NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Grammar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

Learn Swedish: Must-Know Swedish Slang Words & Phrases Xlibris Corporation

Presents an introduction to grammar along with a variety of

exercises for English language learners.

Using Functional Grammar John Benjamins Publishing
"Focusing on the descriptive facts of English, this volume provides a systematic introduction to English syntax for students with no prior knowledge of English grammar or syntactic analysis. English Syntax aims to help students appreciate the various sentence patterns available in the language, understand insights into core data of its syntax, develop analytic abilities to further explore the patterns of English, and learn precise ways of formalizing syntactic analysis for a variety of English data and major constructions such as agreement, raising and control, the auxiliary system, passive, wh- questions, relative clauses, extrapolation, and clefts"--Publisher's description.

Babel John Wiley & Sons

The Way of The Linguist, A language learning odyssey. It is now a cliché that the world is a smaller place. We think nothing of jumping on a plane to travel to another country or continent. The most exotic locations are now destinations for mass tourism. Small business people are dealing across frontiers and language barriers like never before. The Internet brings different languages and cultures to our finger-tips. English, the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication. But historically periods of cultural and economic domination have never lasted forever. Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures? As citizens of this shrunken world, would we not be better off if we were able to speak a few languages other than our own? The answer is obviously yes. Certainly Steve

Kaufmann thinks so, and in his busy life as a diplomat and businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia. Why do not more people do the same? In his book *The Way of The Linguist, A language learning odyssey*, Steve offers some answers. Steve feels anyone can learn a language if they want to. He points out some of the obstacles that hold people back. Drawing on his adventures in Europe and Asia, as a student and businessman, he describes the rewards that come from knowing languages. He relates his evolution as a language learner, abroad and back in his native Canada and explains the kind of attitude that will enable others to achieve second language fluency. Many people have taken on the challenge of language learning but have been frustrated by their lack of success. This book offers detailed advice on the kind of study practices that will achieve language breakthroughs. Steve has developed a language learning system available online at: www.thelinguist.com.

An Explorer's Guide Walter de Gruyter GmbH & Co KG

West of Kabul, East of San Francisco is the highlights of my life story. Keeping a diary is not common in developing countries such as Afghanistan, and this makes autobiographies less common in these countries. The existing biographies and autobiographies in the Islamic countries are mostly those about the Prophet Mohammad and other important religious figures or monarchs. These biographies, however, are full of praise. This historic precedent has also had its effect on autobiographies written by Western-educated Afghans. They too are full of praise and criticisms of rivals, rarely talking about their own problems

and weaknesses. In other words, they are mostly self-centered and egotistical in nature. In *West of Kabul, East of San Francisco*, I have tried to be as objective as possible in avoiding such pitfalls. I describe events and relationships as realistically as possible. But I realize that no one can entirely escape the influence of their mother culture.

Literally, the Best Language Book Ever Stanford Univ Center for the Study

This is more than just a handy Indonesian phrasebook, with additional information on the culture and also tips to be easily accepted by local Indonesians. Includes video links in the book for enhanced learning. Any seasonal traveler to Indonesia will tell you that having the ability to speak the Indonesian language and knowing its culture will make a huge difference in a person's travel experience in Indonesia, be it on a business trip or a leisure holiday visit. Knowing the very essentials of the language will get you around easily, accomplishing daily activities, from relating to the people, travelling from point to point, paying for the right product at the right price, checking-in and out of hotels, dining-in and getting much more out of your visit. That is the reason for this book which is designed for all travelers to Indonesia. The focus here is not only on effective communication, but also on simple grammar understanding, proper sentence construction, generating the right word for the right context, cultural exposure, and even tips to get the Indonesians to accept and embrace you better. It is organized to be easy, simple, concise, comprehensive and useful and yet not information dumping. Throughout the learning process, knowledge learnt will be accumulative, so you get to acquire the necessary skills to speak the language better

and more effective with every chapter of learning. Every chapter has a good mix of theory and practical, and contain common phrases that can be used immediately. Learners can immediately start to speak and communicate with the locals without having to first complete learning the whole book. Learn Indonesian Language Phrase Book covers: 1.Hundreds of useful Indonesian words and phrases 2.200 most common words in Indonesian 3.100 most common verbs, adjectives and nouns 4.Arranged by topic and situation for easy use and reference 5.Grammar and pronunciation guide 6.Cultural exposure and tips to be easily accepted by locals 7.Complete guide to the affixation system with clear explanation 8.Make learning simple, easy and fun with selected video clips 9.Material is arranged in a step-by-step manner. 10.Books are compact (in size) but comprehensive (in information) 11.Instructions are easy to follow and understand 12.Books can be used for self-improving or in a class learning environment 13.Good mixture of theory and practical 14.With the learning system of Language Made Easy Series, learners will learn the most important part of the language in a systematical manner, so they can apply the knowledge almost immediately

You learn the top 100 must-know slang words and phrases that are used in everyday speech. All were hand-picked by our team of Swedish teachers and experts. Here's how the lessons work: • Every Lesson is Based on a Theme • You

Learn Slang Words or Phrases Related to That Theme • Check the Translation & Explanation on How to Use Each One And by the end, you will have mastered 100+ Swedish Slang Words & phrases!

