From a pre-eminent biographer in the field, this volume examines the life and times of the emperor Vespasian and challenges the validity of his perennial good reputation and universally acknowledged achievements. Levick examines how this plebeian and uncharismatic Emperor restored peace and confidence to Rome and ensured a smooth succession, how he coped with the military, political and economic problems of his reign, and his evaluation of the solutions to these problems, before she finally examines his posthumous reputation. Now updated to take account of the past 15 years of scholarship, and with a new chapter on literature under the Flavians, Vespasian is a fascinating study for students of Roman history and the general classical enthusiast alike.

Singapore has been taken by many researchers as a fascinating living language policy and planning laboratory. Language and education policy in Singapore has been pivotal not only to the establishment and growth of schooling, but to the very project of nation building. Since their inception, 'mother tongue' policies have been established with two explicit goals.

This book is the most comprehensive empirical study to date of the social and technical aspects of milling during the ancient and medieval periods. Drawing on the latest archaeological evidence and historical studies, the book examines the chronological development and technical details of handmills, beast mills, watermills and windmills from the first millennium BCE to c. 1500. It discusses the many and varied uses to which mills were turned in the civilisations of Rome, China, Islam and Europe, and the many types of mill that existed. The book also includes comparative regional studies of the social

and economic significance of milling, and tackles several important historiographical issues, such as whether technological stagnation was a characteristic of late Antiquity, whether there was an industrial revolution" in the European Middle Ages based on waterpower, and how contemporary studies in the social shaping of technology can shed light on the study of pre-modern technology."

A juicy true story about sex, drugs, money, power, high heels, and overcoming adversity. Tamara Mellon used her business savvy, creative eye, and flair for design to build Jimmy Choo into a premier name in global fashion. But despite her eventual fame and fortune, Mellon didn't have an easy road to success. Her seemingly glamorous beginnings were marked by a tumultuous family life, battles with anxiety and depression, and a stint in

rehab. Now Mellon shares the whole larger-than-life story—from her time as a young editor at Vogue to her partnership with cobbler Jimmy Choo to her very public relationships. In creating the shoes that became a fixture on Sex and the City and red carpets around the world, Mellon relied on her own impeccable sense of what her customers wanted. What she didn't know at the time was that success would come at a high price: struggles with an obstinate business partner, a conniving first CEO, a turbulent marriage, and a mother who tried to steal her hard-earned wealth.

Asian Traditions and Modernization studies various aspects of change in Singapore and explores the ways in which tradition has shaped and moderated the process of modernization. Employing a multi-faceted approach that covers history, religion, science, ethnic relations and language, the book looks in depth at a country which has witnessed rapid modernization and yet at the same time desires to preserve cultural values. Because tradition and modernization are relative and open-ended concepts, traditional values can be modern in their orientation and conversely, modern societies can be traditional in their practices. The focal concern of the book is how these terms can be best and fully understood. This reissue features a new preface by the author.

Muslim Women and the Challenge of Islamic Extremism Humanities Press International

In Jakarta's gleaming center a man and a

woman watch each other from adjoining skyscrapers. The man, a journalist, has on his desk reports he doesn't dare publish of a massacre in East Timor. He contemplates the demands of truth and confronts the split in his world between a sophisticated urban life where the women waft by in signature perfumes, and the primitive oppression of Indonesia's army state in East Timor. Only jazz mediates. A music of raw emotion and powerful refinement, urbane yet born in the growl and moan of generations of slaves, jazz is not literal, but absolutely true. So too this novel, which defied Indonesia's regime of censorship and made available, in its pages, the heavily censored reality that journalists dared not report. In "Jazz, Perfume and the Incident," Seno Gumira Ajidarma combines the surreal and the actual in a way that forever changed Indonesian literature and political discourse.

### **CINTA UNTUK DISEWA**

Penguin

The main main purpose of the book was to counter the rather simplistic view of the discipline of *usul al-fiqh* that it represents a single uniform theory, called the classical theory. The view presented in this book was that there is no uniform single legal theory in Islam. The view of a uniform theory was held not only by the Orientalists, but many Muslim scholars as well. The view did not do justice to Islamic jurisprudence for it overlooked the rich diversity found in the Islamic legal system.

Instead of one, the book shows, there are at least three legal theories, each of which has been explained by the author in some detail and with remarkable lucidity. Each of these theories has played a useful role in the past and each can play even today a vital role in the development of Islamic law. Another purpose was to explain the paradox of the so-called rigidity of Islamic law at the theoretical level accompanied with a perceptible degree of laxity in practice. The author forcefully argued that the Islamic Legal system comprises two cooperating spheres. The first sphere is relatively fixed since it is focused on given texts. This sphere falls within the domain of the jurists. The other sphere, which draws upon the general principles of Islamic law, regulates the law made by the state. These are separate but complementary spheres. Neither is the relative fixity of the first sphere a manifestation of the Muslim jurists' mental rigidity. Nor is the flexibility of the second sphere the manifestation of any cynical disregard of the revealed texts on the part of the rulers. The book has been influential in many other ways, and has given rise to research in several new directions. First

published in 1994, it is still used by teachers, researchers, university students and general readers.

**Rope of Ash** Wind, Water, Work

The right mindset can make you three times more likely to get the job you want- and even less likely to lose it later. What does it take to get and keep the job you want? Ninety-six percent of employers argue that it's not just about having the right skills for the position- it's all about the right mindset. As two leading experts on the subject, Reed and Stoltz know what employers really want from the people they hire and keep. According to their extensive and globally acclaimed research, there is a specific set of mental traits that will make you exponentially more desirable to potential employers, and more likely to succeed and enjoy your job once you're hired. This "3G Mindset" is: ? Global-the openness and big-picture perspective to compete on a global scale in any job ? Good-a positive force with an unwavering moral compass ? Grit-the tenacity and resilience to thrive on adversity The authors reveal why employers are three times more likely to hire people with the right mindset over

those who are more qualified on paper. This book provides an actionable approach essential traits.
