You can also call: 1-888-344-2355 (Joel Comiskey Group). This book clearly explains how to plant churches that are simple enough to keep on reproducing and even grow into a movement of churches. Planting Churches that Reproduce is the fruit of Comiskey's extensive research and personal experience (three church plants in a wide variety of settings). Comiskey not only uses the latest North American church planting statistics but also extends the illustrations to include worldwide church planting. More than anything else, this book will provide practical solutions for those planting churches today. Comiskey's book is a must-read for all those interested in starting Christ-honoring, multiplying churches. — LEONARD SWEET (Drew University) wrote: Better late than never but best never late. Where has this book been? How different might the church be today if Comiskey's invaluable resource had been available even ten years ago? Don't discover Comiskey ten years from now and exclaim, Where have I been! The book we've needed and been waiting for is here now. Tag, you're it. ALAN HIRSCH (Author of The Forgotten Ways) wrote: Here is a thoroughly practical, encouraging and thoughtful

contribution to the small but growing body of literature on multiplication movements. This is an important book not only because it involves a return to a more genuinely biblical ecclesiology but also because it envisions the much more dynamic form of church that will advance the cause of Jesus in the 21st Century. JEANNETTE BULLER (Church planter and coach) wrote: Joel Comiskey brings both his experience and the experience of others together in a clear, easy to understand fashion that will be helpful to any simple church planter today. As I read, I kept thinking of chapters I wanted to recommend to the various church planters I coach. Based on timeless principles of church planting, Comiskey lays a firm foundation for multiplying churches which I believe is on the heart of God. His practical application of these principles keeps the reader focused on the path toward church planting success. BOB ROBERTS (Pastor NorthWood, author of The Multiplying Church) wrote: Joel Comiskey does a great job in his book of explaining what a simple church is and how to plant them. He provides solid theology, numerous examples and strategic steps for planting simple churches. We will use it with our planters as a resource. I've read a lot of books on simple, cell, house churches defending them or promoting them - I don't think I've read anything as clear and as concise as this or as practical to get them started as this. PETER WAGNER (Presiding Apostle, International Coalition of Apostles) wrote: Joel Comiskey's lifelong passion for multiplying churches does not allow him to get stuck in the past. I love this

excellent book because it is a book for the future. Joel's blueprint will help many find their proper position for enriching their life and for extending the kingdom of God. DR. TOM JONES (Stadia East Regional Director) wrote: Joel Comiskey is a veteran church planter. His new book *Planting Churches that Reproduce* is biblical, practical and inspirational. If indeed church planters are going to get serious about evangelistic reproducing movements that start new testament churches then we must take a long and creative look at Simple churches or some variation of the house church movement. The typical suburban church planting model will not get the job done alone. JIMMY SEIBERT (senior pastor of Antioch Community Church) wrote: Over the last ten years Joel's writings and research have deeply influenced who we are as a people. His genuine love for Jesus and his heart to capture what God is doing and saying is bearing great fruit for the body of Christ. His latest book, *Planting Churches that Reproduce*, is at the heart of what God is speaking to the body of Christ worldwide, whether in the United States or around the world. RALPH NEIGHBOUR (author, professor, and church planter) wrote: Once again, Joel Comiskey has felt the pulse of the body of Christ and has given a prescription for its well being. This book is a combination of spiritual insights coupled with personal experience in the field of planting Biblical communities. I recommend this for the group that God forms to form a new Christ centered missional congregation. BEN WONG (founder of CCMN) wrote: Joel Comiskey's books have always been a blessing to me personally they have brought special insight into issues that people in cell churches are interested in. Joel, you have out done yourself again! You have

written a book that will be used to bring the house church and cell church people together. Well done! All those who are interested in the new move of God for these final days must read this book! BOB LOGAN (author, professor, and church planter) wrote: *Planting Churches that Reproduce* is a good solid manual for planters who want to get back to the basics and discover what church is really all about. Comiskey helps Christian leaders make the paradigm shift from buildings and events to people and evangelism--and then provides clear strategies for moving forward. He underscores that what makes a church effective is not about size so much as it is about how well it can reproduce. AUBREY MALPHURS (lead Vision Navigator with the Malphurs Group) wrote: If you're a church planter or part of a church plant that is passionate about reaching the Next Generation--the future of the North American church, then this book is a must read!

