Following his explosive New York Times bestseller *Red Notice*, Bill Browder returns with another gripping thriller chronicling how he became Vladimir Putin's number one enemy by exposing Putin's campaign to steal and launder hundreds of billions of dollars and kill anyone who stands in his way. When Bill Browder's young Russian lawyer, Sergei Magnitsky, was beaten to death in a Moscow jail, Browder made it his life's mission to go after his killers and make sure they faced justice. The first step of that mission was to uncover who was behind the \$230 million tax refund scheme that Magnitsky was killed over. As Browder and his team tracked the money as it flowed out of Russia through the Baltics and Cyprus and on to Western Europe and the Americas, they were shocked to discover that Vladimir Putin himself was a beneficiary of the crime. As law enforcement agencies began freezing the money, Putin retaliated. He and his cronies set up honey traps, hired process servers to chase Browder through cities, murdered more of his Russian allies, and enlisted some of the top lawyers and politicians in America to bring him down. Putin will stop at nothing to protect his money. As *Freezing Order* reveals, it was Browder's campaign to expose Putin's corruption that prompted Russia's intervention in the 2016 US presidential election. At once a financial caper, an international adventure, and a passionate plea for justice, *Freezing Order* is a stirring morality tale about how one man can take on one of the most ruthless villains in the world—and win.

A picture is worth a thousand lies in this psychological thriller by bestselling author David Levithan (*Every Day*; Will Grayson, Will Grayson with John Green). In this high school-set psychological tale, a tormented teen named Evan starts to discover a series of unnerving photographs—some of which feature him. Someone is stalking him . . . messing with him . . . threatening him. Worse, ever since his best friend Ariel has been gone, he's been unable to sleep, spending night after night torturing himself for his role in her absence. And as crazy as it sounds, Evan's starting to believe it's Ariel that's behind all of this, punishing him. But the more Evan starts to unravel the mystery, the more his paranoia and insomnia amplify, and the more he starts to unravel himself. Creatively told with black-and-white photos interspersed between the text so the reader can see the photos that are so unnerving to Evan, *Every You, Every Me* is a one-of-a-kind departure from a one-of-a-kind author.

How much further should the affluent world push its material consumption? Does relative dematerialization lead to absolute decline in demand for materials? These and many other questions are discussed and answered in *Making the Modern World: Materials and Dematerialization*. Over the course of time, the modern world has become dependent on unprecedented flows of materials. Now even the most efficient production processes and the highest practical rates of recycling may not be enough to result in dematerialization rates that would be high enough to negate the rising demand for materials generated by continuing population growth and rising standards of living. This book explores the costs of this dependence and the potential for substantial dematerialization of modern economies. *Making the Modern World: Materials and Dematerialization* considers the principal materials used throughout history, from wood and stone, through to metals, alloys, plastics and silicon, describing their extraction and production.

From award-winning ProPublica reporter Marshall Allen, a primer for anyone who wants to fight the predatory health care system--and win. Every year, millions of Americans are overcharged and underserved while the health care industry makes record profits.

We know something is wrong, but the layers of bureaucracy designed to discourage complaints make pushing back seem impossible. At least, this is what the health care power players want you to think. *Never Pay the First Bill* is the guerilla guide to health care the American people and employers need. Drawing on 15 years of investigating the health care industry, reporter Marshall Allen shows how companies and individuals have managed to force medical providers to play fair, and shows how you can, too. He reveals the industry's pressure points and how companies and individuals have fought overbilling, price gouging, insurance denials, and more to get the care they deserve. Laying out a practical plan for protecting yourself against the system's predatory practices, Allen offers the inspiration you need and tried-and-true strategies such as: Analyze and contest your medical bills, so you don't pay more than you should Obtain the billing codes for a procedure in advance Write in an appropriate treatment clause before signing financial documents Get your way by suing in small claims court Few politicians and CEOs have been willing to stand up to the medical industry. It is up to the American people to equip ourselves to fight back for the sake of our families--and everyone else.
