FREEDOM OF EXPRESSION AND HATE PROPAGANDA LAW IN CANADA

UBC Press
150 years after Confederation, Canada is known around the world for its social diversity and its commitment to principles of multiculturalism. But the road to contemporary Canada is a winding one, a story of division and conflict as well as union and accommodation. In Canada's Odyssey, renowned scholar Peter H. Russell provides an expansive, accessible account of Canadian history from the pre-Confederation period to the present day. By focusing on what he calls the "three pillars" of English Canada, French Canada, and Aboriginal Canada, Russell advances an important view of our country as one founded on and informed by

"incomplete conquests". It is the very incompleteness of these conquests that have made Canada what it is today, not just a multicultural society but a multinational one. Featuring the scope and vivid characterizations of an epic novel, Canada's Odyssey is a magisterial work by an astute observer of Canadian politics and history, a perfect book to commemorate the 150th anniversary of Confederation.

PERCEPTIONS AND PERFORMANCE

University of Toronto Press
Builds on the tradition of Kevin Phillips's The Emerging Republican Majority, forecasting a progressive era as indicated by a rise of a diverse post-industrial society and current opinions on such topics as health care and the environment. Reprint.
Constitutional Politics in Multinational Democracies
UBC Press
Political parties worldwide are using marketing tools such as targeting and segmentation to win

elections. Are these strategies making politicians and governments more responsive to voters' needs, or do they pose a threat to democracy? Through case studies that range from the resurrection of the Conservative Party to Tim Hortons as a political brand, this volume shows that the consequences of political marketing in Canada have been profound. Citizens are now viewed as consumers, and platforms and promises have been repackaged as products. Whether this trend is positive or negative depends on how politicians and governments carry out political marketing and its promises in practice.

DEMOCRACY, DIVERSITY AND HUMAN NATURE

Taylor & Francis
Bringing together political theorists and specialists in Canadian politics, Applied Political Theory and Canadian Politics combines conceptual frameworks from political theory and empirical

evidence to offer fresh perspectives on political events in contemporary Canada. Examining complex and timely subjects such as equality, social justice, democracy, citizenship, and ethnic diversity, contributors present current and archival research supplemented with insights drawn from political theory to give readers a deep and nuanced understanding of increasingly pressing issues in Canadian society. For scholars and students seeking a work of political theory that is tangible, focused, and connected to the real world of everyday politics, *Applied Political Theory and Canadian Politics* will be an important resource, combining philosophical insights and empirical evidence to enhance our understanding of contemporary Canadian politics.

Canadian Politics

Today Crown

Constitutional politics is exceptionally intense and unpredictable. It involves negotiations over the very nature of the state and the implications of self-determination.

Multinational democracies face pressing challenges to the existing order because they are

composed of communities with distinct cultures, histories, and aspirations, striving to coexist under mutually agreed-upon terms. Conflict over the recognition of these multiple identities and the distribution of power and resources is inevitable and, indeed, part of what defines democratic life in multinational societies. In *Constitutional Politics in Multinational Democracies* André Lecours, Nikola Brassard-Dion, and Guy Laforest bring together experts on multinational democracies to analyze the claims of minority nations about their political future and the responses they elicit through constitutional politics. Essays focus on the nature of these states and the actors and political process within them. This framework allows for a multidimensional examination of crucial political periods in these democracies by assessing what constitutional politics is, who is involved in it, and how it happens. Case studies include Catalonia and Spain, Puerto Rico and the United States, Scotland and the United Kingdom, Belgium, Bosnia and Herzegovina, and Quebec and the Métis People in

Canada. Theoretically significant and empirically rich, *Constitutional Politics in Multinational Democracies* is a necessary read for any student of multinationalism.

And No One Cheered
Cambridge Scholars
Publishing

This book clarifies the relation between religion and ethics, articulates principles governing religion in politics, and outlines a theory of civic virtue. It frames institutional principles to guide governmental policies toward religion and counterpart standards to guide individual citizens; and it defends an account of toleration that leavens the ethical framework both in individual nations and internationally.

