The Blue Guitar

Dundurn
A Rolling Stone Best
Music Book of 2019,
this biography of blues-
rock legend Mike
Bloomfield “draws you

in the way a novel does" (The Wall Street Journal). Named one of the world's great blues-rock guitarists by Rolling Stone, Mike Bloomfield remains beloved by fans forty years after his untimely death. Taking readers backstage, onstage, and into the recording studio with this legendary virtuoso, David Dann tells the riveting stories behind Bloomfield's work in the seminal Paul Butterfield Blues Band and the mesmerizing Electric Flag, as well as on the Super Session album with Al Kooper and Stephen Stills, Bob Dylan's Highway 61 Revisited, and soundtrack work with Peter Fonda and Jack Nicholson. Drawing from meticulous research, including more than seventy

interviews with the musician's friends, relatives, and band members, music historian David Dann brings to life Bloomfield's worlds, from his struggles to fit in on Chicago's wealthy North Shore with his Jewish family to the gritty taverns and raucous nightclubs where this self-taught guitarist helped transform the sound of contemporary blues and rock music. With scenes that are as electrifying as Bloomfield's solos, this is the story of a life lived at full volume. "Feels like one of the last great untold classic-rock tales, right up through Bloomfield's mysterious passing." —Rolling Stone "Reveals the depths of Bloomfield's musical

passions, genius and personal despair . . . Guitar King establishes his pivotal role in American music history.” —Pittsburgh Post-Gazette

Chronicle Books
Orrin is powerfully drawn to a blue guitar he sees in a music store when he is twelve and is taught to play and compose haunting music by a master teacher. While working as a janitor, he is attracted to Emily, a para-legal secretary. He knows if she could only hear his music she'd know he is more than a janitor. When he plays Rhapsody, the song he composed for Emily, she is overwhelmed and falls in love with him. Orrin now has the love of his life until she is hit by a

drunk driver. While in a coma, Orrin knows his music will bring her back but is forced to stop playing by the hospital and he loses her. His music grows sad until he realizes he must play beautiful music to have a love like Emily come to his life.

Americans conceive of the process of political representation as operating like a "transmission belt." Elections convey citizens' preferences unchanged into the legislative assembly and thereby allow them to participate, through their representatives, in the political affairs of the nation. This conception

stands firmly in the tradition of liberal thought, as does much theory about political representation. In that tradition, government is defined primarily in terms of power, and elections are little more than the means by which that power is transferred from the people to their representatives. In *The Blue Guitar* (the title alludes to a poem by Wallace Stevens), Nancy L. Schwartz offers a radically new understanding of representation. As she sees it, representatives should be—and, in the past, have been—more than mere delegates or trustees of individual desires and interests and the process of representation more than the appropriation of power and control. Ideally, representation

should transform both representative and citizen.

Representatives should be caretakers of the community, not the watchdogs of special interest groups or individuals. Citizens in turn should feel increased personal responsibility for the whole that membership in the community entails. Moreover, representatives should serve as founders of their constituencies, constituting communities whose members value citizenship as an end in itself. In her analysis, Schwartz canvasses the political experience of ancient, medieval, and Renaissance city-states to discover the communitarian meaning of citizenship, and she draws on

classical political theory from Plato to Rousseau and Hegel, on the political sociology of Marx and Weber, and on such contemporary theorists as Arendt and Pitkin. Schwartz also enters the controversy over whether local, state, and national legislators should be selected by district or at-large elections. After examining a set of key Supreme Court cases on voting rights and district elections, she proposes that representatives come from single-member geographic districts.
