The Schoolmistress and Other Stories contains twenty-one tales by Russian master of drama and the short story, Anton Chekhov. Among the stories is one

of Chekhov's classics, The Bet, in which a greedy banker makes an ill-considered bet regarding capital punishment with a young and impressionable guest. Fifteen years later - the surprise ending provides one of Chekhov's most thought-provoking tales. The title story is a careful reminder of the soul-deadening life of a teacher in the Russian countryside - for in Russia of Chekhov's day, education was less-valued than it is today, and teachers greatly underpaid and undervalued. Chekhov was of a different social background than more aristocratic Russian authors such as Tolstoy, Dostoevsky and Turgenev - this offered him an insight into character that differed from theirs. A physician as well, Chekhov's observational skills are clear in this, as with all of his collections of short fiction. These stories will remind the reader of other 19th Century masters of short fiction, such as Maupassant. But their nature, and poetic irony, is exclusively that of Anton Chekhov.