ANNOYING WORDS AND ABUSED PHRASES YOU SHOULD NEVER USE AGAIN

Catapult

Six thousand years. Sixty languages. One “brisk and breezy” whirlwind armchair tour of Europe “bulg[ing] with linguistic trivia” (The Wall Street Journal). Take a trip of the tongue across the continent in this fascinating, hilarious and highly edifying exploration of the many ways and whys of Euro-speaks—its idiosyncrasies, its histories, commonalities, and differences. Most European languages are descended from a single ancestor, a language not unlike Sanskrit known as Proto-Indo-European (or PIE for short), but the continent’s ever-changing borders and cultures have given rise to a linguistic and cultural diversity that is too often forgotten in discussions of Europe as a political entity. Lingo takes us into today’s remote mountain villages of Switzerland, where Romansh is still the lingua franca, to formerly Soviet Belarus, a country whose language was Russified by the Bolsheviks, to Sweden, where up until the 1960s polite speaking conventions required that one never use the word “you.” “In this bubbly linguistic endeavor, journalist and polyglot Dorren thoughtfully walks readers through the weird evolution of languages” (Publishers Weekly), and not just the usual suspects—French, German, Yiddish, Irish, and Spanish, Here, too are the esoteric—Manx, Ossetian, Esperanto, Gagauz, and Sami,

and that global headache called English. In its sixty bite-sized chapters, Dorret offers quirky and hilarious tidbits of illuminating facts, and also dispels long-held lingual misconceptions (no, Eskimos do not have 100 words for snow). Guaranteed to change the way you think about language, *Lingo* is a "lively and insightful . . . unique, page-turning book" (Minneapolis Star Tribune).

LEARN INDONESIAN LANGUAGE PHRASE BOOK

New Dictionary & Phrasebooks

Compiled by a linguist specializing in the region, this two-way pocket dictionary and phrasebook offers a map of Afghanistan; information useful for relief workers, business people, and travelers; and a concise grammar, pronunciation guide, and alphabet for one of the country's official languages.

Lingo Cambridge University Press

This is a new self-study reference and practice book for advanced learners of English who need vocabulary for business and professional purposes. It has been carefully researched using the Cambridge International Corpus to ensure that the 2,000 new words and expressions represent the English that native speakers actually use. The book consists of 50 units and follows the highly successful format of the English Vocabulary in Use range with presentation material on the left-hand page and practice exercises on the right-hand page. It covers a wide variety of up-to-date business topics and concepts including: people and organisations; quality; strategy; marketing; IT and the Internet; ethics and globalisation.

Semantics Routledge

This pack consists of the Basic English Grammar B Student Book

and the Workbook B. Blending communicative and interactive approaches with tried-and-true grammar teaching, *Basic English Grammar, Third Edition*, by Betty Schramper Azar and Stacy A. Hagen, offers concise, accurate, level-appropriate grammar information with an abundance of exercises, contexts, and classroom activities. Features of *Basic English Grammar, Third Edition*: Increased speaking practice through interactive pair and group work. New structure-focused listening exercises. More activities that provide real communication opportunities. Added illustrations to help students learn vocabulary, understand contexts, and engage in communicative language tasks. New Workbook solely devoted to self-study exercises. New Audio CDs and listening script in the back of the Student Book.

An Elementary Textbook Haneef Khee

"This is the first comprehensive reference grammar of Tajik, the Persian of Central Asia, to appear in English. It describes the modern literary language, with examples of colloquial and dialect usage, from the early Soviet period (1920s) up until Tajikistan's independence after 2001. Grammatical examples, taken from a variety of literary sources, are given in both the Cyrillic and Perso-Arabic scripts. Complete verb paradigms, a grammatical index, and parallel word-indexes in both writing systems make it easy to find particular points. Essential for the Iranologist and comparative linguist, for the student or teacher of Tajik Persian, and a valuable supplement for those who work with Persian of Iran or Afghanistan. With extensive indexes." -- book jacket.

Mastering Arabic 1 Dari Grammar and Phrase Book

The inspiration for the film starring Tilda Swinton and John C. Reilly, this resonant story of a mother's unsettling quest to

understand her teenage son's deadly violence, her own ambivalence toward motherhood, and the explosive link between them remains terrifyingly prescient. Eva never really wanted to be a mother. And certainly not the mother of a boy who murdered seven of his fellow high school students, a cafeteria worker, and a much-adored teacher in a school shooting two days before his sixteenth birthday. Neither nature nor nurture exclusively shapes a child's character. But Eva was always uneasy with the sacrifices and social demotion of motherhood. Did her internalized dislike for her own son shape him into the killer he's become? How much is her fault? Now, two years later, it is time for her to come to terms with Kevin's horrific rampage, all in a series of startlingly direct correspondences with her estranged husband, Franklin. A piercing, unforgettable, and penetrating exploration of violence and responsibility, a book that the Boston Globe describes as "impossible to put down," is a stunning examination of how tragedy affects a town, a marriage, and a family.

