pen ready to fill out the engaging Test Your Understanding questions! Have you always wanted to learn music theory but felt it was too overwhelming a task? demonstrations show why relaxed posture and optimized fingering are vital for good tone, timing and chops. • You can even work your way through the book without being able to read music (reading music is of course a vital skill, yet, the author believes it should not be tackled at the same time as the study of music theory, as they are different skills with a different practicing requirement. The #1 New York Times Bestseller: "A hilarious take on that age-old problem: getting the beloved child to go to sleep" (NPR). "Hell no, you can't go to the bathroom. You know where you can go? The f\*\*k to sleep." Go the Fuck to Sleep is a book for parents who live in the real world, where a few snoozing kitties and

cutesy rhymes don't always send a toddler sailing blissfully off to dreamland. Profane, affectionate, and radically honest, it captures the familiar—and unspoken—tribulations of putting your little angel down for the night. Read by a host of celebrities, from Samuel L. Jackson to Jennifer Garner, this subversively funny bestselling storybook will not actually put your kids to sleep, but it will leave you laughing so hard you won't care.

**Comprehensive Guitar Method** Music Sales (Educational Piano Library). Spike, Party Cat and friends guide the student through fun and creative assignments that introduce the language of music and its symbols for sound, silence, and rhythm. Ear training and basic theory

exercises help students learn to write and play the music they are learning as well as the music they create themselves. Correlates to Piano Lessons Book 1.
