A Fox News political analyst tackles some of our communities' toughest challenges with

timely insight from his own life: the story of how conservative values helped a kid from the South Side of Chicago find a life of opportunity. "A must-read."--Brian Kilmeade, bestselling author of *Sam Houston and the Alamo Avengers* Born to a mother consumed by drugs and raised by his grandmother in poverty on the South Side of Chicago, Gianni Caldwell saw firsthand how lawmakers from both parties have failed African American voters on issues like poverty, welfare, and

education. But as someone who beat the odds growing up under a fear-based mentality that limits what people can achieve, Caldwell believes there's another way. In this groundbreaking book, the Fox News analyst describes his personal journey while detailing a hopeful vision for a nation no longer beholden to identity politics and self-limitations. Trapped within the expectations and traditions of our communities, families, political parties, faith, race, and gender, we fail

to challenge our politicians and ourselves to create real change. Now more than ever, we need to confront preconceived notions about the Democrats and Republicans, public policy, and American history. Looking at the obstacles facing urban communities, such as crime, education, and social mobility, Caldwell digs beneath the statistics. By spotlighting the moments that enabled his rise to success, he proffers steps that can help more people

overcome the odds--
 whether through policy
 reform or the heroic
 efforts of men and women
 who are already working
 to make a difference in
 their own communities.

While it is often said that a person with a negative attitude cannot be helped, it is also true that a person with a positive attitude cannot be stopped. Life is an obstacle course in which we can often become our own biggest obstacle, but a positive attitude can be transformational. In one sense, this book is a road

map for a life journey in achieving more. It offers direction and can help you make positive decisions in a noisy and cluttered environment. Success is neither a miracle nor a mystery. It is the natural outcome of consistently applying certain principles on an ongoing basis. Success does not depend upon special skills, formal education or superior intelligence. Success is a matter of understanding and acting upon principles that have been in existence for centuries. These principles may be

simple in themselves but none of them will work unless they are put into firm and decisive action. This book effectively teaches not only the principles of success but also how to avoid expensive and demoralising mistakes. The principles themselves are universal, cutting across country, culture and religion. Diligently practising them will help you develop confidence and allow your life to become more meaningful and rewarding. Applying these principles may

require a lot of self-discipline and commitment but, once learned and applied, the results can be rewarding and gratifying. If you want to be successful and happy, then become a student and study the life of successful people in depth; if you want to become wealthy, then study the principles of acquiring wealth. Learning to make a living and learning to live are two different things. This book helps you design a more meaningful life, by making positive choices

and avoiding the most common pitfalls. Acquiring facts is knowledge; interpreting facts is understanding; and the proper application of facts is wisdom. This book by Shiv Khera is designed to help you create an action plan to optimize your potential - in other words, to achieve more.

An absorbing, insightful

story from Robin Sharma, bestselling author and internationally-renowned life coach, which unfolds the secrets to living a loving, successful and fulfilled life.
HarperCollins Canada Gopal Bhand, the barber, was the chief jester at the Rajbari (Royal Court) of Raja Krishnachandra Rai, the famous Emperor of Krishnanagar (Nadia), West Bengal during the 18th century. Gopal was a genius and is included in the genre of Birbal and Tenali Raman. Countless stories of his exploits

where he outwits other fellow courtiers and men are narrated in Bengal and Bangladesh even to this day. Gopal as a court jester was able to influence the King in many matters. He always had wit at his disposal, whether in the form of puns, riddles, doggerel verse, antics or babble which he used to soften the blow of a critical comment or edgy moment in a way that prevented a dignified personage from losing face. His ability to make people laugh coupled with

his riotous imagination with the tinge of sympathy and pathos did have a stunning effect to defuse tense situations. A hilarious bouquet of Gopal's timeless anecdotes are presented in this book which really are eye openers - imparting new thoughts, new dreams, new solutions, new ideas, new wordplay, newer takes on humour, parodies, satire and a window to a whole new world of imagination and basic wisdom. The reader might ask himself, 'What makes the book a

compelling read?' Sure, the answer is . . . the stories of the book are short with a heady mix of wit, comedy, funny description and wonderful characterizations dusted with Gopal's inimitable sprinklings of humor which provoke one to think beyond the seemingly simple things. The book offers tales of wise men and their battles of wit during the medieval royal Bengal; stories of knotty problems with ingenious solutions and mind fertilizing anecdotes which not only

inform, advise, enthuse, inspire and amuse but impart specific and terse wise lessons appropriate to the issues at point to 'Manage the Problems' neatly. In one story, Gopal was walking down the road with the Zamindaar (landlord). The arrogant Zamindaar said, "e;I am the Ruler of this great big earth. Everybody should fear me."e; Gopal immediately questioned, "e;Who told you that Sire?"e; "e;God himself told me!"e; said the Zamindaar confidently.

"e;But I never told you that!"e; replied Gopal leaving the Zamindaar tightlipped. The author has taken great care to narrate the anecdotes in the most descriptive manner focusing on wise lessons at the end of each account laced with equally fascinating illustrations. The presentation of the book is unique as it can be read from any chapter, but still it will stimulate the reader - like a peeled banana, which can be eaten from any side, thus enjoying its

sweetness. It's a fascinating assortment of entertaining anecdotal short stories guaranteed to leave the reader in stitches. It tends to work like an aspirin. Only it will work twice as fast. So you can't afford to be without this.

 Could we find happiness and attain mental peace without relinquishing our material goals? What if we could understand why we behave and act the way we do? How does our brain really trick us into many of the decisions we make every day? What if we could actually train our brain and improve our ability to lead a more meaningful life-not only for ourselves but also for society? In this brilliantly engaging read, Ashok Panagariya blends his life experiences with modern

science and Indic philosophy to tackle these questions and shares tools that anyone can acquire to become a better 'brain-manager'. He delves deeply into the human mind, showing what makes the brain unique and the remarkable intrinsic capacity it holds to influence our lives. He does all this while making us acutely aware of the role luck and chance play in how we eventually shape up. Monk in a Merc is an insightful read for anyone looking to achieve

eternal happiness and peace while still enjoying all that life offers-material wealth and professional success. It turns the table on the conventional understanding of monkhood, which seeks renunciation of material pursuits in search of a spiritual quest.

When we see the word blueprint we usually think of a technical drawing or other image rendered as white lines on a blue background produced by an architect. A blueprint is a detailed plan of action and everyone should develop a blueprint in order to plan for success in life. The men and women in this book have, in interesting and innovative ways,

developed their own blueprints that paved the way for their success. As I interviewed these people, I found that there are as many ways to plan for success as there are people who create those plans. I was fascinated as I learned from these highly successful people what they did to succeed in their various professions. A successful businesswoman once told me that when she was involuntarily separated from her last corporate job she took the opportunity to sit back

and take a deep breath, discover what she really wanted to do, and to explore her passion. She said she didn't write anything down but from just taking some time out to think and explore, she came up with her path to success. At times, successful people have to push through hard times and setbacks. I am always intrigued by the various methods they use to overcome difficulties. Some of them have gone on to teach others what they learned as they went back to the drawing board

and created a new blueprint that led them to success. I believe you will find that your time will be well spent in reading this book. I think you will find that these people have something to say that is worth listening to. I know that I did.