Contemporary Canadian Federalism

Simon and Schuster

Canada is often held up as an example of a healthy democracy. However, the Canadian public is less enthusiastic about the way our democracy works. This first-of-a-kind book approaches the "democratic deficit" from the perspective of everyday Canadians and assesses the performance of Parliament and the media in light of their

perceptions and expectations. In doing so, a number of chapters highlight the disjuncture between perceptions and performance. Canadian Democracy from the Ground Up is essential for anyone who would like to learn how to build a better democracy - one that meets the expectations of the Canadian public.

Canada's Politics
University of Toronto Press

Canadian Government and Politics delivers an up-to-date and concise introduction to Canada's political institutions, processes, and issues. The text integrates theory, history, Census data, and current affairs to give students an orderly picture of the wide-ranging landscape of Canadian government and politics. This seventh edition includes coverage and analysis of the 2019 general election, as well as a preview of the new Canadian government. It also adds exciting material on Canada's cultural landscape, institutions, and policies, along with a new chapter on Indigenous Peoples. Other chapters examine the executive, legislative, and judicial branches of government, the electoral system, bureaucracy,

Québec nationalism, foreign policy, and much more. The authors provide trenchant coverage of many key issues of concern to Canadians, including regionalism, nationalism, climate change, defense policy, Indigenous Peoples' rights, minority rights, pipelines, and the USMCA trade deal. These topics are addressed by way of fair-minded impartial discussions, aimed to foster a vital and optimistic perspective on Canadian politics that will encourage critical thinking and active citizenship.

An Introduction to Politics in Canada University of Toronto Press

"Relatively little attention has been paid to the contributions of the CCF/NDP in Canadian politics. Surveying the field of political history in Canada, one might assume that the politics of the nation have been shaped solely by the Liberal and Conservative parties. This collection remedies this imbalance and critically examines the place of social democracy in Canadian history and politics. Bringing together the work of politicians, think tank members, party activists, union members,

scholars, students, and social movement actors in an important discussion about social democracy delving into an array of topics including municipal, provincial, and national issues, labour relations, feminism, contemporary social movements, war and society, security issues, and the media, Party of Conscience reminds Canadians of the important contributions the CCF/NDP and its forerunners made to a progressive, compassionate idea of Canada."--

Canadian Democracy from the Ground Up
Harvard University Press

Extending the ideas of John Rawls, Macedo defends a "civic liberalism" in culturally diverse democracies that supports the legitimacy of reasonable efforts to inculcate shared political virtues while leaving many larger questions of meaning and value to private communities.

Democracy, Diversity, and Good Government Oxford University Press

The global history of oil politics, from World War I to the present, can teach us much about world politics, climate change, and international order in the twenty-first century.

When and why does international order change? The largest peaceful transfer of wealth across borders in all of human history began with the oil crisis of 1973. OPEC countries turned the tables on the most powerful businesses on the planet, quadrupling the price of oil and shifting the global distribution of profits. It represented a huge shift in international order. Yet, the textbook explanation for how world politics works—that the most powerful country sets up and sustains the rules of international order after winning a major war—doesn't fit these events, or plenty of others. Instead of thinking of "the" international order as a single thing, Jeff Colgan explains how it operates in parts, and often changes in peacetime. *Partial Hegemony* offers lessons for leaders and analysts seeking to design new international governing arrangements to manage an array of pressing concerns ranging from US-China rivalry to climate change, and from nuclear proliferation to peacekeeping. A major contribution to international relations theory, this book promises