**Church Planting** B&H Publishing Group In order to help pastors and other Christian leaders to lovingly lead God's flock to Jesus Christ and into God's mission, Scott Thomas and Tom Wood clarify a process of coaching and shepherding that is rooted in the patterns of the Good Shepherd himself, a process in which leaders stir up the gifts, passion, and calling upon others' lives. This book addresses the needs of the leader, his or her sinful tendencies, and church leadership issues. It directs the leader to the person and work of Jesus. It provides a system to intentionally shepherd leaders to glorify God in their personal, spiritual, and missional lives. Many ministry leaders serving in churches find themselves overwhelmed, disillusioned, and depressed by the enormous and challenging task of

leading and ministering in a congregation. As a result, the ministry suffers, the leaders suffer, and the result is often an unhealthy church existent with little or no Gospel influence. These leaders need someone to shepherd their soul so that they can lead others to the Chief Shepherd, Jesus Christ. We suggest that coaching for the church leader looks less like corporate consulting or humanistic psychology and more like biblical-shepherding. We suggest that every church leader needs a Gospel Coach to come alongside with words of truth, wisdom and experience to encourage, admonish, comfort and help—words drawn from Scripture and godly wisdom, grounded in the gracious saving work of Jesus Christ, and presented in the context of a trusting relationship. Gospel Coaching is an intentional relationship to skillfully care for others with four ancient shepherding principles: 1) Know the sheep, 2) Feed the sheep, 3) Lead the sheep, and 4) Protect the sheep. A Gospel Coach both inquires about the personal, spiritual, and missional aspects of a ministry leader's life in a loving yet focused manner, and also probes the church leader for compulsive unbelief or selfish motivation, or disobedience and sin, and leads the ministry leader back to the Gospel, through belief, repentance and obedience. Churches that desire to be rich in a Gospel application toward their city, their relationships with one another, their communication and worship, as well as their service, will benefit to a greater degree by having their leaders being coached by a Gospel-centered leader.

With nearly fifty years combined global church-planting experience, Craig Ott and Gene Wilson are well qualified to write a comprehensive, up-to-date guide for cross-cultural church planting. Combining substantive biblical principles and missiological understanding with practical insights, this book walks readers through the various models and development phases of church planting. Advocating methods that lead to church multiplication, the authors emphasize the role of the missionary church planter. They offer helpful reflection on current trends and provide best practices gathered from research and empirical findings around the globe. The book takes up a number of special issues not addressed in most church planting books, such as use of short-term teams, partnerships, and wise use of resources. Full of case studies and real examples from around the world, this practical text will benefit students, church planters, missionaries, and missional church readers.

This book is a manual that enforces Biblical principles, proven models and practical application for church planting. The content of this book is the fruit of many spiritual pioneers. These snapshots are of very brave men and women who chose to obey God and step

out into spheres where there was no road map, operating instructions, and no guarantee of resources. The common denominator that all possessed was a responsive heart towards God, a heart that provoked bold action steps, and at the end of the day that left great legacies.

**One-Verse Evangelism** Zondervan Church planting is not just about gathering new communities of people who are already Christians. In the book of Acts, church plants begin with sharing the gospel. Planting churches flows naturally out of making disciples. Pastor J. D. Payne explains the process and stages of church planting, with biblical foundations and practical steps for planting teams. He provides a pathway for the multiplication of disciples, leaders and churches. Here are church planting strategies and activities that are simple, highly reproducible and can be implemented by ordinary team members, not just by charismatic leaders. This guide can be used for planting in contexts among any given people group, domestically or internationally. It is an ideal resource for teams to work through together as they follow God's call in their community.

