Please join us as we walk through the life experiences of just one of the many individuals who

desire to express their gratitude to the Lord and Savior, Jesus Christ. Finding grace and mercy; forgiveness and healing, LuAnn Caperton uses her own shortcomings, downfalls, and realizations to show you the many examples of how this God of the universe relates, sees, and cares for even the smallest of us. At age fifty, LuAnn has chosen to share this Jubilee in celebration and thanks for God's gift of His Son, Jesus Christ, and the redemption He brings to each of us. In this stack of letter-filled pages, you'll find fifty wondrous stories of how the Lord has ministered to her while walking through everyday life. "Many, O LORD my God, are thy wonderful works which thou hast done, And thy thoughts which are to us-ward" (Psalm 40:5a). LuAnn's hopes are that somewhere in these simple yet heartfelt words to follow, your hope in Christ will either be found for the first time or strengthened in some way by what you read.

Greeks wrote mostly on papyrus, but the Romans wrote solemn religious, public and legal documents on wooden tablets often coated with wax. This book investigates the historical significance of this resonant form of writing; its power to order the human realm and cosmos and to make documents efficacious; its role in court; the uneven spread - an aspect of Romanization - of this Roman form outside Italy, as provincials made different guesses as to what would please their Roman overlords; and its influence on the evolution of Roman law. An historical epoch of Roman legal transactions without writing is revealed as a juristic myth of origins. Roman legal documents on tablets are the ancestors of today's dispositive legal documents - the document as the act itself. In a world where knowledge of the Roman law was scarce - and enforcers scarcer - the Roman law drew its authority from a wider world of belief.

A legend in the car industry reveals the philosophy that's starting to turn General Motors around. In 2001, General Motors hired Bob Lutz out of retirement with a mandate to save the company by making great cars again. He launched a war against penny pinching, office politics, turf wars, and risk avoidance. After declaring bankruptcy during the recession of 2008, GM is back on track thanks to its embrace of Lutz's philosophy. When Lutz got into the auto business in the early sixties, CEOs knew that if you captured the public's imagination with great cars, the money would follow. The car guys held sway, and GM dominated with bold, creative leadership and iconic brands like Cadillac, Buick, Pontiac, Oldsmobile, GMC, and Chevrolet. But then GM's leadership began to put their faith in analysis, determined to eliminate the "waste" and "personality worship" of the bygone creative leaders. Management got too smart for its own good. With the bean counters firmly in charge, carmakers (and much of American industry) lost their single-minded focus on

product excellence. Decline followed. Lutz's commonsense lessons (with a generous helping of fascinating anecdotes) will inspire readers at any company facing the bean counter analysis-paralysis menace.
