HOW TO MAINTAIN YOUR CAR AND KEEP IT RUNNING SMOOTHLY

Gramercy Books

This book revisits the early systemic formation of meditation practices called 'yoga' in South Asia by employing metaphor theory. Karen O'Brien-Kop also develops an alternative way of analysing the reception history of yoga that aims to decentre the Eurocentric and imperialist enterprises of the nineteenth-century to reframe the cultural period of the 1st - 5th centuries CE using categorical markers from South Asian intellectual history. Buddhist traditions were just as concerned as Hindu traditions with meditative disciplines of yoga. By exploring the intertextuality of the Patanjalyogasastra with texts such as Vasubandhu's Abhidharmakosabhasya and Asanga's Yogacarabhumisastra, this book highlights and clarifies many ideologically Buddhist concepts and practices in Patanjala yoga.

Karen O'Brien-Kop demonstrates that 'classical yoga' was co-constructed systemically by both Hindu and Buddhist thinkers who were drawing on the same conceptual metaphors of the period. This analysis demystifies early yoga-meditation as a timeless 'classical' practice and locates it in a specific material context of agrarian and urban economies.

The book follows the two children as they embark on an adventure, which begins with the discovery of a hidden witch's haven in a graveyard and Jordan's first encounter with the spirit world - but by know means the first for Sebastian. Then a haunted observatory on the outskirts of town yields a clue - a piece of an intriguing map leading to, what they believe to be, hidden treasure. After collecting the rest of the clues from around the town, Jordan and Sebastian search for the treasure, but instead of rubies, emeralds and gold doubloons, they find themselves lead to a doorway into another world, called the Phantom Realm.

Welcome to Pip Street! The very ordinary place where extraordinary things happen. Full of quirky black-and-white illustrations throughout, as well as fun activity sheets at the back. Can crumpets be cool? When Bobby's dad becomes the manager of the local crumpet factory, Bobby thinks his moving worries are at last over. He likes it here on Pip Street, especially now he has found a new best friend in fizzy Imelda from next door. Except crumpets are boring! And no one is buying them. Unless someone (and I bet it'll have to be Bobby) comes up with a fantabulous plan to make crumpets more interesting, Bobby's dad might lose his job and that means ... uh-oh ... moving again.

And who's that even newer boy across the street acting like he's better than everyone else, and making eyes at Imelda and trying to be her best friend instead? Looks like there's a crumpety calamity on Pip Street! Keep your eyes peeled for more PIP STREET adventures: A WHISKERY MYSTERY (9781407132815)

A "powerful and original" (The Times) historical saga that follows the quest for identity, redemption and home in the wake of World War II. One night in autumn 1944, a gunshot echoes through the alleyways of a small town in occupied Poland. An SS officer is shot dead by a young Polish Jew, Margarita Ejzenstain. In retaliation, his commander orders the execution of thirty-seven Poles--one for every year of the dead man's life. First hidden by a sympathetic German couple, Margarita must then flee the brutal advance of the Soviet army with her newborn baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance. Kingdom of Twilight follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former SS officer, chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from refugee camps to Lübeck, Berlin, Tel Aviv, and New York, as they try to make sense of a changed world, and of their place in it. Hypnotically lyrical and intensely moving, Steven Uhly's epic novel is a finely nuanced yet shattering exploration of universal themes: love, hatred, doubt, survival, guilt, humanity, and redemption.

The last thing Paisley Peterson needs is to fall in love. She left her

high-stress job in Boston so she could heal in Healing Springs-- isn't that what the town is about? She needs her sisters. She does not need a man. Asher has always been the one to take care of the people in his life, so when sexy Paisley strolls in and takes the lead, he finds himself turned on by her independence and confidence in a way he has never been turned on before. But after suffering too many losses in life and with a plate already brimming with family members who need his care and protection, can he handle the truth behind her sudden appearance in Healing Springs? How is he supposed to allow himself to get close to her when he could lose her? Asher and Paisley are from two different worlds with two different life plans. Will their unplanned love affair turn into a dead end? Or will it be just the detour they have both needed all along?

As the world warms, with the International community supinely sitting on the sidelines, as carbon emissions inexorably rise, as governments worldwide largely ignore the most challenging issues of our time, what does the future hold for our children and grandchildren? In this book the unfolding disasters of the 21st century - global heating, peak oil and the looming energy crisis - form a backdrop to the story of four generations increasingly struggling to survive in a steadily more volatile and dangerous world. Opening on the eve of the millennium, when life is still abnormally normal, we meet John and Mary, a middle aged couple on holiday on the Channel Island of Jersey. Fast forward a hundred years and their great great grandson Jason reaches the island now strangely silent and desolate, in a post apocalyptic world where life has been reduced to the grim imperatives of survival. In between, generations of the Shearer family are rocked by a series of events that expose just how thin is the veneer of civilisation in a globalised world built on the crumbling pillars of cheap oil and electricity on demand.

Encompassing all the major topics students will encounter in courses on the subject, the authors teach both the underlying mathematical foundations and how these ideas are implemented in practice. They illustrate all the concepts with both worked examples and plenty of exercises, and, in addition, provide software so that students can try out numerical methods and so hone their skills in interpreting the results. As a result, this will make an ideal textbook for all those coming to the subject for the first time. Authors' note: A problem recently found with the software is due to a bug in Formula One, the third party commercial software package that was used for the development of the interface. It occurs when the date, currency, etc. format is

set to a non-United States version. Please try setting your computer date/currency option to the United States option . The new version of Formula One, when ready, will be posted on WWW.

When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was

carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst.
