Learn to take ownership of your success, overcome self-doubt, and banish the thought patterns that undermine

your ability to feel—and act—as bright and capable as others already know you are with this award-winning book by

Valerie Young. It's only because they like me. I was in the right place at the right time. I just work harder than the others. I don't deserve this. It's just a matter of time before I am found out. Someone must have made a terrible mistake. If you are a working woman, chances are this internal monologue sounds all too familiar. And you're not alone. From the high-achieving Ph.D. candidate convinced she's only been admitted to the program because of a clerical error to the senior executive who worries others will find out she's in way over her head, a shocking number of accomplished women in all career paths and at every level feel as though they are faking it—impostors in their own lives and careers. While the impostor syndrome is not unique to women, women are more apt to agonize over tiny mistakes, see even constructive criticism as evidence of their shortcomings, and chalk up their accomplishments to luck rather than skill. They often unconsciously overcompensate with crippling perfectionism, overpreparation, maintaining a lower profile, withholding their talents and opinions, or

never finishing important projects. When they do succeed, they think, Phew, I fooled 'em again. An internationally known speaker, Valerie Young has devoted her career to understanding women's most deeply held beliefs about themselves and their success. In her decades of in-the-trenches research, she has uncovered the often surprising reasons why so many accomplished women experience this crushing self-doubt. In *The Secret Thoughts of Successful Women*, Young gives these women the solution they have been seeking. Combining insightful analysis with effective advice and anecdotes, she explains what the impostor syndrome is, why fraud fears are more common in women, and how you can recognize the way it manifests in your life.

In the aftermath of a crisis that threatens the safety of all shadow children -- illegal third-borns in a society that allows only two children per family -- Trey's friends expect him to take charge -- a function he doesn't want or think he can do. Trey's new role leads him to travel with Luke Garner's brother, Mark, to Population Police headquarters. There he impersonates an officer to try to rescue Luke, who has been taken prisoner. The nonstop adventure puts all three boys in danger and risks exposing the underground movement to help all shadow children. In this, the fifth book in the

Among the Brave Anchor Do you wonder what God can do with your broken past? Have you ever sat in church and hoped against hope no one would find out who you once were? God does not care if we are the reason for or the recipient of our messes—he wants

us to understand the magnitude of receiving his grace and trust him to transform our pain into something glorious!

AMONG THE IMPOSTORS

Springer Nature
The fantastic lives and careers of Ferdinand Waldo Demara make a fantastic irony of the platitude that truth is stranger than fiction. For with Ferdinand Demara, truth is fiction. Demara wanted to be a hero, to lead an epic life dedicated to the benefit of others,

and to gain adulation for himself, and he did all those things by lying to others about who he was. During his storied career, Ferdinand Demara managed to "become" a Trappist monk; a doctor of psychology and Dean of the School of Philosophy at a small college in Pennsylvania; a law student, zoology graduate, cancer researcher and teacher at a junior college in Maine; a surgeon-lieutenant in the Royal Canadian Navy (as medical officer on the destroyed Cayuga, he successfully performed major surgery); a brilliant assistant warden of a Texas prison; and a teacher and beloved idol of the children on a Maine island village. In this forthright account of a remarkable fraud, Robert Crichton presents the man, his reasons, and his methods. A New York Times bestseller when it was originally published in 1959, and serving as the inspiration for the Tony Curtis film of the same name, this is the fascinating and disturbing story of America's Great Impostor.

AMONG THE BARONS

Learning Matters
This guide considers the historical contexts, the literary forms, the social and rhetorical backgrounds, the politics, the theologies, and the reception of 2 Corinthians. Each chapter surveys recent scholarly approaches to the text, focussing especially on critical perspectives that mesh with our contemporary concerns about gender, identity, race and class. 2 Corinthians becomes, in the process, less the work of a single 1st-century

writer than a set of fraught, even fractured negotiations between competing interests and impulses, conducted in Paul's voice. The last chapter brings the letter into conversation with Nathaniel Hawthorne's short story 'The Minister's Black Veil' in order to shift the terms of the critical discussion from what Paul meant to how Paul means in later cultural moments. Twomey introduces students to the way 2 Corinthians offers a fascinating but fragmentary glimpse into Paul's continuing ties with the Corinthian community. At the same time, Twomey shows how the letter is the site of many new critical challenges to traditional readings of Paul and early Christianity. In contrast to 1 Corinthians, this 2 Corinthians largely eschews the debates and discussions, the interests and concerns of Paul's correspondents. Instead we find Paul engaged in a multi-pronged defence of his ministry in and beyond Corinth. Over the course of thirteen chapters he runs the gamut of the emotions, rhetorically, from tears to joy to biting anger, while struggling to keep his relationship with (some say, his control

over) the community intact.

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries *Brené Brown: Atlas of the Heart!* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits

that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most

important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

"Joyce Roché rose from humble circumstances to earn an Ivy League MBA and eventually become the first African-American vice president of Avon. She was later president of a leading hair care company and CEO of the nationally prominent nonprofit Girls Inc. But she never felt she deserved her success. In fact, the phrase "the empress has no clothes" kept running through her head. She was nothing like the emperor in the Hans Christian Andersen story -- she was certainly not a fraud. And yet that's how she'd always felt. Roché discovered there was a name for this: the impostor syndrome. In this deeply personal memoir she shares her lifelong struggle with the imposter syndrome and offers advice and coping strategies based on her own experiences and

those of other high-achieving leaders who have suffered from it."-- Publisher website.

The Empress Has No Clothes Sarah Crichton Books

His journey has often taken unpredictable turns and the book offers practical guidance to becoming a successful physician scientist in academic medicine, or to become a successful clinician affiliated with an academic medical center.
