*Mogul, Enforcer, Spy* University of Toronto Press

"I would love to be the one who made peace with Israel and the Palestinians," said Donald J Trump, as he assumed the presidency of the United States of America on Friday, 20 January 2017. "That would be such a great achievement." Trump and the Holy Land: 2016-2020 is the history of that effort.

## COUNTDOWN TO ARMAGEDDON

SUNY Press

Jerusalem has for centuries been known as the spiritual center for the three largest monotheistic religions: Judaism, Christianity and Islam. Yet Jerusalem's other-worldly transcendence is far from the daily reality of Jerusalem, a city bombarded by conflict. The battle over who owns and controls Jerusalem is intensely disputed on a global basis. Few cities rival Jerusalem in how its divisions are expressed in the political sphere and in ordinary everyday life. Jerusalem: The Spatial Politics of a Divided Metropolis is about this constellation of competing on-the-ground interests: the endless set of claims, struggles, and debates over the land, neighborhoods, and communities that make up Jerusalem. Spatial politics explain the motivations and organizing around the battle for Jerusalem and illustrate how space is a weapon in the Jerusalem struggle. These are the windows to the world of the Israel-Palestine conflict. Based on ninety interviews, years of fieldwork, and numerous Jerusalem experiences, this book depicts the groups living in Jerusalem, their roles in the conflict, and their connections to Jerusalem's development. Written for students, scholars, and those seeking to demystify the Jerusalem labyrinth, this book shows how religion, ideology, nationalism, and power underlie patterns of urban development, inequality, and conflict.

*Emerging Issues and New Actors* Xlibris Corporation

The Historical Dictionary of Arab and Islamic Organizations focuses on international and regional organizations primarily in the Middle East and North Africa (MENA) region. With more than 300 cross-referenced entries, this volume includes both major and minor organizations. While the emphasis is on intergovernmental institutions, it also covers non-governmental organizations, key countries, movements, and prominent figures in the Arab and Islamic world. Like other dictionaries of this type, it includes an introductory essay, chronology of major events, and a select bibliography for further reading. It provides a solid starting point for students, researchers, and anyone wanting to know more about the subject.

*How the Struggle Over Islam Is Reshaping the World* Taylor & Francis

We are living in mysterious yet miraculous times. On the one hand, we have witnessed the most remarkable fulfillment of Biblical prophecy: the Jewish people's return to Israel and the prosperity and contributions of this tiny country in such a short time. On the other hand, we have seen an unexpected rise in anti-Semitism which takes the form of anti-Zionism and alliances between groups that are fighting against the most fundamental biblical values. The division in worldviews has become starker than ever. In this book, Josh Reinstein, who through his initiative of faith-based diplomacy is at the center of this tension, takes a unique approach to explaining what lies behind the recent wave of support for Israel and the counter force. He answers important questions to clarify what drives the political actions that we witness today and what path should be taken moving forward.

*In the Path of Abraham* Ballantine Books

A trio of prominent foreign policy experts present the first serious book-length appraisal of Barack Obama's foreign policy, arguing that Obama thus far has, above all, been a foreign policy pragmatist, tackling one issue at a time in a thoughtful way.

## BIBLICAL ESCHATOLOGY:

Stephanie M. Perry

A complete examination of the men and forces that created and shaped the modern state of Israel over the last hundred years Walls of Jerusalem is a study of the creation and evolution of the modern state of Israel. This unique work begins with the actions of four extraordinary men — Theodor Herzl, Chaim Weizmann, Ze'ev Jabotinsky, and David Ben-Gurion — and follows with their influence on subsequent leaders and on the political and military decisions that have shaped and changed Jerusalem and the nation. The resulting physical reality has made concrete the shift in vision from the broad utopian ideals of the beginning, to the separation barrier and settlement enclaves that increasingly divide both Jewish and Palestinian cultures. The author traveled across the West Bank, into the Israeli settlements and along the Israeli security barrier dividing Israel from Palestine. He entered the tombs, mosques and synagogues, experienced the distortion of Jerusalem since the building of the separation barrier - the watchtowers, the welded gates, the shuttered shops, divided highways and back-ways, tunnels, bridges, checkpoints, to better understand evolving reality that defines the stage for the future relationship between Israel and Palestine. Walls of Jerusalem is a timely book, its vivid narrative journeys through a century and a half of dreams and conflicts that lead to a divided Jerusalem: It presents each stage of Israel's evolution, from the 1896 publication of Herzl's Der Judenstaat and the Balfour Declaration, to the opening of the United States embassy in Jerusalem in 2018 Relates the visions of Israel's creators to the destructive and constructive forces utilized to create a new nation Reviews the century long attempts by international organizations to resolve the conflict between Jews and Palestinians Makes every effort to present a balanced exploration of challenges facing the state of Israel and its place on the world stage, but in conclusion gives emphasis to the plight of the Palestinians Integrates illustrations with text to provide a detailed portrait of central figures in modern Israel's history

