A guidebook to the Peaks of the Balkans Trail, a circular route through the wild and

rugged borderlands of Montenegro, Albania and Kosovo. The 192km trail winds its way through the spectacular scenery of the Prokletije Mountains (the southernmost range of the Dinaric Alps), taking in high passes, sweeping valleys and striking limestone peaks. It can be completed in around two weeks: the walking itself is not difficult though the route passes through some remote areas and demands a moderate level of fitness. The guide presents the trail in 10 daily stages and also includes suggestions for excursions to bag neighbouring peaks and visit local sites of interest. Comprehensive route description is

accompanied by mapping and colour photos. Welcoming guesthouses and homestays offer accommodation and delicious local cuisine on route, though camping is also a possibility. You will find everything you need to plan a successful trip: guidance on how to get to the route, advice on when to go, where to start your trek and what to take, and information on cross-border permits. Appendices include accommodation listings, useful contacts and an English-Albanian-Montenegrin glossary.

Eyewitness Travel Guide: Slovenia showing you what others only tell you. *The Julian Alps of Slovenia* Knopf Books for Young Readers "This is a history of a space - a space between the Panonian plain in the East and the most northernmost bay in the Adriatic in the West, from the eastern Alps in the North and the Dinaridic mountain area in the South. It is also a history of all the different people who lived in this area. The authors show that the Slavs did not settle an empty space and simply replace the Celto-Roman inhabitants of earlier times; they are, on the contrary, presented as the result of reciprocal acculturation. The authors show that the

Slovenes made more than two important appearances throughout the entire feudal era; the same holds for later periods, especially for the twentieth century. This book offers a concise and complete history of an area that finally became an integral part of Central Europe and the Balkans."--Pub. desc.

This guidebook contains over 60 walks which explore the best of the Julian Alps of Slovenia. The walks and treks in this guidebook are organised around five bases in the Julian Alps - Kranjska Gora, Bovec, Kobarid, Bled and Bohinj - all of which have a range of

accommodation and public transport facilities. There is something here for everyone - from easy valley walks and rougher forest trails to high-mountain protected routes, including multiple routes up Triglav, Slovenia's highest peak. Several possibilities for multi-day walks are included. The Julian Alps are situated in the small independent republic of Slovenia, at the south-eastern end of the Alpine chain. Their highest peak, Triglav, at 2864m, may be smaller than some of the better-known western giants, but what the mountains lack in stature they make up for in interest and accessibility. The dramatic limestone peaks drop steeply

through forests to flower meadows, and will give you a feast for the eyes no matter which direction you turn.
