BUSINESS LAW (II) Independently Published

Business law is the collection of laws and regulations that advises one as to the manner in which a business can properly operate. The laws pertaining to business can be enacted by the courts as well as a legislative body. A chart would be helpful as there are as many areas of business law as there are businesses. Such a chart would help guide one to the particular area of law which governs the particular business one is operating.

you that I passed my final CLEP exam last Monday which gives me all of the credits I need to graduate. I have taken 30 credits worth of CLEP exams and I've passed them all by using your study guides. I actually purchased one of your study guides and failed my first test. I didn't fail because of your guide though, I failed because I didn't manage my time effectively and I ran short. I looked at your study guide after failing though, and a lot of the information on your study guide was very relevant to what was on the test. So, I tried again with a different test and a different study guide of yours. I passed. This pattern continues for 30 credits. I graduate on June 9th thanks to you guys, so I wanted to say thank you. The guides were worth every penny. Thanks, -John S. ****I would like to thank you for your study guides. I will be graduating in December with two bachelor degrees and CLEP helped me get there quickly. I gained 36 credits through CLEP and your study guides helped me through almost all of them. I can honestly say that I would not have passed many of the tests without your guides. Great products. Thanks!! -Erin W.**** *Business Law Study Guide for Business Law and the Regulation of Business*
