Spon's Civil Engineering and Highway Works Price Book 2009 is more than just a price book. It provides a comprehensive work manual that many in the civil engineering, surveying and construction business will find it hard to work without. It gives costs for both general and civil engineering works and highway

works, and shows a full breakdown of lab  
*Report* American Water Works Association

Provides practical information about the design and installation of ductile iron pressure piping systems for water utilities. The 12 chapters outlines the procedure for calculating pipe wall thickness and class, and describes the types of joints, fittings, valves, linings, and corrosion protection a

**Certain Cast-iron Pipe Fittings from Brazil** CRC Press

“This construction sourcebook from Sidney M. Levy covers both commercial and residential construction, this source gives designers, managers, and hands-on construction pros leverage to bring every project in on time and under budget.”--  
**BOOK JACKET.** Construction Site Work, Site Utilities, and Substructures Databook brings managers, designers, and hands-on construction pros exactly what's needed to pull a project together." Levy brings you the information you need to locate specs and data for all kinds of underground construction equipment and systems - without poring through manuals, rooting for data, or, later, tearing out your hair over bad decisions.

DIANE Publishing

This standard covers 4-in. through 12-in. (100-mm through 300-mm) polyvinyl chloride (PVC) pressure pipes and fabricated fittings with cast-iron-pipe-equivalent (CI) outside diameter (OD) dimensions and with wall-thickness-dimension ratios (DRs) 14, 18, and 25. The purpose of this standard is to provide direction and guidance for manufacturing, testing, selecting, and purchasing PVC pressure pipe and fabricated fittings for underground water distribution systems.

Certain Cast-iron Pipe Fittings from Brazil, the Republic of Korea, and Taiwan American Water Works Association

AWWA's most popular handbook for distribution operators, this handbook provides a complete introduction to water distribution system operation and equipment.

Machinery American Water Works Association

More than just a price book, SPON's Civil Engineering and Highway Works Price Book 2003 is a comprehensive, work manual that all those in the civil engineering, surveying and construction business will find it hard to work without. It gives costs for both

general and civil engineering works and highway works, and shows a full breakdown of labour, plant and material elements. Thoroughly comprehensive and structured to comply with CESMM3, the book includes prices and rates covering everything from beany blocks to well-pointing, from radio masts to coastal defence. In a time when it is essential to gain 'competitive advantage' over the competition in an increasingly congested market, this book provides instant-access cost information and is a one-stop reference containing tables, formulae, technical information and professional advice. The Civil Engineering and Highway Works Price Book for 2003 comes with a 'free' CDROM that enables the reader to view the entire book on screen, cut and paste prices into other tender documents, export to other major packages, perform simple calculations, index search, produce estimate and tender documents, adjust rates and data. This complete package now means that Spon's is now better than ever and is a resource that civil engineers, surveyors and the construction industry cannot do without. New Features for 2003 A review of the Aggregate Tax and an examination of tax free alternative materials and a detailed examination of crushing plant costs An expansion of the Land Remediation section to include three whole site case studies Expansion of the Dayworks section A revision and expansion of both the Outputs and the Tables and Memoranda sections with more useful data Introduction of definition of measurement notes in the Civil Engineering Works and Highway Works unit cost sections Introduction of cladding within the Civil Engineering Works and Highway Works unit cost sections