**The Spatial Politics of a Divided Metropolis** Penguin

Since the 1993 Oslo Accords, the Occupied Palestinian Territory has been the subject of extensive international peacebuilding and statebuilding efforts coordinated by Western donor states and international finance institutions. Despite their failure to yield peace or Palestinian statehood, the role of these organisations in the Israeli-Palestinian conflict is generally overlooked owing to their depiction as tertiary actors engaged in technical missions. In Palestine Ltd., Toufic Haddad explores how neoliberal frameworks have shaped and informed the common understandings of international, Israeli and Palestinian interactions throughout the Oslo peace process. Drawing upon more than 20 years of policy literature, field-based interviews and recently declassified or leaked documents, he details how these frameworks have led to struggles over influencing Palestinian political and economic behaviour, and attempts to mould the class character of Palestinian society and its leadership. A dystopian vision of Palestine emerges as the by-product of this complex asymmetrical interaction, where nationalism, neo-colonialism and 'disaster capitalism' both intersect and diverge. This book is essential for students and scholars interested in Middle East Studies, Arab-Israeli politics and international development.

*Titus, Trump and the Triumph of Israel* Cengage Learning

This edited volume investigates America's transforming democracy as it faces the challenges and developments of the 21st century—challenges and developments that have brought deep dissatisfaction, cultural fragmentation, and economic indignation. Although political power remains in the hands of the people, a fundamental incapability to compromise has locked policymakers in a permanent stalemate. In this legislative paralysis, grassroots movements build more and more momentum amidst regular protests and civil disobedience. This new political vigor and dynamism is dualistic, portending either a future of falsehoods and authoritarianism or a more empowering and direct form of democracy. This book ultimately seeks to understand how the US government is frantically adjusting to these sharp cultural, technological, and economic changes.

*So You Know WTF Is Going on in the World Today* Springer Nature

The Book of Revelation contains the exact events that will take place in the last days leading up to the Second Coming of Jesus Christ and beyond. Yet many people struggle to understand its chronology, failing to put together all of the scriptures concerning the last days. Fortunately, this book thoroughly explains not only Revelation's timeline, but the symbols that encrypt this amazing book. You will discover the truth about the Great Tribulation, find out who Mystery Babylon truly is, and what God's purpose is for all these things that will come to pass.

### ROCK THE CASBAH

Brookings Institution Press

An insider's perspective on how the Abraham Accords were concluded and why they offer a way forward to a new era of peace and prosperity in the Middle East—if only they are not abandoned by the Biden Administration. This book charts the remarkable journey of Jason D. Greenblatt, who spent nearly two decades in various senior positions at the Trump Organization—including as an Executive Vice President and Chief Legal Officer—and his subsequent appointment by President Trump as an Assistant to the President and Special Representative for International Negotiations. Jason was also assigned the position of White House Special Envoy to the Middle East, playing a key role in the Peace to Prosperity Plan, which aimed to resolve the discord between Israel and the Palestinians, and Israel and its Arab neighbors. Thanks to these efforts, including Jason's role in establishing the groundwork for the Abraham Accords, many Middle Eastern countries now have improved relationships with Israel, such as the United Arab Emirates, the Kingdom of Bahrain, Sudan, and the Kingdom of Morocco. In the Path of Abraham is a call to action -- an urgent plea to the Biden administration not to abandon the progress the Trump administration began, but to embrace and expand on it. The stakes could not be higher—and time is not on our side.

A young Muslim leader's memoir of his struggles to forge an American Muslim identity Haroon Moghul was thrust into the spotlight after 9/11, becoming an undergraduate leader at New York University's Islamic Center forced into appearances everywhere: on TV, before interfaith audiences, in print. Moghul was becoming a prominent voice for American Muslims even as he struggled with his relationship to Islam. In high school he was barely a believer and entirely convinced he was going to hell. He sometimes drank. He didn't pray regularly. All he wanted was a girlfriend. But as he discovered, it wasn't so easy to leave religion behind. To be true to himself, he needed to forge a unique American Muslim identity that reflected his beliefs and personality. How to Be a Muslim reveals a young man coping with the crushing pressure of a world that fears Muslims, struggling with his faith and searching for intellectual forebears, and suffering the onset of bipolar disorder. This is the story of the second-generation immigrant, of what it's like to lose yourself between cultures and how to pick up the pieces.

