways in which many met tragic ends when confronting the harsh Arctic elements.

The Great Wave Granta

'If not now, when?' Hillel, Pirke Avot, 14. The text edition which I hereby submit to the reader has been my constant companion for much of the last nine odd years. But the relative stability of my main preoccupation contrasted sharply with my wanderings during this same span of time. In fact, for most of it I was more or less constantly on the move, trekking from the Nether lands to Australia and back again, then to the United States, with three excursioru; to Indonesia. On all these trips I carried my notes and kept working on this project, the conclusion of which continued to elude me. Even today I can hardly believe it is allover - and in fact it is not, as this volume will soon be followed by a companion containing a shortened English translation and dealing in much greater detail with the relationship between the Malay Hikayat Muhammad Hanafiyah, its Persian source and Muslim literature in general. I sincerely regret that technical and financial considerations have combined to make inclusion of the apparatus criticus in this edition impossible. A limited number of copies of this apparatus are avail able on personal application either direct from the author (C/o the Indonesian Department, Monash University, Clayton, Victoria 3168, Australia), or from the Koninklijk Instituut voor Taal-, Land- en Volkenkunde, Stationsplein 10, Leiden, the Netherlands.

Islands of Angry Ghosts Broadway Books

From Hugh Edwards, one of the discoverers of the wreck of the *Batavia*, comes *Islands of Angry Ghosts*, an expert and compelling look at one of the most horrific maritime incidents in Australian history. A fascinating story, in print since 1966, *Islands of Angry Ghosts* is a story in two parts. It traces and re-creates the final months of the *Batavia* and her crew, pieced together through journals, letters and trial records. It also follows the discovery and salvage of *Batavia's* wreck by Hugh Edwards and a crew of divers. In 1629, the Dutch East India merchantman the *Batavia* was wrecked on reef islands off the West Australian coast while on a routine trip to Indonesia. What followed this disaster is a harrowing tale of desertion, betrayal and murder. More than 125 men, women and children were murdered by mutineers caught in a frenzy of bloodlust and greed. By the time the rescue ship finally arrived, months later, the marooned were caught in a desperate battle between soldiers trying to defend the survivors and the mutineers who were bent on leaving no witnesses. More than three hundred years later, Hugh Edwards, a West Australian reporter and diving enthusiast, started to search for the lost ship. When Edwards and his team found the *Batavia*, they discovered the final piece of a story that has gripped Australians for over a century.

UNRAVELING THE MYSTERY OF EASTER ISLAND

HarperCollins

A rising-star historian offers a significant new global perspective on the Revolutionary War with the story of the conflict as seen through the eyes of the outsiders of colonial society Winner of the Journal of the American Revolution Book of the Year Award • Winner of the Society of the Cincinnati in the State of New Jersey History Prize • Finalist for the George Washington Book Prize Over the last decade, award-winning historian Kathleen DuVal has revitalized the study of early America's marginalized voices. Now, in *Independence Lost*, she recounts an untold story as rich and significant as that of the Founding Fathers: the history of the Revolutionary Era as experienced by slaves, American Indians, women, and British loyalists living on Florida's Gulf Coast. While citizens of the thirteen rebelling colonies came to blows with the British Empire over tariffs and parliamentary representation, the situation on the rest of the continent was even more fraught. In the Gulf of Mexico, Spanish forces clashed with Britain's strained army to carve up the Gulf Coast, as both sides competed for allegiances with the powerful Chickasaw, Choctaw, and Creek nations who inhabited the region. Meanwhile, African American slaves had little control over their own lives, but some individuals found opportunities to expand their freedoms during the war. *Independence Lost* reveals that individual motives counted as much as the ideals of liberty and freedom the Founders espoused: Independence had a personal as well as national meaning, and the choices made by people living outside the colonies were of critical importance to the war's outcome. DuVal introduces us to the Mobile slave Petit Jean, who organized militias to fight the British at sea; the Chickasaw diplomat Payamataha, who worked to keep his people out of war; New Orleans merchant Oliver Pollock and his wife, Margaret O'Brien Pollock, who risked their own wealth to organize funds and garner Spanish support for the American Revolution; the half-Scottish-Creek leader Alexander McGillivray, who fought to protect indigenous interests from European imperial encroachment; the Cajun refugee Amand Broussard, who spent a lifetime in conflict with the British; and Scottish loyalists James and Isabella Bruce, whose work on behalf of the British Empire placed them in grave danger. Their lives illuminate the fateful events that took place along the Gulf of Mexico and, in the process, changed the history of North America itself. Adding new depth and moral complexity,

Related with *Batavias Graveyard*:

Kathleen DuVal reinigorates the story of the American Revolution. *Independence Lost* is a bold work that fully establishes the reputation of a historian who is already regarded as one of her generation's best. Praise for *Independence Lost* "[An] astonishing story . . . *Independence Lost* will knock your socks off. To read [this book] is to see that the task of recovering the entire American Revolution has barely begun."—*The New York Times Book Review* "A richly documented and compelling account."—*The Wall Street Journal* "A remarkable, necessary—and entirely new—book about the American Revolution."—*The Daily Beast* "A completely new take on the American Revolution, rife with pathos, double-dealing, and intrigue."—Elizabeth A. Fenn, Pulitzer Prize-winning author of *Encounters at the Heart of the World*

Columbus Random House

Carrying the surname of his uncle and Immortal Reg, Mark Gasnier had blinding pace, a shimmy, a step and an innate sense of timing. Whether it was for St George Illawarra, NSW or Australia, he could seemingly sniff out a try at will. As former NSW coach Phil Gould once remarked: "Mark Gasnier, the best centre I have seen." Yet for a game that came to him so naturally, Gasnier's career was never so straightforward. His famous bloodlines and the notorious hoodoo that had seen the Dragons fail to win a premiership in three decades meant the weight of expectation never went away. A drunken phone call during a NSW bonding session that led to his sacking on the eve of his Origin debut, the curse of injury and the ultimate decision to walk away from the game and play rugby union for Paris glamour club Stade Francais only add to his complex journey. Those obstacles only made the finish - when he returned to the NRL to win the grand final with St George Illawarra - sweeter ... before he shocked everyone again with the early announcement of his retirement. Throughout his career, Gasnier was guarded with the media. For the first time, he candidly tells his story.