to reshape our understanding of the forces driving change in world politics. *Democracy, Diversity and Good Government* UBC Press
 In Quebec and Scotland, questions of constitutional change, national identity, and national grievance play an important role in the electoral calculations of political parties and voters. Taking a strong stance on the national question can have strategic benefits both for parties pushing for greater autonomy and for those endorsing the status quo. In this in-depth look at issue voting, authors Éric Bélanger, Richard Nadeau, Ailsa Henderson, and Eve Hepburn examine how the national question affects political parties and voter behaviour in both substate nations. Through party manifestos, interviews with legislators, and opinion survey data, this book demonstrates that calls for constitutional change influence political debate, competition, voter choice, and the outcome of elections not only within Quebec and Scotland but also across Canada and the United Kingdom. Minority nationalist parties, the authors show,

can gain support by claiming ownership of issues with widespread public agreement, such as self-determination and protecting the identity and interests of the nation. A comprehensive analysis of recent electoral politics, *The National Question and Electoral Politics in Quebec and Scotland* greatly enhances our understanding of the electoral impact of substate nationalism. **Federalism, Democracy, and the Constitution Act** Oxford University Press, USA
 The question of how to govern diverse populations has been at the core of political thought from ancient times to the present. The contributors to this volume address this fundamental issue by engaging with the history of ideas regarding democracy, diversity and human nature, from the political thought of Xenophon in ancient Greece to practices of Zapatista governance in modern-day Mexico. Drawn from papers originally presented at the first two meetings of the London Graduate Conference in the History of Political Thought, this volume brings together

the innovative contributions of graduate students in the history of political thought and political theory with commentary provided by the fields' leading scholars to consider this essential question. [The Representation of Immigrants, Minorities, and Women](#) McGill-Queen's Press - MQUP Contemporary and accessible, *Inside Canadian Politics* provides a fresh perspective on the institutions and issues at the heart of our political system. This text explores key concepts and topics in Canadian politics from federalism, regionalism, Indigeneity, and diversity, to the party system, media and political communication, and elections. Each chapter invites students to debate and discuss the effectiveness of government mechanisms in the daily lives of Canadians. This new edition has been fully updated to include the political realities of Canada today, including discussion of fakenews, the effects of social media on democracy, issues surrounding resource development and climate change, and the renegotiation of crucial trade agreements.

[Canadian Government and Politics - Seventh Edition](#) UBC Press What do we really mean by phrases such as "western Canadian political culture," "the centrist political culture of Ontario," "Red Toryism in the Maritimes," or "Prairie socialism"? What historical, geographical, and sociological factors came into play as these cultures were forged? In this book, Nelson Wiseman addresses many such questions, offering new ways of conceiving Canadian political culture. The most thorough review of the national political ethos written in a generation, *In Search of Canadian Political Culture* offers a bottom-up, regional analysis that challenges how we think and write about Canada. [The Hidden Story of Canada's Unfinished Democracy](#) Harvard University Press This edited volume explores the obstacles to and opportunities for the development and entrenchment of a sustainable and representative multinational federalism. In doing so, it tackles a striking puzzle: on the one hand, scholars agree that deeply diverse multinational and

multiethnic democracies should adopt federal structures that reflect and empower territorially concentrated diversity. On the other hand, there are very few, if any, real examples of enshrined and fully operative substantive multinational federalism. What are the main roadblocks to the adoption of multinational federalism? Can they be overcome? Is there a roadmap to realizing multinational federalism in the twenty-first century? In addressing these questions, this book brings together scholars from across the globe who explore a diverse range of cases from different and innovative analytical approaches. The chapters contribute to answering the above questions, each in their own way, while also addressing other important aspects of multinational federalism. The book concludes that the way forward likely depends on the emergence of a specific set of norms and a receptiveness to the complex institutional design.