A leader in the House Church movement, William Tenny-Brittian offers this step-by-step guide for starting, growing, and multiplying a House Church and a House Church Network. If you're a potential House Church leader, this book will help you with ideas for starting out, gathering folks, staying focused, and maintaining accountability. If you're a current House Church leader, this book will help you multiply your House Church as it provides tried-and-true methods of training and accountability for House

Church starts. And if you're a new church plant coordinator or you have a vision for a House Church planting movement, this book will help you organize the three tasks of a network pastor: recruiting, training, and launching new churches.

**The Y-B-H Handbook of Church Planting (Yes, But How?)** David Van Leeuwen

If the church is to thrive in the twenty-first century, it will have to take on a new form as it ministers to the 120 million unchurched people in the United States. *Planting Growing Churches for the 21st Century* is still virtually the only available text on church planting in North America and beyond. In this third edition, readers will find material on the importance of healthy, biblical change in our churches, updated appendixes, insight on our postmodern ministry context, and strategies for reaching new population demographics such as Generations X and Y. Pastors, ministry leaders, and church planters will find the information and advice found in this book invaluable as they carry out their ministries.

**God's Plan for His Church** Luviri Press

Most books on church planting offer a model for churches to replicate--usually one that is tied to a particular style, generation, or demographic. But what churches really need is a process that is flexible, not bound to a particular time or current fad. In *The Nuts and Bolts of Church Planting*, trusted author and church-planting expert Aubrey Malphurs shares the basic steps any church planter will need, regardless of his or her generation now or in the future. These steps include establishing values, mission, vision, and strategy reaching the community making disciples recruiting a team determining location and facilities raising money for the ministry With instant practical takeaway

based on proven techniques, this book will be invaluable to any church planter.

The Great Commission provides more than a weekly activity of soulwinning or visitation; it reflects the very heartbeat of God. It is more than a directive for local church outreach programs; it is God's plan for the establishment of local churches around the world. God's Passion is a church planting manual that will both challenge and equip you to align your heart with God's. This book includes teaching on the biblical model of church planting as well as several chapters of intensely practical resources for both the sending church and the church planter. These chapters will encourage you to make Christ's last command your highest priority, and to invest your life--as a supporting church member, a sending pastor, or a church planter--into the passion of God.

**Ask a Manager** CreateSpace

This book is a practical step-by-step guide for church planters and their coaches. It covers everything they need to know to start healthy, growing churches that are biblically faithful and yet culturally relevant. While addressing the who, why, and where of planting new congregations, this comprehensive manual focuses primarily on the "how-tos." The authors use a five-stage "life cycle" (conception, pre-natal development, birth/infancy, adolescent growth, and adult reproduction) to flesh out the entire process of starting and growing a new church. Under each of these stages, a host of essential ministry and planning tasks is addressed so the planter can keep his "baby" church on course and can have the joy of watching the new church grow to maturity and eventually reproduce itself.

This practical guide will help you change the way you view church and church planting. This manual is packed with information, biblical content, case studies and insights. But most of all it contains a challenge that anyone can be involved in advancing the Kingdom of God by starting a simple church in their home. The text flows as you'd expect from a normal book. But supporting it are a host of extra quotes from others involved in church life.

**GOD'S PLAN FOR CHURCH**

## PLANTING

TUMI Press

Most evangelical churches are active in soul-winning. Relatively few have ever dreamed of actually planting a new church as a viable method of soul-winning. Yet as we trace the evangelistic activities of the apostles in the Book of Acts, we see churches sprouting up wherever there was any significant success in evangelism. The complete manual, prepared originally as the author's doctoral thesis, cites the practical basis of church planting and describes the local church as both a ministry training center and church-planting center. It also includes a section on practical considerations in church planting, seven appendices packed with useful information, and a thorough bibliography.

