North Cascades National Park is remote, rugged, and spectacularly majestic. Efforts to establish a park gained traction after World War II, as national interest in wilderness preservation and concerns about the impact of harvesting timber grew. Troubled by the National Park Service's policy favoring development for tourism and the United States Forest Service's policy promoting logging in the national forests, conservationists leveraged a changing political environment and the evolving environmental values of the natural resource agencies. Their activism eventually led to the 1968 creation of a crown jewel--Washington's magnificent third national park. This engaging account tells the story.

*Jewel in the Crown: Bonnie Cone and the Founding of UNC Charlotte* chronicles the postwar development of the University of North Carolina at Charlotte from a temporary night school for returning veterans into a college, and eventually the fourth campus in the UNC system. With no public college or university within 90 miles of Charlotte, the need for greater opportunities for higher education in the region was clear--although the path forward to achieve that goal was not. Cone led the effort to engage the business community, government officials, and the general public to support the development of the institution, while convincing distinguished faculty from around the country to be part of this new endeavor. Drawing heavily from oral history interviews with Cone and many who knew her, the book highlights the personal qualities of persuasiveness, perseverance, and vision that gave her the ability to lead the effort culminating in this incredible achievement. Always an educator at heart, Cone never lost sight of the fundamental purpose in establishing the university: to provide opportunities for students and challenge them to achieve their goals. A foreword by UNC Charlotte alumnus Michael L. Wilson, who went on to lead the Board of Trustees, provides a first-hand account of Cone's inspiration and influence on students.

From USA Today bestseller Ella James After that close-up of his package on the sailboat in Morocco, TMZ started calling him Crown Jewels. Not that I keep track of Prince Liam. Definitely don't stalk him online like my friends do. I'm out of that scene now. My family's reality show might still be running, but I've been off-screen for a while. When people pass me on the sidewalk, they might squint, but most of them don't scream "Lucy Rhodes" and ask about my love of Lucky Charms or how my broken toe healed. Prince Liam-my stalking his Instagram-that's just for fun. It's my dirty little secret. Trust me, I'm the only woman in the world who doesn't actually want him. Except I'm back in the Hamptons for the first time in two years. I'm at a party, and Prince Manwhore is here as well. I tell myself that smile has no effect on me. That his ridiculous charisma is a parlor trick I see right through. After our one night together, no one knows that I succumbed. It doesn't matter. It meant nothing. Not until I see those two pink lines.

From telemarketers to traffic jams to twenty-item shoppers in the ten-item line, our lives are full of interruptions. They're often aggravating, sometimes infuriating, and can make us want to tell people what we really think about them. But they also tell us something quite important about ourselves.

The prophet Jonah's life was interrupted by a clear call of God that made him mad enough and scared enough to run in the completely opposite direction. Yet it wasn't really an interruption. It was an opportunity for Jonah to be involved in something the likes of which the Old Testament world had never seen: national revival in a Gentile country. What if Jonah had seen God's interruption for what it truly was—a divine intervention that held more adventure and possibility than any other thing he could have been doing at the time? What could have felt any better than being directly in the center of God's will? Yet we play it that same way—always running from major pains and minor problems that just don't seem to suit us at the time. Who knows what we're missing by being so interruption avoidant? In this very personal account of opportunities lost and lessons learned, popular conference speaker and author Priscilla Shirer shows how to embrace the amazing freedom and fulfillment that comes from going with God, even when He's going against your grain. .

It's perilous penning this blurb. It's fine when man is modest about his work. It even affords him the aura of an invisible crown! But what about his work? Were it an art or craft, it is there for all to see. What of a literary work of an unheralded author? Well, lauding the same might raise one's eyebrows. Failing to praise wouldn't make a 'jewel-less crown' either! Why not see, if this is the great Indian novel. This is the story of the rise and fall of an ambitious man, the decline, and the decay of his conniving wife, the trials, and tribulations of their wayward son as well as the grit and gall of a spirited woman, who enters into his life. This depiction of their life and times not only pictures the facets of ambition and achievement, intrigue and betrayal, compulsion and compromise, sleaze and scandal, trial and sentence, but also portrays the possibilities of repentance and resolution, love and empathy coupled with compassion and contribution, leading to the spirituality of materialism, and that makes it the saga of our times. The story of a lifetime, truly.
