Here the authors convincingly show that intergenerational faith formation, when done well, can be powerful, dramatic, even magical. Not only is there a place for intergenerational learning in parish faith formation, the authors believe there is a necessity for it. They show that intergenerational faith formation can help children, adolescents, and adults effectively identify with and integrate into the faith community because their learning and formation takes place in the context of community all ages learning together. People will be looking for this one.

Curious George's Dinosaur Discovery (read-Aloud) Westminster John Knox Press

This is intended to be a very simple book, an elementary treatment of a few basic ideas in Christian spirituality. Hence it should be useful to any Christian, and indeed to anyone who wants to acquaint himself with some principles of the interior life as it is understood in the Catholic Church. Nothing is here said of such subjects as "contemplation" or even "mental prayer." And yet the book emphasizes what is at once the most common and the most mysterious aspect in the Christian life: grace, the power and the light of God in us, purifying our hearts, transforming us in Christ, making us true sons of God, enabling us to act in the world as his instruments for the good of all men and for his glory. This is therefore a meditation on some fundamental themes appropriate to the active life. It must be said at once that the active life is essential to every Christian. Clearly the active life must mean more than the life which is led in religious institutes of men and women who teach, care for the sick, and so on. (When one is talking of the "active life" as opposed to the "contemplative life," this is the usual reference.) Here action is not looked at in opposition to contemplation, but as an expression of charity and as a necessary consequence of union with God by baptism.

Our Hearts Were Burning Within Us Thomas Nelson Inc

We Believe is the most definitive book to understanding our American heritage. It is designed to be a quick and easy way for Americans to understand what we, as a nation, believe and the core values upon which our great country was built and continues to thrive on. It is a powerful 30-day tutorial to understanding what our Founding Fathers believed, coupled with the erudite wisdom from subsequent generations, in the hopes of making us all better-informed Americans. Readers are taken on an historical journey from the Declaration of Independence to the Constitution to the Bill of Rights to the words of modern-day bearers of our American heritage and echoes with the voices of great leaders including Madison, Jefferson, Lincoln, JFK, Dr. King, President Reagan, and others-and how their words shaped, and continue to shape, our futures. They will be inspired by the thoughts, ideas and writings of these great leaders and infused with a sense of responsibility to preserve those very same American values for future generations.