The Emerging

Democratic Majority

Canada's Politics This is your government! Completely up to date coverage of the landscape

of Canadian politics with a thought provoking approach designed to get students thinking about the events that are currently shaping politics in Canada. This text provides students with an introduction to the major aspects of Canadian politics with a special emphasis on the unique challenges our diverse population places on the practice of democracy and good government. With each aspect covered, it raises thought-provoking questions designed to encourage students to think critically about the important issues and topics currently shaping politics in Canada. Featuring relatable examples, a full-colour interior, and a jargon-free writing style, Canadian Politics will engage students and provide them with the foundation they need for future study. *Revel for Canadian Politics Today Democracy, Diversity and Good Government -- Print Offer Democracy, Diversity and Good Government An Introduction to Politics in Canada This is your government! Democracy, Diversity, and Good Government*, with a unique approach and attractive, four-colour

design, is the first new introductory text for Canadian Politics courses to be published in many years. This is a lively text that aims to provide students with the foundation they will need in the discipline, with a minimum of jargon, while raising thought-provoking questions designed to engage their interest in Canadian politics. It focuses particularly on the special challenges for the practice of democracy and good government that arise from the great diversity within the Canadian population. *Canadian Politics Democracy, Diversity and Good Government Canada's Politics Democracy, Diversity and Good Government This is your government! in Canada. Featuring relatable examples, a full-colour interior, and a jargon-free writing style, Canadian Politics will engage students and provide them with the foundation they need for future study. *Canada's Politics Democracy, Diversity and Good Government, Loose Leaf Version Canadian Politics Today Democracy, Diversity, and Good Government*"Politics affects many aspects of our lives, such as students' ability to afford higher education and their opportunities in the labour market; our rights and freedoms; the protection of our natural environment; the safety of the food we eat; and the peace, prosperity, and security of our country. Canadian politics is particularly interesting because the country's great diversity poses opportunities and challenges for the practice of democracy and the good government that Canadians expect."-- *The Oxford Handbook of Canadian Politics Electing a Diverse Canada* presents the most extensive analysis to date of the electoral representation of immigrants, minorities, and women in Canada.

Covering eleven cities, as well as Canada's Parliament, it breaks new ground by assessing the representation of diverse identity groups across multiple levels of government. Electoral representation is an important indicator of a democracy's health, and this book provides both a baseline for future research and an outline of the key challenges facing Canadian democracy.

CANADIA'S POLITICS

UBC Press

Women's participation in politics matters very much. Yet in Canada, women MPs have been stuck at a level of roughly one-fifth since 1993, and Stephen Harper has fewer women in his government than did Brian Mulroney. Although we may believe women are making progress, their representation in politics seems decidedly stalled. So it comes as no surprise that we hear little about issues of particular interest to women--breast cancer, violence against women, or the poverty of single mothers. In this engaging, no-nonsense, and witty book, Sylvia Bashevkin argues that

Canadians have a profound unease with women in positions of political authority--what she calls the women plus power equals discomfort equation. She explores the specific reasons why this discomfort is particularly severe in Canada. Bashevkin also evaluates a range of barriers faced by women who enter politics, including the media's role in assessing the leadership styles, personal appearances, and private lives of female politicians. In clear, accessible terms, Bashevkin explains concepts such as gender schemas and media framing in terms of key examples, such as Belinda Stronach and Hillary Clinton. Finally, Bashevkin outlines some compelling solutions to address the stalemate facing women in Canadian politics.

Democracy, Diversity and Good Government

-- **Print Offer** UBC Press
For this new edition, James Bickerton and Alain-G. Gagnon have organized the book into six parts. Part I covers the origins and foundations of Canada as a political entity while Part II focuses on Government,

Parliament, and the Courts. Part III examines matters pertaining to federalism and the Canadian Charter of Rights and Freedoms. Part IV casts some new light on electoral politics and political communications and Part V examines citizenship, diversity, and social movements. Part VI, the final section of the book, concentrates on a number of political issues that merit special attention on the part of political actors and decision makers, namely the evolving relationship between Canada and Indigenous peoples, immigration and refugees, environment and climate change, and relations between Canada and the United States. This seventh edition of Canadian Politics includes twelve new chapters, with ten new contributing authors and coverage of six new subjects. It is essential reading for students and specialists studying Canadian politics.