Power and Imagination Vintage

From the acclaimed author of *Conquistador* comes this thrilling account of one of history's greatest adventures of discovery. With cinematic immediacy and meticulous attention to historical detail, here is the true story of a legendary sixteenth-century explorer and his death-defying navigation of the Amazon—river of darkness, pathway to gold. In 1541, the brutal conquistador Gonzalo Pizarro and his well-born lieutenant Francisco Orellana set off from Quito in search of La Canela, South America's rumored Land of Cinnamon, and the fabled El Dorado, "the golden man." Driving an enormous retinue of mercenaries, enslaved natives, horses, hunting dogs, and other animals across the Andes, they watched their proud expedition begin to disintegrate even before they descended into the nightmarish jungle, following the course of a powerful river. Soon hopelessly lost in the swampy labyrinth, their numbers diminishing daily through disease, starvation, and Indian attacks, Pizarro and Orellana made a fateful decision to separate. While Pizarro eventually returned home barefoot and in rags, Orellana and fifty-seven men, in a few fragile craft, continued downriver into the unknown reaches of the mighty Amazon, serenaded by native war drums and the eerie cries of exotic predators. Theirs would be the greater glory. Interweaving eyewitness accounts of the quest with newly uncovered details, Buddy Levy reconstructs the seminal journey that has electrified adventurers ever since, as Orellana became the first European to navigate and explore the entire length of the world's largest river. Levy gives a long-overdue account of the native populations—some peaceful and welcoming, offering sustenance and life-saving guidance, others ferociously hostile, subjecting the invaders to gauntlets of unremitting attack and intimations of terrifying rituals. And here is the Amazon itself, a powerful presence whose every twist and turn held the promise of new wonders both natural and man-made, as well as the ever-present risk of death—a river that would hold Orellana in its irresistible embrace to the end of his life. Overflowing with violence and beauty, nobility and tragedy, *River of Darkness* is both riveting history and a breathtaking adventure that will sweep readers along on an epic voyage unlike any other.

The Man Who Ate His Boots The Wild Rose Press Inc

A history of the classic television series describes the 1964 collaboration of the authors and Gene Roddenberry and chronicles the personalities, production methods, and special effects that resulted in the show's phenomenal legacy

Terror, Extortion, Revenge, Murder, and the Birth of the American Mafia *Batavia's Graveyard*

In *Power and Imagination*, a noted historian rethinks the evolution of the city-state in Renaissance Italy and recasts the conventional distinction between "society" and "culture." Martines traces the growth of commerce and the evolution of governments; he describes the attitudes, pleasures, and rituals of the ruling elite; and he seeks to understand the period's towering works of the imagination in literature, painting, city planning, and philosophy—not simply as the creations of individual artists, but as the forman expression of the ambitions and egos of those in power.

Little, Brown

From the author of *Ninety Degrees North*, a spellbinding account of how officers of the British Navy explored the world after the Napoleonic Wars. In 1816, John Barrow, second secretary to the British admiralty, launched the most ambitious program of exploration the world has ever seen. For the next thirty years, his handpicked teams of elite British naval officers scoured the globe from the Arctic to Antarctica, their mission: to fill the blanks that littered the atlases of the day. Barrow's Boys is the spellbinding story of these adventurers, the perils they faced—including eating mice, their shoes, and even each other to survive—and the challenges they overcame on their odysseys into the unknown. Many of these expeditions are considered the greatest in history, and here they've been collected into one volume that captures the full sweep of Barrow's program. "Here is all the adventure you could want, stirringly and generously told." —Anthony Brandt, *National Geographic Adventure* "History at its most romantic." —*The Columbus Dispatch* "A sure bet for fans of Caroline Alexander's *The Endurance*, this captivating survey of England's exploration during the nineteenth century illuminates a host of forgotten personalities." —*Publishers Weekly* "Travel history of the best kind: entertaining, informed and opinionated." —*The Sunday Times*

Batavia's Graveyard Random House Trade Paperbacks

In this riveting account of the shipwreck of the *Batavia*, Leys travels to the site of the disaster and reveals the brutality and tragedy of the bloody island massacre which befell the ship's survivors.

Lives on the Edge of the American Revolution Allen & Unwin

Winner of the Penang Book Prize 2019 Nusantaria - often referred to as 'Maritime Southeast Asia' - is the world's largest archipelago and has, for centuries, been a vital cultural and trading hub. Nusantara, a Sanskrit, then Malay, word referring to an island realm, is here adapted to become Nusantaria - denoting a slightly wider world but one with a single linguistic, cultural and trading base. Nusantaria encompasses the lands and shores created by the melting of the ice following the last Ice Age. These have long been primarily the domain of the Austronesian-speaking peoples and their seafaring traditions. The surrounding waters have always been uniquely important as a corridor connecting East Asia to India, the Middle East, Europe and Africa. In this book, Philip Bowring provides a history of the world's largest and most important archipelago and its adjacent coasts. He tells the story of the peoples and lands located at this crucial maritime and cultural crossroads, from its birth following the last Ice Age to today.