**Foundational and Contemporary Debates** John Wiley & Sons

In Islamic Exceptionalism, Brookings Institution scholar and acclaimed author Shadi Hamid offers a novel and provocative argument on how Islam is, in fact, "exceptional" in how it relates to politics, with profound implications for how we understand the future of the Middle East. Divides among citizens aren't just about power but are products of fundamental disagreements over the very nature and purpose of the modern nation state—and the vexing problem of religion's role in public life. Hamid argues for a new understanding of how Islam and Islamism shape politics by examining different models of reckoning with the problem of religion and state, including the terrifying—and alarmingly successful—example of ISIS. With unprecedented access to Islamist activists and leaders across the region, Hamid offers a panoramic and ambitious interpretation of the region's descent into violence. Islamic Exceptionalism is a vital contribution to our understanding of Islam's past and present, and its outsized role in modern politics. We don't have to like it, but we have to understand it—because Islam, as a religion and as an idea, will continue to be a force that shapes not just the region, but the West as well in the decades to come.

*America and the Palestinians, from Balfour to Trump* Springer Nature

Beginning with the destruction of Jerusalem and continuing through the persecutions of Christians in the Roman Empire, the apostasy of the Dark Ages, the shining light of the Reformation, and the worldwide religious awakening of the nineteenth century, this volume traces the conflict into the future, to the Second Coming of Jesus and the glories of the earth made new. In this concluding volume, the author powerfully points out the principles involved in the impending conflict and how each person can stand firmly for God and His truth.

**Barack Obama's Foreign Policy** Simon and Schuster

A critical examination of the history of US-Palestinian relations The United States has invested billions of dollars and countless diplomatic hours in the pursuit of Israeli-Palestinian peace and a two-state solution. Yet American attempts to broker an end to the conflict have repeatedly come up short. At the center of these failures lay two critical factors: Israeli power and Palestinian politics. While both Israelis and Palestinians undoubtedly share much of the blame, one also cannot escape the role of the United States, as the sole mediator in the process, in these repeated failures. American peacemaking efforts ultimately ran aground as a result of Washington's unwillingness to confront Israel's ever-deepening occupation or to come to grips with the realities of internal Palestinian politics. In particular, the book looks at the interplay between the U.S.-led peace process and internal Palestinian politics—namely, how a badly flawed peace process helped to weaken Palestinian leaders and institutions and how an increasingly dysfunctional Palestinian leadership, in turn, hindered prospects for a diplomatic resolution. Thus, while the peace process was not necessarily doomed to fail, Washington's management of the process, with its built-in blind spot to Israeli power and Palestinian politics, made failure far more likely than a negotiated breakthrough. Shaped by the pressures of American domestic politics and the special relationship with Israel, Washington's distinctive "blind spot" to Israeli power and Palestinian politics has deep historical roots, dating back to the 1917 Balfour Declaration and the British Mandate. The size of the blind spot has varied over the years and from one administration to another, but it is always present.

Friedrich Pustet

Explores the beliefs, attitudes, and values of ordinary Palestinians and Israeli Jews asking the question: Is it possible to reach a negotiated resolution to the Jerusalem question?

### HOW BREAKING WITH THE PAST BROUGHT PEACE TO THE MIDDLE EAST

Wolters Kluwer Law & Business

This book critically assesses a series of complex and topical debates helping readers to make sense of the politics surrounding the Israeli-Palestinian relationship. Each chapter considers one topic, represented by two or three essays offered in conversation with one another. Together, these

essays advance different perspectives; in some cases they are complementary and in others they are oppositional. Topics include scholarly and activist interpretations of narratives in the context of Israel/Palestine; the concept of self-determination for Jewish Israelis and Palestinians; the debate over settler-colonialism as an appropriate framework for interpreting the history of Israel/Palestine; and questions surrounding Jewish and Palestinian refugees and the impact of displacement, among others. Through these foundational and contemporary topics, readers will be challenged to critically examine the strengths and weaknesses of each position in light of scholarly debates rooted in social justice and helped to gain a deeper understanding of the relationship between Israelis and Palestinians in order to see a path forward toward justice for all.

