Finance for non-financial managers McGraw-Hill Education
Finance for the Nonfinancial Manager, Fourth Edition. If you're a manager, odds are you're playing a larger and more important role in the financial matters of your company. As today's marketplace becomes increasingly competitive, it's essential that all managers have a basic understanding of the tools, objectives, and functions of finance if they are to stay ahead of the competition. Covering the gamut of the "numbers" end of management, Finance for the Nonfinancial Manager helps you develop a sound basis for carrying out strategic financial planning and decision-making responsibilities. This comprehensive reference has served as an indispensable guide for executives, managers, and small business

owners for almost twodecades. Now in its fourth edition, this classic has been updated to reflect the latest federal tax and regulatory legislation, and it is filled with new charts, tables, and examples suitable for the needs of today's manager. From basic economic concepts to accounting conventions, the broad range of topics examined in Finance for the Nonfinancial Manager include: cash flow management, banking relationships, security markets, credit policies, and capital acquisition. You'll also find practical guidelines for such important skills as how to: * Interpret balance sheets. * Design budgets and P & Ls. * Apply break-even analyses. * Decipher financial statements. Now more than ever, being a manager in the competitive marketplace requires a solid understanding of key aspects of finance. This revised and expanded edition of Finance for the Nonfinancial Manager shows you how to get a handle on the basic concepts and principles you need to run and maintain a successful business.

Managers Need to Know*
McGraw Hill Professional

The book Finance for
Executives: A Practical
Guide for Managers meets
the needs of global
executives, both finance
as well as non-financial
managers. It is a practical
and fundamental finance
reference book for any
manager, as it makes a
perfect balance of
financial management
theory and practice. It
focuses on corporate
finance concepts from
value creation to
derivatives, including cost

of capital (and WACC), valuation, financing policies, project evaluation, and many other essential finance definitions. Finance for Executives makes finance simple and intuitive, through the use of real world data (brief company case studies and empirical examples of concepts), Excel financial modelling tools, and practical short chapters. Target Audience This finance book is appropriate for business executives, from all backgrounds, seeking to Focus on the links between financial management and the strategy of their company, be it a private or publicly traded company Discover how to create value for their company and boost its financial performance Understand the key topics of corporate finance for non-financial managers Create a cost of capital culture within a company Refresh and broaden their understanding of the latest financial concepts and tools Learn about financial management for decision makers - including financing and dividend policies, company valuation, mergers and acquisitions (M&As), project evaluation, cost of capital (WACC) estimation, or risk

management and derivatives Finance for Executives is suited as a finance textbook for corporate finance programs, executive education courses, as well as in MBA, master's, and executive MBA programs. Indeed, the book is based on many years of executive education and consulting with world-class corporations from all continents of the world. What Is This Book About? Finance should be fun, and practical as well. With this book at hand, you will have access to a set of tools that will help you develop your intuition for solving key financial problems, improve your business decisions, and formulate strategies. This finance for managers' reference book is based on Simplicity - The core concepts in corporate finance are simple, and will become intuitively clear after using this book Conciseness - The chapters are short and self-contained to appeal to busy executives who are keen on value-added activities Practical focus - The key concepts of financial management are explained (and linked to Excel modelling tools), while you learn to identify the problems and pitfalls of different managerial

choices Application of theory to practice - It highlights key academic research results that are relevant for practitioners Real-world focus - The book includes empirical data on several companies and industries around the world. Working with real-world problems and real-world data is more fruitful than theoretical discussions on formulas Excel Templates An Excel spreadsheet containing all the financial models used in the different chapters is available for download from the book's website. Practitioners will find the file easy to customize to their own requirements. It is useful in a variety of situations: value creation and its decomposition into managerial drivers or key performance indicators (KPIs), cost of capital (WACC) estimation, project evaluation, mergers and acquisitions, company valuation, derivatives valuation, etc. Editorial Reviews An excellent teach-yourself finance primer for non-financial executives, and, I dare say, even for most finance executives. Ravi Kant, Vice Chairman, Tata Motors, India The finance reference book for the desk of ANY manager. Michel Demaré, Chairman

of the Board, Syngenta, Switzerland The perfect balance of practice and theory. Geert Bekaert, Professor of Finance, Columbia Business School, USA A key tool to improve your business decisions. Thilo Mannhardt, CEO of Ultrapar, Brazil Finance for Executives is easy to follow, and makes a boring subject actually quite exciting. Severin Schwan, CEO, Roche Group, Switzerland A must-have for your list of favorites. José Manuel Campa, Professor of Finance, IESE Business School, Spain *FT Guide to Finance for Non-Financial Managers* Kogan Page Publishers Make simple sense of complex financial information! THE FINANCIAL TIMES GUIDE TO FINANCE FOR NON-FINANCIAL MANAGERS

Bookboon Finance and Accounting for Nonfinancial Managers, Third Edition, introduces the reader to financial terminology, relates financial measures to operating information, enables the student to understand and apply financial measures to operating performance, and ties all of this to the current business environment. Today's managers, whether supervisors or senior executives, are expected to understand and use financial and operational measures, prepare and utilize budgets, respond to inquiries about the

financial consequences of actions taken by them or by their department or team, and understand and use financial and accounting terminology—the common language of business measurement. Written in a conversational, easy-to-understand tone, the course treats finance and accounting from the perspective of users of financial information—it enhances their ability to communicate effectively with subordinates, other managers, senior executives, and accounting and finance professionals. It offers managers the ability to use and analyze financial information to improve the performance of their operations and to identify—and avoid—potential problems. The third edition includes discussion of the continuing transition of financial reporting to an international standard as well as consideration of the effects on accounting and finance resulting from the Recession of 2007-2009. New sections on how to read an annual report and navigating the shifts in the marketplace are also included. This edition has been updated throughout to provide

managers with the most current and complete information available. Selected Learning Objectives Participants will learn how to: Prepare budgets Read, understand, and use financial and operational measures Manage short-term assets Relate department performance to the big picture. This is an ebook version of the AMA Self-Study course. If you want to take the course for credit you need to either purchase a hard copy of the course through amaselfstudy.org or purchase an online version of the course through www.flexstudy.com.

Finance for Non-Financial Managers in a Week

McGraw Hill Professional
Financial reports speak their own language, and managers without a strong finance background often find themselves bewildered by what is being said.

Finance for NonFinancial Managers helps managers become familiar with essential financial information, showing them how to "speak the language of numbers" and implement financial data in their daily business decisions. In addition, it clarifies how and why financial decisions impact business and operational objectives.

They say that numbers don't lie, but what if you can't even read them? Financial analysis reports, budgeting reports, forecasting and measuring reports--sometimes they all run together, don't they? The Essentials of Finance and Accounting for Nonfinancial Managers is here to help. This new edition of a business classic demystifies finance and accounting and gives managers the

tools they need to make better decisions. Complete with fresh insights, case studies, and street-level exercises to help non-numbers people master the numbers game, this indispensable translation guide reveals how to: • Understand the fundamentals of financial analysis, budgeting, and

forecasting • Interpret balance sheets, income/cash flow statements, and annual reports • Sift through conflicting data to find the most relevant figures • Locate key information about competitors and suppliers • Analyze variances and calculate break-even points and other vital measures •

And much more! The numbers are too important to allow others to translate for you. You need to know how to read them yourself. Imagine the impact on future decisions when you grasp not only what the numbers mean but can use that insight to drive your business forward.