BASIC ENGLISH GRAMMAR

Xlibris Corporation

This accessible textbook is the only introduction to linguistics in which each chapter is written by an expert who teaches courses on that topic, ensuring balanced and uniformly excellent coverage of the full range of modern linguistics. Assuming no prior knowledge the text offers a clear introduction to the traditional topics of structural linguistics (theories of sound, form, meaning, and language change), and in addition provides full coverage of contextual linguistics, including separate chapters on

discourse, dialect variation, language and culture, and the politics of language. There are also up-to-date separate chapters on language and the brain, computational linguistics, writing, child language acquisition, and second-language learning. The breadth of the textbook makes it ideal for introductory courses on language and linguistics offered by departments of English, sociology, anthropology, and communications, as well as by linguistics departments.

[How to Learn Any Language Fast and Never Forget It](#) Routledge Starting at the very basics and working its way up to important language constructions, "An introduction to Japanese" offers beginning students, as well as those doing self-study, a comprehensive grammar for the Japanese language. Oriented towards the serious learner, there are no shortcuts in this book: no romanised Japanese for ease of reading beyond the introduction, no pretending that Japanese grammar maps perfectly to English grammar, and no simplified terminology. In return, this book explains Japanese the way one may find it taught at universities, covering everything from basic to intermediary Japanese, and even touching on some of the more advanced constructions.

FARSI

Harmony

"Babel is an endlessly interesting book, and you don't have to have any linguistic training to enjoy it . . . it's just so much fun to read." —NPR English is the world language, except that 80 percent of the world doesn't speak it. Linguist Gaston Dorren calculates that to speak fluently with half of the world's people in

their mother tongues, you'd need to know no fewer than twenty languages. In *Babel*, he sets out to explore these top twenty world languages, which range from the familiar (French, Spanish) to the surprising (Malay, Javanese, Bengali). Whisking readers along on a delightful journey, he traces how these languages rose to greatness while others fell away, and shows how speakers today handle the foibles of their mother tongues. Whether showcasing tongue-tying phonetics, elegant but complicated writing scripts, or mind-bending quirks of grammar, *Babel* vividly illustrates that mother tongues are like nations: each has its own customs and beliefs that seem as self-evident to those born into it as they are surprising to outsiders. *Babel* reveals why modern Turks can't read books that are a mere 75 years old, what it means in practice for Russian and English to be relatives, and how Japanese developed separate "dialects" for men and women. Dorren also shares his experiences studying Vietnamese in Hanoi, debunks ten myths about Chinese characters, and discovers the region where Swahili became the lingua franca. Witty and utterly fascinating, *Babel* will change how you look at and listen to the world. "Word nerds of every strain will enjoy this wildly entertaining linguistic study." —Publishers Weekly (starred review)

AN AUTOBIOGRAPHY

Cambridge University Press

Presents a Farsi-English dictionary containing over 4,000 entries with romanized Farsi text, as well as a phrase book and brief introductions to grammar, pronunciation and the Farsi alphabet.

Grammar and Lexis in English Language Teaching Open

Road + Grove/Atlantic

A few years ago, a magazine sponsored a contest for the comment most likely to end a conversation. The winning entry? "I teach English grammar." Just throw that line out at a party; everyone around you will clam up or start saying "whom." Why does grammar make everyone so nervous? Probably because English teachers, for decades – no, for centuries – have been making a big deal out of grammar in classrooms, diagramming sentences and drilling the parts of speech, clauses, and verbals into students until they beg for mercy. Happily, you don't have to learn all those technical terms of English grammar – and you certainly don't have to diagram sentences – in order to speak and write correct English. So rest assured – *English Grammar For Dummies* will probably never make your English teacher's top-ten list of must-read books, because you won't have to diagram a single sentence. What you will discover are fun and easy strategies that can help you when you're faced with such grammatical dilemmas as the choice between "I" and "me," "had gone" and "went," and "who" and "whom." With *English Grammar For Dummies*, you won't have to memorize a long list of meaningless rules (well, maybe a couple in the punctuation chapter!), because when you understand the reason for a particular word choice, you'll pick the correct word automatically. *English Grammar For Dummies* covers many other topics as well, such as the following: Verbs, adjectives, and adverbs – oh my! Preposition propositions and pronoun pronouncements Punctuation: The lowdown on periods, commas, colons, and all those other squiggly marks Possession: It's nine-tenths of grammatical law Avoiding those double negative vibes How to

spice up really boring sentences (like this one) Top Ten lists on improving your proofreading skills and ways to learn better grammar Just think how improving your speaking and writing skills will help you in everyday situations, such as writing a paper

for school, giving a presentation to your company's big wigs, or communicating effectively with your family. You will not only gain the confidence in knowing you're speaking or writing well, but you'll also make a good impression on those around you!
