The gifted W.B. Yeats wrote of his own people "...even a newspaperman, if you entice him into a cemetery at midnight, will believe in phantoms, for everyone is a visionary if you scratch him deep enough. But the Celt, unlike any other, is a visionary without scratching." This introduction to Celtic Mythology will serve the novice well - for it is a complicated history with the earliest written records destroyed by the marauding Vikings. Inside you will read about... ✓ The Arrival of the Tuatha dé Danann ✓ Hibernia ✓ The Main Gods of the Celtic Pantheon ✓ Celtic Life and Rituals ✓ Sources of Celtic Mythology ✓ The Effect of Christianity and Beliefs and Superstitions The oral tradition harks back to 4000BCE and is a compilation of myths and cultures of many different peoples including the Indo-Iranians, Slavs, Greeks, Germans, Austrians and finally, the Gauls, who washed up on the shores of the Emerald Isle. Whatever aspect of this rich, mystical and lavishly embellished heritage you would like to investigate further you will find the author has supplied a marker to guide you on your way.

Around the World in 60 Seconds National Geographic Books
NEW YORK TIMES BESTSELLER • The bestselling author of Morning Star returns to the Red Rising universe with the thrilling sequel to Iron Gold. "Brown's plots are like a depth charge of

nitromethane dropped in a bucket of gasoline. His pacing is 100% him standing over it all with a lit match and a smile, waiting for us to dare him to drop it."—NPR (Best Books of the Year) He broke the chains. Then he broke the world.... A decade ago Darrow led a revolution, and laid the foundations for a new world. Now he's an outlaw. Cast out of the very Republic he founded, with half his fleet destroyed, he wages a rogue war on Mercury. Outnumbered and outgunned, is he still the hero who broke the chains? Or will he become the very evil he fought to destroy? In his darkening shadow, a new hero rises. Lysander au Lune, the displaced heir to the old empire, has returned to bridge the divide between the Golds of the Rim and Core. If united, their combined might may prove fatal to the fledgling Republic. On Luna, the embattled Sovereign of the Republic, Virginia au Augustus, fights to preserve her precious democracy and her exiled husband. But one may cost her the other, and her son is not yet returned. Abducted by enemy agents, Pax au Augustus must trust in a Gray thief, Ephraim, for his salvation. Far across the void, Lyria, a Red refugee accused of treason, makes a desperate bid for freedom with the help of two unlikely new allies. Fear dims the hopes of the Rising, and as power is seized, lost, and reclaimed, the worlds spin on and on toward a new Dark Age. Don't miss any of Pierce Brown's Red Rising Saga: RED RISING • GOLDEN SON • MORNING STAR • IRON GOLD • DARK AGE

Harl tells the story of the complex relationships between imperial Rome and the native peoples they conquered as they intermarried, exchanged ideas and mores, and, in the ensuing provincial Roman cultures, formed the basis of Western European civilization.

Europe is dotted with tens of thousands of prehistoric barrows. In spite of their ubiquity, little is known on the role they had in pre- and protohistoric landscapes. In 2010, an international group of archaeologists came together at the conference of the European Association of Archaeologists in The Hague to discuss and review current research on this topic. This book presents the proceedings of that session. The focus is on the prehistory of Scandinavia and the Low Countries, but also includes an excursion to huge prehistoric mounds in the southeast of North America. One contribution presents new evidence on how the immediate environment of Neolithic Funnel Beaker (TRB) culture megaliths was ordered, another one discusses the role of remarkable single and double post alignments around Bronze and Iron Age burial mounds. Zooming out, several chapters deal with the place of barrows in the broader landscape. The significance of humanly-managed heath in relation to barrow groups is discussed, and one contribution emphasizes how barrow orderings not only reflect spatial organization, but are also important as conceptual anchors structuring prehistoric perception. Other authors, dealing with Early Neolithic persistent places and with Late Bronze Age/Early Iron Age urnfields, argue that we should also look beyond monumentality in order to understand long-term use of ritual landscapes. The book contains an important contribution by the well-known Swedish archaeologist Tore Artelius on how Bronze Age barrows were structurally re-used by pre-Christian Vikings. This is his last article, written briefly before his death. This book is dedicated to his memory. This publication is part of the Ancestral Mounds Research Project of the University of Leiden.

Rome and the Barbarians Sidestone Press

As explorers and traders, the Vikings played a decisive role in the formation of Latin Christendom, and particularly of Western Europe. In this course the Vikings will be studied not only as warriors, but also in other roles for which they are equally extraordinary: merchants, artists, kings, raiders, seafarers, shipbuilders, and creators of a remarkable literature of myths and sagas.