The four gospels - Matthew, Mark, Luke, and John - present Jesus Christ, God Himself, breaking into human history....

The story of Jesus and the early church should not end. Jesus Christ laid the foundation for the church through His life, death, and resurrection as recorded in the four gospels.... The followers of Jesus Christ then continued His work by spreading the gospel through preaching and teaching and the planting of new churches.... To continue the work begun by Christ and His disciples, new church planting should be at the top of our list of priorities, as it was in theirs. From the Prologue

World Impact's vision is clear and bold: to recruit, empower, and release urban leaders who will plant churches and launch indigenous church planting movements. We have established The Evangel School of Urban Church Planting to equip church planters to plant healthy churches among the city's poor. Through assessment, coaching, and consultation, we facilitate church plant teams to use biblical wisdom as they engage unreached urban neighborhoods, with the goal of planting churches where Christ will be honored, the Word of God preached, and justice and compassion demonstrated for all to see. This guidebook is the official text for the Dean Training course to help churches and ministries sponsor their own church plant training. Designed as a manual for deans who help steer urban church planters, this workbook provides a blueprint for the whys and wherefores of the entire process, from formation of the team to transitioning leadership of the newly planted church. On completion of their course and Dean Commissioning, Deans are then certified to host their own Evangel School sessions within their ministry context. This text is keyed to other valuable resources specifically designed for the Evangel Church Plant Schools in order to help urban church planters plant churches in the city (i.e., Ripe for Harvest: A Guidebook for Planting Healthy Churches in the City and Planting Churches among the City's Poor, Vols. 1 and 2). In addition, online

videos, PowerPoint presentations, and other supplemental resources developed for Evangel Church Plant Schools are available to help a church, organization, or ministry train teams to plant churches among the poor. Join us as we strive to plant thousands of healthy churches in communities where Christ is not yet known!

This book tells the story of the revitalization of Guilford Baptist Church in northern Virginia. Weaving together scripture and biblical principles with humor and personal anecdotes, author Michael McKinley asserts that a pastor's faithful exposition of God's Word, passion for sharing the gospel, and care in the training of other godly leaders are more important than the size of his church. McKinley honestly shares his own fears and rookie mistakes, along with encouraging stories of how God moved at Guilford Baptist. We are reminded that God uses weak and fearful pastors in plants and revitalizations; church planting is indeed for "wimps." For pastors and seminarians considering a church plant and those already struggling in their own fledgling congregations, this book is a thoughtful and encouraging resource.

Churches Planting Manual Zondervan  
The JESUS Model is a unique guide to church planting based upon the ways and teachings of Jesus. It is written for those who want both a biblical foundation and practical help in starting new churches. The JESUS Model is also a

training manual for disciples at four levels: discipling, coaching, leading a ministry area and leading a church plant. The author's radical vision is for this sort of training to be a constantly self-replicating cycle in churches. Each member is discipling and being disciplined to be most effective, according to his or her gifts, in the church's task of multiplication by planting new churches. The goal of all training is 'doing' - disciples demonstrate that they have learnt by 'putting it into practice'. Dietrich shows that this kind of discipleship is the fruit of a real and intimate relationship with Jesus, and that a trusting, mutually accountable small group helps us to maintain that relationship. He also shares from his own life how he has practised the principles that he encourages others to follow. Dietrich Schindler holds a DMin from Fuller Seminary in the USA. Born and raised in the US by German immigrant parents, he subsequently returned to Germany, where he has since planted and pastored five new churches. Since 2008 he heads up the Church Planting department of the Evangelical Free Church of Germany. He has taught church planting at four seminaries in Germany, and has been invited to speak about church planting at conferences in Germany, Austria, Switzerland, France, Norway, Sweden and the Netherlands. This book first appeared in German in 2010 under the title *Das Jesus-Modell: Gemeinden gründen wie Jesus*. Dietrich is married to Jan Carla and they have three grown-up children.
