An eastward extension of the line was first proposed in the 1970s and a modified route was constructed during the 1990s. It opened in stages from May to December 1999. Jubilee Line Extension - Wikipedia The Jubilee Line Extension was one of the UK's biggest construction projects and the largest addition to the London Underground in more than 25 years. But it was severely behind schedule. Problems with tunneling and signaling had plagued the project and inspections were also behind schedule. Jubilee Line Extension, London, UK - Bechtel The initial Jubilee Line opened on 1 May 1979, linking up the then most recent sections of Underground, the 4km (2.5 miles) of twin tunnels between Baker Street and Charing Cross, with the former Bakerloo Line branch between Baker Street and Stanmore. Approval for a further Jubilee Line extension was gained in March 1992. The project London Underground Jubilee Line - Railway Technology Jubilee Line Extension - WINCRO As part of the Urban Renewal plan for the London in the 70's, there was a significant need to provide improved transport infrastructure for the redevelopment of the London Docklands in east and south-east London. Jubilee Line Extension - WINCRO The Jubilee Line Extension is the extension of the London Underground Jubilee line from Green Park to Stratford through south and east London. An eastward extension of the Jubilee line was first proposed in the 1970s and a modified route was constructed during the 1990s. It opened in

stages from the summer to Christmas 1999. Jubilee Line Extension | UK Transport Wiki | Fandom At the end of the book there is a chapter on tunnelling the line by Bob Mitchell, General Manager of the Jubilee Line Extension Project. This valuable record of an extraordinary building project is an essential publication for architects, engineers, transport enthusiasts and anyone interested in new developments in London."--BOOK JACKET. The Jubilee Line Extension - Ken Powell - Google Books Jubilee Line Extension When London's Docklands began to be regenerated, the City's financial heart moved towards Canary Wharf. The extension of the Jubilee Line was proposed to connect this new hub to central London. Under the leadership of Roland Paoletti, the best talent in British architecture was called upon to develop the station. Jubilee Line Extension - Product Design - Maynard Design Join Mike Ashworth, former head of heritage for Transport for London and Henrietta Billings, director of SAVE Britain's Heritage for this special live event celebrating the award winning design and architecture of the Jubilee Line Extension stations, including Southwark Station which SAVE successfully campaigned to protect from major demolition in 2017. A modern 'architectural sensation': The Jubilee Line ... The Jubilee line is a London Underground line that runs between Stratford in east London and Stanmore in the suburban north-west, via the Docklands, South Bank and West End. Opened in 1979, it is the newest line on the network, although some sections of track date back to 1932 and some stations to 1879. The western portion between Baker Street and Stanmore was previously a branch of the Metropolitan line and later the Bakerloo line, while the new build was completed in two major sections: initial Jubilee line - Wikipedia TfL Publishes Report into Impacts of Jubilee Line Extension Transport for London (TfL) has published a summary report into the impacts of London Underground's Jubilee Line Extension (JLE), prepared...