*The New Eastern Mediterranean Transformed* SET Vakfi İktisadi İşletmesi

This thrilling page-turner describes the lives of the most controversial men of our era and how they impacted each other. We now realize that the greatest threat to our country can come from within as well as those not in our own country. Can an administration ignore laws and attack democratic institutions without damaging democracy? These shocking revelations are not without some humor to brighten what are otherwise dark and scary truths.

*Trump: The Art of the Deal* Jerusalem Rising Countdown to Armageddon IN DECEMBER 2017, United States President DONALD TRUMP officially recognized Jerusalem as the capital of Israel paving the way for a campaign promise to move the US embassy in Tel Aviv to Jerusalem. The announcement sparked immediate violent protests from the Palestinians, and drew condemnation from the Vatican, Russia and the Islamic nations who all reject Jewish sovereignty over Jerusalem. THE UNITED NATION'S SECURITY COUNCIL then quickly convened to set forth a resolution condemning Trump's proclamation which was supported by the majority of its 193-member nations. Prior to the vote, United States UN Ambassador NIKKI HALEY had addressed the UN General Assembly warning that the US was taking names of those who are against them and will not forget. According to Zechariah 12:9 which states: "I will seek to destroy all the nations that come against Jerusalem" GOD is taking names too of all those who are against Israel. WHY ALL THE FUSS OVER JERUSALEM? Find out as author DAVID HEAD takes the reader on a concise journey of Jerusalem's history to show how we've come to its present-day circumstances, followed by an in-depth look at how the ancient prophecies have Jerusalem at the epicenter of a world headed on a climactic collision course with its Creator. IN ADDITION, you'll be enlightened to such things as: (1) What role will the USA play in the end-times? (2) Will the ANTICHRIST be a Muslim, a Jew, or a European, and what will be his military power base? (3) When and why will the one, real BLOOD MOON of end-times prophecy occur that will be seen worldwide? (4) Who will be the FALSE PROPHET of Revelation? (5) When will the MARK OF THE BEAST be enforced? (6) Where is SATAN'S SEAT today? You may be shocked to find out! (7) What's behind all the corruption and child sex abuse in the ROMAN CATHOLIC CHURCH? (8) What are the events that must occur before the Jews build the THIRD TEMPLE? (9) When will the ISLAMIC ARMIES led by Russia, Iran and Turkey stage the Ezekiel 38 attack on Israel? (10) What will Jerusalem and the world be like POST ARMAGEDDON? Get a fresh revelation of these topics and more as David, using the Scripture interpreting Scripture method of 2 Timothy 2:15 from OVER 30 YEARS OF RESEARCH, gives the reader one of the most accurate evangelical interpretations of Bible prophecy in print to-date. *Neoliberalism and Nationalism in the Occupied Territory* GENERAL PRESS

Not since Pearl Harbor has an American president gone to Congress to request a declaration of war. Nevertheless, since then, one president after another, from Truman to Obama, has ordered American troops into wars all over the world. From Korea to Vietnam, Panama to Grenada, Lebanon to Bosnia, Afghanistan to Iraq—why have presidents sidestepped declarations of war? Marvin Kalb, former chief diplomatic correspondent for CBS and NBC News, explores this key question in his thirteenth book about the presidency and U.S. foreign policy. Instead of a declaration of war, presidents have justified their war-making powers by citing "commitments," private and public, made by former presidents. Many of these commitments have been honored, but some betrayed. Surprisingly, given the tight U.S.-Israeli relationship, Israeli leaders feel that at times they have been betrayed by American presidents. Is it time for a negotiated defense treaty between the United States and Israel as a way of substituting for a string of secret presidential commitments? From Israel to Vietnam, presidential commitments have proven to be tricky and dangerous. For example, one president after another committed the United States to the defense of South Vietnam, often without explanation. Over the years, these commitments mushroomed into national policy, leading to a war costing 58,000 American lives. Few in Congress or the media chose to question the war's provenance or legitimacy, until it was too late. No president saw the need for a declaration of war, considering one to be old-fashioned. The word of a president can morph into a national commitment. It can become the functional equivalent of a declaration of war. Therefore, whenever a president "commits" the United States to a policy or course of action with, or increasingly without, congressional approval, watch out—the White House may be setting the nation on a road toward war. The Road to War was a 2013 Foreword Reviews honorable mention in the subject of War & Military.
