The Llewellyn Practical Guide to Astral Projection by Denning and Phillips is simply the best step-by-step set of lessons for learning this skill ever

published. Over a quarter-million people are using this book to help them learn this valuable skill. If you want to learn how to project your consciousness onto the astral plane, you should use it, too. First, as the book shows, this skill is natural. You do it all the time (in dreams, for example.) In a sense, it is more natural than walking. It is a skill you can develop with practice. Further, it allows you to have spiritual experiences on the astral plane. Plus, what you create on the

astral plane creates changes on the physical plane. This is true magick! Heal someone on the astral and they will be healed on the physical. Create opportunities on the astral and you will have them on the physical. You can even experience sex on the astral plane for one of the most dynamic experiences you will ever have. And you can learn how to do all of this in *The Llewellyn Practical Guide to Astral Projection*. But it is not only the information in this book that makes it

easy to understand and use. The very design of each chapter ? as well as the illustrations, photos, charts, etc. ? make it easy for you to learn the techniques to consciously control your astral projection experiences. The book begins by showing you what astral projection is and what it is not, what can happen and what is fantasy. As a result, you will discover that astral projection can be safe, comforting, exhilarating, and fun. Then you will learn methods of being able to

let your consciousness leave your body and safely explore the astral plane. With this book in hand you can explore realms you've only dreamed of. Make your dreams a reality.

Where do we go when we die? Everything we know about the afterlife is based on someone else's spiritual experiences: near-death experiences (NDEs) and out-of-body experiences (OBEs) aka

astral projection. Most of the information has been distorted by religious agendas, centuries of time, ancient language misinterpretations, cultural differences, and just plain lack of words for what really happened. Wouldn't it be great if you could get your own answers without coming close to death? Now you can. This book will teach you how to temporarily exit your physical body and explore the world beyond. Many books claim to teach you how to induce OBEs, but fail to

deliver. Most sell you superstitious nonsense, occult rituals, or new-age mumbo-jumbo. Even the best seem to parrot the same stale techniques that don't work, and usually without any explanation of how they're supposed to work. This book is different. Hacking the Out of Body Experience is the best and most complete collection of no-nonsense techniques to induce OBEs. There is no cruff. It's one hundred percent OBE techniques, based on Peterson's 40 years of

firsthand experience, solid principles of neuroscience, bio-hacking, and information gleaned from all the experts in the field. Best of all, each technique contains a detailed explanation of the principles behind it and how it works.
