Exactly 100 years ago in 1910 at Portello on the outskirts of Milan, a new company was established in the still young world of motoring of the period: Alfa Romeo. A name which, in those 100 years, has become synonymous with cars, so important has its presence been both on the industrial and sports fronts as well as culturally. In this long period of time, the celebrated Italian marque brought to life cars that have entered by right into the history of the automobile and not only that of Italy, like the 1900, the Giulietta and the Giulia. Yet at the same time the company was able to write its own unrepeatable pages in the annuals of motor sport, winning all the most important races: from the Mille Miglia to Le Mans, from the Tourist Trophy to the World Sports Car Championship. An epic about which just almost everything has been written; but this volume by a great authority on the subject in Maurizio Tabucchi aims to be a tribute to this tremendous story, told above all by pictures, many of them previously unpublished, and supported by brief but exhaustive texts.

What is innovation? The dictionary defines it as "renewal through the use of new processes and technologies." In advertising, everything is an innovation. But what is truly innovative? Since 1930, the Pininfarina design firm of Turin, Italy, has been answering that question. This is where the Cistalia 202 was developed, the first vehicle to be added to MoMA's permanent collection. The list goes on: the interior of the new stadium for Juventus Turin, the Nash Healey Spider seen in Billy Wilder's *Sabrina*, and the legendary Ferrari Dino 246 and Ferrari Testarossa. However, Pininfarina is not resting on its laurels, but blasting full speed ahead into the future with an expanded portfolio while honoring its heritage. Whether it's a solution for sustainable mobility, interior designs, or household gadgets, all Pininfarina projects bear an unmistakable signature. To visually celebrate the history and influence of Pininfarina, there is no one better suited than a man who has made his own unmistakable mark on automotive photography. Gunther Raupp has spent 30 years photographing cars for Ferrari's official calendars, which enjoy a cult following among the experts. He has two successful books with teNeues, the most recent being *The Ferrari Book*. As a star photographer and connoisseur of industrial design, Raupp showcases a company that embodies true italianita.

With newfound perspective, Kerik makes a plea for change and illuminates why our punishment system doesn't always fit the crime. In this extraordinary memoir, Kerik reveals his unprecedented view of the American penal system from both sides: as the jailer and the jailed. With astonishing candor, bravery, and insider's intelligence, Bernard Kerik shares his fall from grace to incarceration, and turns it into a genuine and uniquely insightful argument for criminal justice reform.

When one thinks of the Mille Miglia, the most celebrated race in the world that took place between 1927 and 1957, the mind certainly goes back to OM, Bugatti, Mercedes-Benz, Porsche, Lancia as well, of course, as the ultra-victorious Alfa Romeo and Ferrari, the greatest car manufacturers that have competed in the Italian marathon. But the memorable history of the great race is made up mainly of men: drivers, co-drivers, mechanics, technical and sports directors, organisers as well as film and show business personalities plus, naturally, an immense public following. All of those faces have names, some well-known others less so, and stories, some well worth telling others less so. The book brings together a series of portraits in alphabetical order that make up the fragments of this historic sports and cultural mosaic that was the Mille Miglia, once again told by Leonardo Acerbi from his deep knowledge of the Brescia-based race.
